“BUILT ON RIGHT LINES”

Every thoroughly practical man must agree that the above statement is only applicable to

**KELSEY
CORRUGATED WARM
AIR
GENERATORS (Pat'd)**

The James Smart Mfg. Co., Brockville, Ont.
Winipeg, Man., May 16th, 1907.
Gentlemen,—When erecting our School Board Office Building in the fall of 1900 your agent suggested we should use the “Kelsey” warm air generator. The Chairman of our Building Committee, Mr. John McKechnie, a thoroughly practical man, owner of the Vulcan Iron Works, and myself made a careful examination of the furnace and we agreed it was what we wanted. It was in use all last winter and we are satisfied. It is a good heater, having a large radiating surface, is free from gas or dust, sent heat into most distant part, the attic, and we had to provide a register opening into the basement in order to warm it sufficiently for use.
From a large experience in heating plants I have no hesitation in saying the “Kelsey” on right lines.
Yours truly,
J. R. MITCHELL
Inspector of School Buildings and Supplies.

KELSEYS are being shown at the Pan-American Exposition.
Send for PRINTED MATTER giving experience of satisfied users.
