

care and pains are expended on not only the care of the property, but also in beautifying it, the result being most beneficial to the city, town or district, where such purchases are made. It would be well if such plans of systematic saving were better known and more universally studied especially by those who have the interests of their fellow-men at heart and who could, by suggesting such a line of action do much to raise the heavy burden from those less favored than themselves.

We desire to call the attention of our readers to the advertisement of the Wrought Iron Range Company of Toronto. The name Home Comfort by which these ranges are known is a happy one, suggestive of all that is pleasing in that department of the household. The history of the Wrought Iron Range is a remarkable one while the reputation of their output is the most enviable and deserving of any similar firm in the world. The Home Comfort are guaranteed absolutely unbreakable and will not crack or warp. The severest test may be applied to them. They may be smashed with a sledge hammer or jumped upon by a two hundred pound man, but without the slightest effect. The object of the Wrought Iron Range Company is to supply the demand for a perfect Wrought Steel and Malleable Iron Unbreakable Range, hence the Home Comfort which meets all the requirements necessary in a perfect Range to a degree that is astonishing in its practical demonstration. The best possible quality of iron is bought by the Home Comfort people. It is then treated in an annealing furnace and rendered literally indestructible when transformed into a Home Comfort Range. Internally the Home Comfort is perfect and unique. It is lined with asbestos, thus adding heat thrown upon the articles being cooked and preventing the radiation of heat from the Range. All the linings are in adjustable sections which can be easily and rapidly fitted. The other adjuncts of the Home Comfort are in complete accord with perfection. Such as hot-air closets, simplicity in cleaning and dumping the ashes and many other noticeable improvements over other ranges. An important feature in the business of the Wrought Iron Range Company is that they do not sell to the trade at all, but deliver the Home Comfort from their own wagons and by their own authorized salesmen direct to the householder, thus having no dealings with outsiders. The superiority of the Home Comfort Range over all others must not be forgotten in the fact that at the World's Columbian Exposition they received six highest rewards; at New Orleans, four gold medals, and at the Midwinter Fair, San Francisco, six gold medals. These facts are standing irrefutable proof of the unsurpassed qualities of the Wrought Iron Range Company's Home Comfort Ranges, and we ask for them a careful inspection when and wherever shown.

Health Built Up

"I had a very bad cold which settled on my lungs. I was under doctor's care and was not able to get out of the house for eight weeks. I did not gain strength very fast and other remedies failing to help me or improve my ease, I was induced to try Hood's Sarsaparilla. I have taken several bottles and my health is improved very much. Since I have taken Hood's Sarsaparilla I feel very much stronger than for a long time past. I have recommended Hood's Sarsaparilla to others, for it truly has been of great benefit to me." JOSPH NIXON, North Kingston, Nova Scotia.

Hood's Sarsaparilla Cures

Hood's Pills are a mild cathartic. 2c.
