

Doctors Disagree

As to whether ethical propriety permits them to prescribe proprietary preparations, but all do so, and few of the many thousand physicians who have used the **AMICK** Chemical Treatment for Consumption and diseases of the air passages could be induced to discontinue. Express receipts on file show 1000 Shipments to Physicians in March, 1894—1900 during March, 1893.

AMICK CHEMICAL CO., Cincinnati, Ohio

We are the Originators of ASSAYED POWDERS for Percolation.

ALL the knowledge of medicine and experience in treatment of disease is of little avail, provided the medicine administered be not of proper character. The following line of Tinctures removes this obstacle and insures uniform and known strength:—

Tr. Aconite Root	contains to	15 minims	1/41	grain	Aconitine.
" Belladonna Leaves	"	"	1/108	"	Atropine.
" Cantharides Russian	"	"	1/129	"	Cantharidine.
" Digitalis Leaves	"	"	1/448	"	Digitalline.
" Gelsemium	"	"	1/108	"	Gelsemine.
" Golden Seal	"	"	1/82	"	Hydrastine.
" Hyoscyamus	"	"	1/286	"	Hyosciamine.
" Opium	"	"	1/4	"	Morphine.
" Stramonium Seed	"	"	1/216	"	Daturine.

The above represents only about one-third of the list of drugs susceptible of assay, but we deem these sufficient to illustrate our methods.

We also prepare for percolation, with the same care, a list of over 400 Roots, Barks, Herbs, etc., making it the most complete list of Powdered Drugs ever issued.

The vital importance of accurate medicine in the treatment of disease is obvious.

These Tinctures furnish a uniform as well as known strength and can be obtained from any pharmacist who uses our Assayed Powders for Percolation.

We solicit your inquiries for samples.
