> The meeting endorsed the third party resolutions adopted by the Torouto convention, some weeks ago, and also made the following declarations:-

That this meeting is of the opinion that the license inspector in his failing engaged by the temperance people to enforce the Liquor License Act of 1886 has been guilty of a derection the Council's Inspector resumes his of duty and has prevented the city from resping the beneficial results contemplated by the Act.

ENFORCEMENT

Fifty-one Fines Two Thousand Five Hundred and Fifty Dollars-The Law is Making Itself Felt. A Good Police Magistrate.

We have received a copy of the return of convictions made by Her Majesty's Justices of the Peace in the County of Bruce, from June 16th, 1887, to Septem ber 14th, 1887. The document is a re-markable one, evidencing as it does the fact of a great improvement in Scott Act onforcement. Police Magistrate Vanstone is doing his work fairly and well, and although the impectors are not even yet as energetic as they might be, there is a great improvement. For example, the Inspector for North Brant, Mr. Me Cannel, has secured in his district during the period just named, twelve convic tions. During the three months ending July 31st, he only secured four, and during the preceding nine months the result of his work was represented in one solitary conviction.

No small part of the efficiency of the Scott Act in part of the county is due to lady in the audience who is always the manly decision and fearlessness of mishaying her glosses LUNENBURG is one of the counties in County Constable Hoffernan, who not Nova Scotia in which the Scott Act is merely assists in vigorously enforcing not in operation, but which is under the law and aiding officers to have its provisions carried out, but also himself rosccutos in certain cases
