Dear Sirs,—I have found Abbey's
Effervescent Salt an excellent mild
aperient. It is palatable, effective
and without unpleasant after-effects.
It tends to allay irritability of the
stomach, and, while generally useful
and safe, it is, I think, especially
adapted for employment as an elimi-
nant in certain forms of Gout and
Rheumatism.

Dear Sirs,—It gives me pleasure to
testify to the merits of your prepa-
ration.
I have been using it in my prac-
tice for some time, and find it one
of the most pleasant and efficient
laxatives I have ever used.
To the weak and irritable stomach
it is soothing, and overcomes any
acidity that may exist. I have no
doubt it will be very useful in many
forms of Rheumatism and Gout, as-
sisting to neutralize the uric acid
and also help to eliminate it. I will
continue to prescribe it on all occa-
sions where it appears suitable. I

I am glad to say I find the Ab-
bey's an excellent laxative and anta-
cid. It gives good results in various
forms of Dyspepsia and in Constipa-
tion, especially among pregnant and
puerperal women. I have always
thought that the effervescent salines
were not half as well known and
used in this country as they ought
to be. Yours very truly,

If the following opinion of your
Salt can be of any use to you, you
are welcome to make any use of it
which may seem proper. The most
effective and elegant, aperient Salt
for clearing the gastro-intestinal
tract, is Abbey's Effervescent. It is
the only one which I have found suit-
able for children, and for my own
use. I have never found any prepara-

I have used the Abbey Effervescent

a palatable and delicious draught

Your Salt has been "all in all" as
claimed. It has been most beneficial
in cases of depression, derangement
of the stomach and liver, and above
all helpful after severe operations to
every patient. It has acted admir-
ably in two cases of excess in stimu-
lation. It has been recommended by

College with whom we are connect-
ed, as an excellent remedy for cases
of grip.

I, John Baker Edwards, do hereby
certify that I have duly analyzed and
tested several samples of "Abbey's
Effervescent Salt," some being fur-
nished by the manufacturers in

Montreal and others purchased from
retail druggists in this city. I find
these to be of very uniform charac-
ter and composition, and sold in
packages well adapted to the pre-
servation of the salt. This compound
contains saline bases which form
"fruit salts" when water is added—
and is then a very delightful aper-
ient beverage, highly palatable and
effective.
Abbey's Effervescent Salt contains
no ingredient of an injurious or un-
wholesome character, and may be
taken freely as a beverage.
