Export Contact: Mr. Dave Roy, Sales Manager

Medi-Man Rehabilitation Products Incorporated is a manufacturer, exporter and Canadian national distributor for proprietary medical equipment in the fields of rehabilitation medicine and special nursing care equipment for hospitals and nursing homes. The corporation was established in 1981 and corporate offices and production facilities occupy 30,000 square feet in Mississauga, Ontario.

Medi-Man Rehabilitation Products currently has strategically located exclusive distributors in the United States. The company also exports to Europe and the Pacific Rim. Medi-Man meets C.S.A., U.L., FDA and Canadian Medical Device Standards, and is the only Canadian company producing certain unique products for the medical, nursing home equipment fields.

Medi-Man manufactures patient lifting devices, bathing systems, treatment tables and mattress systems. The main markets for the lifts, mattresses, tables and bathing systems are hospitals, nursing homes and rehabilitation clinics. The company is at present domestically marketing within Canada and exporting to the United States. The firm's long-term goal is global distribution, offering a full range of healthcare products in the rehabilitation and patient care markets.
