

IN changeable climates there is no complaint so prevalent as Catarrh, or cold in the Head, as it is commonly called.

The cause is, generally, exposure to draughts, or damp atmosphere. Common Catarrh is an inflammatory state of the mucous membrane of the head or chest; Chronic Catarrh is usually the result of a neglected Cold or Common Catarrh, and is exceedingly troublesome, as the unpleasant discharges usually find their way into the stomach and cause derangement of the whole system. The smell is impaired, and sometimes destroyed; appetite bad; and general emaciation frequently occurs. Remedies without number have been recommended for Catarrh, but none have been found more efficacious than **Dr. Kellogg's Catarrh Snuff**, the old and well-known specific for Catarrh. It gives immediate relief to the dull, heavy pains caused by cold in the head. It opens and purges out all obstructions, strengthens the glands, and gives healthy action to the parts affected.

AN EXCELLENT MEDICINE.—MRS. J. LAKE, Bay City, Mich., writes: "Having used **Kellogg's Snuff** for a great many years, I find it an excellent medicine for Headache and Catarrh. I had a pain over my left eye for about six years, and could get no relief from doctors or anything else until I used **Kellogg's Snuff**. We are never without this Snuff now, although we have to send to Canada for it. Many of our friends have also been benefited by using it."

MR. PAUL THIBODEAU, Cavendish Road, P.E.I., writes: "I have had Catarrh for twelve years, and fifty cents' worth of **Kellogg's Snuff** did me more good than \$50 worth of medicine which I had from the most eminent medical men of Montreal, Quebec, St. John and Charlottetown."

Price, 25 cents.

ENDORSED BY OVER 600 DOCTORS IN CANADA.

WE have recollections that are hard to erase from our memory of a time when the good old-fashioned but disagreeable Castor Oil was the favorite medicine with our mothers. We then feared to tell that we were sick for we knew what would follow that acknowledgment. We preferred suffering in silence rather than take that nauseous and sickening medicine. But with the advancement of science this feeling has disappeared; one discovery has followed another, and one of the most important in the history of medicine is the discovery of a way whereby Castor Oil can be sweetened and rendered palatable.

TO THE INVENTOR of Copland's Sweet Castor Oil is the world indebted for this valuable improvement on a staple household medicine. After careful and long research he made this discovery and called his preparation **Copland's Sweet Castor Oil**. It is of the same strength and medical qualities as the ordinary Castor Oil, and while equally safe and harmless, yet acts with more certainty, and produces neither nausea nor griping. Some children say it is honey; others call it syrup; they all say they like it. One parent says: "My children drink it like water;" another: "We had to hide the bottle or they would have finished it right off;" another: "My little girl has taken it twice without any trouble, and does not know what it is, though she hates the ordinary Castor Oil, and we could never get her to take it without a fight." Yet another: "I wish you success of your **Sweet Castor Oil**; it is a splendid thing, sure to take the place of all the common oil."
