

WHEAT HIGHER ON DAMAGE REPORTS

Outlook in Large Section Said to Be for Light Crops.

CHICAGO, March 16.—Enough complaints of dry weather and of winter killing came in today to give wheat an upward jerk. Closing prices were nervous, varying from a shade off to 1/4 cent advance.

Corn made the market in wheat. Prospects of a week more without rain southwest brought about uneasiness on the part of shorts. It was pointed out that the western half of Kansas had not received more than a third of an inch of moisture since Jan. 1, and that the rest of the crop was seemingly gone.

Corn lost an advance which had been caused by active purchasing on the part of leading houses, and as a result of good feeding demand in the west and southwest. The slowest of enquiry from the east, however, and the fact that the visible supply was virtually now as large as a year ago, led to a reaction.

Improved demand for provisions manifested itself whenever the market showed a bearish effect from the more plentiful supply of hogs. Buyers, however, were not inclined to follow up any advance.

DUKE'S TERM WILL END IN SEPTEMBER

Will Visit Yukon Before Leaving, Says Manchester Guardian.

LONDON, March 16.—The Manchester Guardian, which is generally judicious in what it publishes regarding exalted personages, gives prominence today to a despatch from its correspondent in London, who declares the Duke of Connaught will definitely close his term as Governor-General of Canada in September. The Duke, however, may not return to England immediately, seeing he is going to visit the Yukon.

His Royal Highness is likely to return home via the United States, taking leave of President Wilson at Washington and spending a few days in New York in private engagements. The Guardian's correspondent adds that the Duke will on the close of his Canadian term of office, consider his long public career ended.

As his successor at Ottawa, this correspondent thinks the Duke of Teck will not likely accept, seeing he is due to command the First Life Guards.
