The city commissioners applied to the military authorities on hearing a rumor that an attempt was to be made to cut off the city's water supply tonight. The soldiers were given instructions to shoot anybody who might attempt to tamper with the plant. A special meeting of the city council will be held this afternoon, when the whole trouble will be discussed. A movement was atarted this morning to have the aldermen declare a strike if the demands of the police and firemen were not

on were powerless to interfere, and many seemed afraid even to express their indignation, each man fearing his neighbor might be a striker. Nevertheless when the horses in the darkened fire station squealed a spontaneous cry of 'Leave the horses alone or we'll smash you," came from the crowd hed mash you," came from the crowd had he desired effect.

Amateur Firemen Beaten.

In Chenneville street station, which was fire headquarters, the few amateur firemen were badly beaten up by pickets or firemen and were thrown out on the streets, leaving no one in the station but the Director of Public Safety Trempley and one or two men on the top ley and one or two men on the top or. No glass was broken and little amage done in this station so far as sold be seen from outside, but blood-ains on the snow this could be seen from outside, but blood-stains on the snow this morning mark the struggle. Several fires raged throughout the night, but were not of very great consequence. The City Box Lunch Company, which was uninsured, is a complete wreck. At this fire the lawless element who attempted to prevent well-disposed citizens fighting the flames were driven off, and one of three striking firemen who watched could stand inaction no longer, and throwing off his coat plunged in to save what he could, remarking that he would be less than a man if he did not help. His comrades did not follow his example.

protect them, and Chief Trembley telephoned to Gen. Wilson, who had steadfastly refused to send soldiers to guard the streets unless requested by the mayor. Informing the general of the situation, the latter consented in the small hours of the morning to send one hundred military police to guard central fire stations and be ready to proceed in automobiles to wherever there might be trouble. This was locking the stable door after the horse had been stolen. Pieces of fire apparatus are littered around the streets this morning where they were deserted by amateur crews chased by hostile mobs.

Reports of fires and robberies keep pouring in this morning, and many were the work of pickpockets and thugs.

Residents of Notre Dame De Grace, west end suburb, prepared to give rioters a warm recept, citizens patrolling the streets all night armed with revolvers and riffes. Fif een volunteers replaced firemen. The tades and labor council offered mediation at a meeting called last night, and this morning John T. Foster, president, left to the city hall to consult administrators.

The town of Burlington was pre-pared for this emergency, and this morning motor trucks conveyed people who work in Hamilton to the city. The fare was only 25 cents for the round RETURN HOME

Recently the Radial Company, a subsidiary of the Dominion Power and Transmission Company, applied to the railway board for authority for a heavy increase in rates. It was proven that the company operated the road and exceedingly heavy loss for many years. But the interested municipalities insisted on the bylaws under which the franchise was given being granted, and the board was powerless.

The company asked that a new schedule of increase or reduction be left with the railway board. This the municipalities refused.

It is said the board cannot make a company which is losing money give a service. There is talk of Hamilton and the interested towns and villages making a bid for the road and operating it as a municipal project.

Over a period of five years, ending 1917, the annual fire loss of Canada was \$17,000,000 on an average. Last year, the loss was \$20,000,000, and this year, so far as could be forecasted, it might reach \$35,000,000. Statistical information showed that from 50 to 75 per cent of that loss was wonly or partially preventable.
