Define the following terms and give examples of each—Narcotic, Febrifuge, Emetic, Cathartic, Styptic, Tonic, Antacid, Anesthetic, Astringent.

Give tests for Camphor, Acacia Powd., Quinine, Strychnine, Calomel.

#### Manitoba Notes.

Prior to the marriage of Mr. J. F. Howard, one of Winnipeg's most popular druggists, which was celebrated Thursday, May 14th, an interesting gathering of his friends took place in the rooms of Mr. Isaac Campbell. There were about forty present, including many members of the

medical profession. Mayor Pearson was called upon to take the chair, and Mr. Campbell made the after-part appropriate by the chairman and himself. The presentation consisted of a set of cutlery of oxidised silver, and a five o'clock tea service, of silver also. Mr. Howard made a neat and appropriate reply, after which refreshments were served and a pleasant social time was spent. Mr. Howard and his bride are now honeymooning in the cities of the Eastern States, and are expected home about the first of July. I am sure all who have the pleasure of knowing Mr. Howard will join us in wishing that all the blessings the gods provide for those who enter the marital state will be showered down upon him and his bride.

Mr. Taylor, late assistant for Mr. B.M. Camuff's, has bought the drug businesses of Drs. Lamont and Scott, of Trherne, and will combine the two stocks.

#### British Columbia Notes.

The British Columbia Pharmaceutical Society met in Victoria last week and elected officers. M. G. Blanchard was elected secretary-treasurer and registrar. The secretary's office is at 931 Douglas st., P. O. Box 592, Victoria, B. C.

C. H. Bowes and W. S. Terry contemplate opening a drug store at the corner of Store and Johnson sts., Victoria, B. C., about the First of July, under the firm name of Bowes & Terry.

#### Donations to a College.

THE Department of Pharmacy of the Northwestern University (Illinois College of Pharmacy), acknowledge donations received during the last few months from Messrs. Park, Davis & Co., of Detroit, Messrs. Allaire, Woodward & Co., of Peoria, and Messrs. Gilpen, Langdon & Co., of Baltimore, who have all made handsome donations of crude drugs. The two first named firms supplied carefully selected specimens of official bark, roots, leaves, flowers, &c., for use in the Pharmacognostic laboratory, a favor having more than a money value because of the difficulty in securing typical specimens of crude drugs through the ordinary channels of trade. Messrs. Gilpen, Langdon & Co., have made two donations, the first consisted of the collection of powdered drugs and cultivated cinchonas exhibited by them at the Old Point Comfort meeting of the American Pharmaceutical Association; and, more recently, when an order for powdered drugs for percolation was sent to them, they surprised and gratified the trustees and faculty by donating the order and also of offering two prizes consisting of complete outfits for percolation, one to be given to a senior student, the other to a junior, and both to be gained by competitive experiments in the Pharmaceutical laboratory.

Advertising and politeness are the main levers to get customers.
