Brains

Are

Built

By

GRAPE-NUTS

Brain workers must have different food than day laborers, because brain work uses up parts of the brain and nerve centres, while physical labor uses up other parts of the body.

A food for brain workers has been prepared by scientific food makers and called Grape-Nuts. It is a pure, natural food made from selected parts of field grains known to contain the natural phosphate of potash and other elements used by the system in rebuilding and repairing the brain and nerve centers. This food is skilfully cooked at the factory and is ready to be served instantly either cold with cream, or as a hot breakfast dish with hot milk or cream poured over it. All first-class grocers sell Grape-Nuts, and the Postum Co., at Battle Creek, Mich., manufacture the food.
