

REASONS WHY MARKS' ARTIFICIAL LIMBS WITH RUBBER HANDS AND FEET ARE THE BEST.

BECAUSE—They are the most comfortable to wear. They are fitted upon scientific principles by competent and skilled fitters.

GLEN SPRINGS, S.C.—I received the artificial leg which you made for me, and commenced using it on the 13th of the same month. I must say that it fits the best of any artificial leg I have ever had.—S. S. BEARDON.

BECAUSE—They obviate concussions to stumps. The sponge rubber foot affords a yielding medium to walk, run, jump, or alight upon without jarring.

WANGANUI, New Zealand.—In 1892 you forwarded to me an artificial leg for my son. It has given the greatest satisfaction. My son has worn it continuously; he can do all sorts of work; he can walk all day in a rough country and never become sore or lame. He has jumped ten flights of hurdles, 3 feet 3 inches high, in 120 yards. I have seen him jump a standard wire fence.—C. M. TAYLOR.

BECAUSE—The method of fitting and construction prevents chafing and abrading.

OTTAWA, Ohio.—The leg which I purchased from you for my daughter has been worn constantly. When she received the leg it was a perfect fit. My daughter put it on and wore it to school the first day. The stump has never been chafed or sore. Respectfully, J. S. CARTWRIGHT, C.E.

BECAUSE—They are noiseless. The absence of complicated ankle articulations removes absolutely the tell-tale thud, thump, and flop, which are the most objectionable features of all other artificial legs.

"Mr. Marks makes absolutely the best artificial leg I have ever seen. The core of the foot is covered with India rubber, so that from the instep to the toes and back to the heel of the foot is simply solid spring rubber. The elasticity of the toes and heel compensates for the absence of ankle motion, and in walking there is none of the jarring, 'dot and got one' walk, so characteristic of the jointed foot."—DR. LEWIS A. SAYER, Lecturer at Bellevue Hospital, N.Y.

Our . . . Professional Friends . . .

We have made and kept through 36 years of business life, numbered by the thousands, are from every section of the United States, Canada and South America. We have helped them in their Hernia cases.

SEELEY'S Hard Rubber Trusses

have kept these friends for us. We want to correspond with the physician who has Hernia cases for treatment. We are always glad to be of use to him. Our little book has been highly commended by the profession—free for a postal.
