

Mixed Farming

The farmer will find land in this district admirably adapted for mixed farming. Wheat, oats, barley, etc., give most excellent crops and root crops grow to perfection. Fodder crops also, such as alfalfa, timothy and clover yield large returns.

Returns

90 tons potatoes on 5 acres.
23 tons onions on 13 $\frac{1}{2}$ acres.
437 tons beets on 11 acres.

Average yields of grain are as follows :—

Wheat, 25 bushels per acre.
Oats, 39 bushels per acre.
Barley, 33 bushels per acre.
