TEES & PERSSE, Agents, Winnipeg.

SIX MONTHS' FIRE LOSSES.

The fire losses for the United States and Canada for June, just figured, equal \$14,684,350, very nearly \$4,500,000 more than the losses for June, 1902, and well over \$5,000,000 more than the losses for June, 1901. The fortunes of January, February and March of this year alone save the showing for the first six months of 1903 from being a sorry one. As it is, the losses for the half year amount to \$8,765,250 as compared with \$87,005,000 for the same portion of 1902, and \$8,929,150 for the first six months of 1901.

Underwriters will not find so much cause for elation in the figures for June as in those for the preceding months, but the advance in rates still affords them an excellent margin and the past half year is unquestionably the most satisfactory exhibit they have had the privilege of facing for some time.—New York Commercial Bulletin.
