A WARNING TO UNCLE SAM.

Lord Farrer Says a Ring Fence of Protection Would Dissolve Good Feeling.

London, Nov. 24.-Lord Farrer, presiding this evening, in the course of his address, said that America, having wisely or unwisely, embarked upon a policy of expansion, would, from the tural force of o'rcumstances, be impelled to extend her empire. No nation, he asserted, had committed more economical follies than the United States, and if she attempted to surround her new territories with a ring fence of protection he would be inclined to think the era of good feeling now existing be-tween America and Great Britain would very speedily be dissolved.

GIRL WOULD-BE MURDERERS.

Pittsburg, Pa. Pittsburg, Pa., Nov. 24.-Miss Nora Bitner, a highly respected young lady of Alleghany, was beaten so badly this afternoon by three girls (none of whom are over 18 years of age) that she will probably die. Her assailants, Mamie Wright, Sephia Mickle and Victoria Bennet, are in jail. The cause of the assault is rather mysterious. It seems that Miss Bitner, with a young lady companion, was walking along East Ohio-street, and, in passing a group of young girls at play, she made some jocular remark concerning the party, whereupon one of the youngsters selzed her by the hair and pulled her to the ground. While prostrate Miss Bitner was kicked on the head and beaten into insensibility. Her companion was unable to protect her and a rescue was only effected when two men came upon the scene. The physicians at panies who were made prisoners were gentending Miss Bitner say her skull is frac- erously paroled, so that they could attend tured and a blood clot has formed on the the dinner to General Hutton in the evenbrain.
