

weeks, sometimes in Canada. The claims of Toronto for the next meeting were supported by one or two of our own graduates who attended the last, against those of Cobourg and the White Mountains. The former place has been favoured twice already, while the latter is likely to be too expensive, and so cause a falling off in the number of students. Neither of these objections can be urged against Toronto, yet there are two; first, that this city is too large to spend a holiday in; and second, lack of a suitable building.

If the second were got over the first would not stand, as a great many excursions can be made with Toronto as a starting point. No place, I believe, has been decided upon as yet, so let the authorities place the University buildings at the disposal of the school, and give not only students, but also the public, an opportunity of attending such a good course of lectures as I understand is given by the professors from Philadelphia; and let us students take the matter up and show the Council that we really desire this.

Yours, etc.,
A. H. YOUNG.
