

"Doc." If it has been your misfortune to be called "doc." and if this recognition has become at all general among your friends you might as well move to some other place. A man may be called a thief, a liar and a dead beat, and yet he may prosper and live upon the fat of the land. But once let him be called "doc" and his professional success is at an end. We would prefer to spend a night in the station-house, so far as its effect on our professional success is concerned rather than to have our friends notice our approach by saying, "There comes doc." If a man calls you "doc" you need never expect a penny from him for any professional services you could render. His answer is sure to be, "All right, doc, in a few days that will be all right." "Doc" means disaster. "Doc" is the culmination of all calamity. "Doc" is a catastrophe given at one stroke. "Doc" is the warning that we have reached the extreme limit of our usefulness. "Doc" is the hand which points us to the next town. Shun it, my young friend, as you would flee from a Kansas cyclone or a prairie-fire. Knock the man down who first dares speak it to

you, and call upon the whole medical profession for vindication of your righteous deed.—*The National Medical Review.*

**BLISTERS OF THE FEET.**—In the German army the following application is employed for the rapid cure of blisters of the feet incident to long marches:

R Black soap . . . . . 52 parts.  
Water . . . . . 27 parts.  
Vaseline . . . . . 15 parts.  
Oxide of zinc . . . . . 6 parts.  
Essence of lavender, enough to perfume.  
—*Therapeutic Gazette.*

**INSOMNIA OF CHILDREN:**

R Chloralis . . . . . gr. ij.  
Tr. moschi,  
Tr. valerianæ . . . . . aa gtt. xx.  
Aqueæ dest. . . . . ʒ j.

M. Sig. Inject the entire quantity into the rectum, and if necessary, the dose may be repeated if sleep does not ensue in the course of two or three hours.—*Ex.*

## RELIABLE AND PROMPT

Two Characteristics that Commend SCOTT'S EMULSION to the Profession.

**T**HERE ARE MORE THAN TWO—but the fact that this preparation can be depended upon, and does its work promptly, covers the whole subject.

Physicians rely upon SCOTT'S EMULSION OF COD LIVER OIL WITH HYPOPHOSPHITES to accomplish more than can possibly be obtained from plain cod-liver oil. They find it to be pleasant to the taste, agreeable to the weak stomach, and rapid of assimilation. And they know that in recommending it there is no danger of the patient possessing himself of an imperfect emulsion. SCOTT'S EMULSION remains under all conditions *sweet* and *wholesome*, without separation or rancidity.

FORMULA: 50% of finest Norwegian Cod Liver Oil; 6 grs. Hypophosphite of Lime; 3 grs. Hypophosphite of Soda to the fluid ounce.

SAMPLE of Scott's Emulsion delivered free to the address of any physician in regular practice.

Prepared by SCOTT & BOWNE, Chemists,

132 South Fifth Avenue, New York.
