FOOD IN PETROGRAD AT RECORD PRICE

Costs Thirty Thousand Lenine Roubles a Day for Provisions

DROP BODIES IN SNOW

Helsingfors, Finland, Feb. 24.-Reports of serious living conditions at Petrograd have been received by Professor Hermann Zeidler of Viborg, showing that typhus and influenza are taking a heavy toll of the depleted population. Professor Zeidler will have charge of the Russian Red Cross relief work at Petrograd when Russia is opened again to the outside world.

The reports state that up to Janu-

ary 15 deaths in Petrograd were reaching a total of 3,000 a day. The coffin factories could turn out only 1,000 coffins daily, and most of the bodies were being carried into the country on sleds and left in the snow. Many bodies were being dropped thru the ice in the River Neva. Funerals were prohibited, owing to the scarcity of horses and because of the depressing effect of funeral processions on the people.

"Living conditions are intolerable," said Professor Zeidler. "It costs 30,000 Lenine rubles a day for food alone. Petrograd at night is without light, and there is very little water. Houses are flooded by the bursting of frozen pipes. The sewers are stopped and sanitary conditions are deplorable. "A month ago the number of typhus

cases was 300 a day and steadily increasing. Hospital conditions are in-describably bad. There is no linen for the beds, no medicines, no soap and no disinfectants, the last of the supply of sublimate having given out January 1, when 35 disinfecting

Bolshevik Account Cheerful.
Professor Zeidler's information conditions in Petrograd is wholly at variance with the cheerful account given to the Associated Press correspondent by Sergius Zorin, a member of the Bolshevik committee from Petrograd, that came to the frontier to receive the Russians deported from the United States, Zorin said that every resident was obtaining one and one-quarter pounds of bread daily, while Prof. Zeidler asserts that two ounces of flour is all that can be supplied even to the favored classes, the non-Bolshevik class receiving

RATEPAYERS WANT STREET CAR LINE

Mount Pleasant Residents Insist There Be No Unnecessary Delay.

"Resolved, that this association, assuming and believing that the board of control and city council of 1920 will act in good faith, and in accord with promater already given, and in part acted both by votes in council and assumes given on public platforms during the recent municipal campaign, respectfully request that, in the event of faiture to secure tenders and contracts for the construction of the Mount Pleasant road civic car line, the work of construction be immediately proceeded with by day labor under the civic works department, or in such other manner as the city council may deem best, to assure the city council may deem best, to assure the speedy and early completion of the line; also that the city council confirm and make legally effective, the bylaw passed by the former town council of North Toronto for the widening of Mount Pleasant road."

Mount Pleasant Ratepayers Association, held in Hodgson School, North Toronto, is tevening.

That the Mount Pleasant car line is a live issue in North Toronto was evidenced, not only by the large turnout of the ratepayers, but the promptitude with which the meeting was called upon the expiring of the time for receiving tenders for the construction of the road, namely, February 17 last.

The mover of the motion said that a number of the members had got panicky when it was announced that no tenders when it was announced that no tenders when it was announced that no tenders when it has feeling. He pointed out that if no tenders were obtainable, the matter could and would be turned over to the works department, which department, he thought, was quite equal to the task of tackling the Mount Pleasant car line, just, as it did with the mount pleasant car line, just, as it did with the mount of the resolution. He had every considered in Mayor Church, Controllers Maguire and Gibbons, and generally speaking, the whole city council, which, he said, was pledged to the carrying out the Mount Pleasant car line project.

Clean Situation Up

Mount Pleasant car line is a live issue in Northa Toronto, and installation of Oriole Chapter, No. 7. Order of the Eastern Star, was held last evening in the Bathurst Street Methodist Church. This is the new chapter of the Eastern Star of which a large number of Earlscourt of which a large number of Earlscourt and Oakwood residents have become members. A banquet followed the installation. not now a member of the council, any effort which he was capable of performing would be at the service of the people, and he would never slacken his interest and determination to see the interest and determination to see the Mount Pleasant car line completed. Studying the situation at "all angles, I do not see any reason why the Mount Pleasant car line should not be started right away and completed this summer. Yonge street and Mount Pleasant road are two different propositions. Sir Adam Beck can be trusted to look after the former. I have always supported Sir Adam, and when he returns to the job something should happen very soon," said Mr. Ball.

Mr. Ball deprecated the sending of a deputation to the board of control, and counseled against this course, and with this the meeting agreed. He considered there was nothing in the way of the work on the Mount Pleasant line proceeding right away. Steel can be got: more they not invited tenders and had plans prepared?" asked the speaker. He had every confidence that the members of council were sincere in the desire to have the Mount Pleasant line completed, and advised that, unless there were some very unnecessary delay in the operation being started, the board of control and city council should have reasonable time and opportunity to handle the situation. Speaking on the figures of the civic car lines, ex-Ald. Ball called the deficits apparent deficits, in respect that once the car lines are laid and cars operating, the assessment values of the lands and buildings in the vicinity are raised very considerably, and much building always follows the laying of a street car line. So that if the city has an apparent deficit in its civic car lines, it is more than receives on the enhanced and additional assessments.

WILLIAM POWER DIES IN EIGHTY-THIRD YEAR

Toronto lost one of its oldest citizens yesterday, when William Power passed away at his residence, 27 Hurvard avenue. Mr. Power, who had resided in Toronto for the past eighty-three years, emigrated to this country from County Waterford in 1830, when he was but seven years of age. He was a well-known figure in the financial and insurance circles of the city, being for many years one of the head valuators in Canada, and valuator for the city of Toronto. He was also superintendent of buildings for the Toronto Exhibition Association, and was highly respected and admired for his businesslike policy and his pleasing personality.

The older citizens of the county of York may remember that he was one of the active spirits in the organizing and assisting of the Toronto Volunteer Fire Brigade. He was also a justice of the peace in the county for upwards of twenty-five years.

He married a Miss Jane Stokes of Barrie, who predeceased him in 1913, leaving a family of three daughters and a

Clean Situation Up

Speaking or the cleaning up of the Yonge street-Metropolitan iranchise, Mr. Barton said that he was in full sympathy with the cleaning up of the vexed question, but it had nothing whatever to do with the promotion of the Mount Pleasant line.

Mr. O'Leary associated himself with the remarks of Mr. Barton and said he stood to back Sir Adam Beck to the limit in the clean up of the Yonge street situation—besides others—but the Central Citygens' Association, Alex MacGregor, K.C., gave an address—on citizenship last night at the men's hall on Oakwood avenue. There was a good attendance. Mr. MacGregor spoke on the duties of citizenship and all that pertains to it and the duty of citizens in the upbuilding of the community in which they live. The day has gone by when men ignored the needs of the neighborhood, said the speaker, because it was now recognized that these benefits were enjoyed by the entire community. He emphasized the necessity of men carrying out the true spirit of brotherhood in its fullest sense.

munities by reason of their coal deposits and the wealth amassed from them, and there was every reason to believe that British Columbia would achieve similar results. Northern Alberta, said Mr. McDonald, gave indications of a coal delocit which would astonish the world. Coal at that mine could be loaded as easily as gravel at a gravel pit. Not expenditure would be required for tunneling or shafts. Coal at Prince George and Quesnel was selling at \$20 the ton. As soon as the Great Eastern Reliway was completed coal should cost Prince George not more than five dollars a ton, and Quesnel, six dollars a ton.

The mine referred to by Mr. McDonald is said to be the Blackstone Coal Mine, fifty miles southwest of Edson, and 700 miles from Vancouver. Nothing, said the general manager, was so fraught with immense possibilities is this latest find of black diamond. It was excellent coal, 52 per cent. fixed carbon, three per cent. moisture and seven per cent. ash. "Even at present capacity this mine is capable of shipping 1,000 tons a day, an amount which could easily be increased to 5,000 tons a day," said Mr. McDonald.
