

The recent disturbance created in New York by the grain shovellers is bearing its legitimate fruit. The telegraph announces the fact that a very serious disturbance occurred at Buffalo on Monday afternoon on the docks, caused by the Irish and German stevedores there demanding increased pay for their work, and preventing others from working at the old rates. The rioters at one time overpowered the police force. Finally a number of the ringleaders were arrested, but not until the revolvers of the police officers were used—and two of the rioters were shot, but not dangerously wounded. The mayor ordered the militia under arms, but fortunately their services were not needed.

The riot at Buffalo, on Tuesday did not arise from a question of wages, but from the dread of conscription, the Irish, German and other foreign laborers alleging that the Yankees had conspired against the foreign residents to force them into the army, and exempt themselves from fighting; a truth which is rapidly coming home to the foreign population throughout the country.

MISTAKES CORRECTED.—The editor of the *Star* of the West furnishes the following modest attempt at correcting certain rather wide-spread mistakes:

It is a mistake to suppose that the subscription price of a paper is clear gain to the publisher.

It is a mistake to suppose that he gets his white paper for nothing.

It is a mistake to suppose that it is printed without cost.

It is a mistake to suppose that he can live bodily by faith.

It is a mistake to believe that it is easy to please everybody.

It is a mistake to suppose that the half cent or cent a week profit contributed by each paying subscriber, toward their living, buys the editors and proprietors, body and soul.

It is a mistake to suppose that two dollars a year entitles every reader to the repetition of his own opinions on every line.

It is a mistake to suppose that a paper is worth buying which contains only what one knows and believes already.

It is a mistake to suppose that taking and paying for a paper patronises it any more than a subscriber.

It is a mistake to suppose that money due for the paper would be as good to us in a year as it would be now.

It is a mistake to suppose that we would not be thankful for what is due us, and for new subscribers.

MASSON COLLEGE,

AT TERREBONNE, NEAR MONTREAL.

THE object of this splendid Institution, is to give to the youth of this country a practical Education in both languages—French and English. The Course of Instruction embraces the following branches, namely:—Writing, Reading, English and French Grammar, Geography, History, Arithmetic, Book-keeping, Practical Geometry, Arithmetic, Agriculture, Drawing, Music, &c., &c.

COLLEGE OF ST. LAURENT,

NEAR MONTREAL.

1. This Institution is conducted by Religious, priests and brothers, of the Congregation of the Holy Cross.

II. It comprises two kinds of teaching: 1st. Primary and Commercial, in a course of four years. This includes reading, writing, grammar and composition, arithmetic, the elements of history, ancient and modern, geography, book-keeping, linear drawing, algebra, geometry, mensuration, the elements of astronomy and of general literature; in a word, every branch of knowledge necessary to fit persons for occupations that do not require a classical education. The French and English languages are taught with equal care. 2nd. Classical studies, such as are usually made in the principal colleges of the country. This course comprises seven years, but pupils who are very assiduous, or endowed with extraordinary ability, may go through it in six or even five years. Nevertheless before a pupil can be promoted to a superior class, he must prove by an oral examination and a written composition, that he is sufficiently acquainted with the various branches taught in the inferior class.

III. No pupil can be admitted to a course exclusively commercial, unless he has first acquired a correct knowledge of those branches usually taught in Primary Education.

IV. No one can commence the Latin course until he writes a good hand, and is able to give a grammatical analysis of the parts of speech of his mother tongue.

V. Every pupil coming from another house of education must present a certificate of good conduct, signed by the Superior of that Institution.

VI. There will be a course of religious instruction suited to the age and intelligence of the pupils.

VII. In conformity with the rules of the Institution great care will be taken that the classical instruction is governed by the Catholic spirit, and a careful selection will be made of those authors best adapted to develop that spirit.

VIII. CLASSICAL COURSE.

1st Year—Fundamentals of Latin, French Grammar, English Grammar, Sacred History, Geography, Writing, Arithmetic.

2nd Year—Latin Syntax, French Grammar, English Grammar, History of Canada, Geography, Arithmetic, Calligraphy.

3rd Year—Method, Greek Grammar, English and French Exercises, Ancient History, Ecclesiastical History, Geography, Arithmetic, Calligraphy.

4th Year—Latin Verification, Greek, French, and English Exercises, Roman History, Natural History, Algebra.

5th Year—Latin, Greek, French, and English Belles-Lettres, Medieval History, Natural History, Geometry.
