Hot in England

London, Aug. 31. - The last day of August is breaking all heat records in this country. The official instruments at 2 p.m. today registered 91 degrees in the shade and 129 in the sun. A number of heat prostrations in the streets were reported.

The heat in England in general is so intense that in some places the judges presiding over the dignified county courts are reported to be dispensing justice in their shirt sleeves.
