ALD. ROWLAND FOR PURCHASE

From Health Standpoint It Would Be Big Thing to Extend Transit System to the Outskirts.

One of the strongest supporters of the proposition to purchase the Toronto Railway Co. system is Ald. Rowland. His only stipulation is that the cost price agreed upon is worth paying by the city. He is most actively interested in board of health matters, and realizes that much of the development of that work along practical lines is held up because the city has not control of

the rapid transit service.
"We have gone thoroly into the problem of betterment of housing of the class that now fills the tenements, and we find that the solution is the establishment of villages beyond the limits, with the extension of the rapid transit service of the city to the villages," he said. "Until we control the transportation service we cannot establish the villages and we will have to put up

with the tenements. "Then there is the matter of the lo-cation of an isolation hospital. It bears largely upon the city controling its rapid transit service, for we cannot get a site satisfactory to the people generally while we have to depend upon the present transportation facilities, which limit us to a restricted area.

"Another view of the situation is that the city is rapidly extending, and we cannot work in the new streets with the old streets for rapid transit service until we have full control of all our streets. It is a most humiliating position for a city of the size and importance of Toronto.

Should be buy out the Toronto Railway Co. system we could at once perfect plans for admitting the radials to the heart of the city, and thus develop to the utmost the trade of the immediate contributory territory. A city like Toronto should not have the radials hung up at the limits.

"To buy out the Toronto Railway Co. means so much to the advantage of the city that an offer at a fair price should be accepted as promptly as pos-

MAY TRY RECALL

Aldermen who are determined that the city's business shall not be blocked by the two Tommies are considering the desirability of introducing the system of recall in preference to with-drawing the salaries of the obstreperous controllers or removing them from office by the vote of the council. These aldermen declare that they have no intention of giving the two Tommies

any opportunity to pose as martyrs. Whether to introduce a system of recall or adopt a persistent policy of looking altogether to Controller Mcinformation about the several civic departments, is what is being quietly debated by the aldermen.

Were the system of recall decided upon, the responsibility of keeping business-blockers in the council would be upon the voters and might not work always to the advantage and the interests of the city, vote-chasers having a peculiar capability for staying in office.

Should the policy of ignoring the

controllers who will not carry out the instructions of the council be adopted, there would be the possibility of the two Tommies posing as martyrs and working up a lot of sympathy, which might develop into a dangerous force. Supporters of the system of recall are gaining numerical strength. They are declaring that there is no use in taking two bites at a cherry, and that Toronto has become too big and important a city to carry business-blockers in the council for a whole blockers in the council for a whole year. What may be proposed is that the people be appealed to to petition for the recall of any member of the council who blocks the civic business.

RIVERDALE ROLLER RINK.

Under New Management. Mr. F. B. Culliton has assumed the management of this popular rink, and we doubt if there is another man in Toronto better adapted to fill the

For the past ten years or more Mr. For the past ten years or more Mr. Culliton has been, if not the actual leader, at least one of the foremost in all the bicycle, baseball and hockey teams, representing the well-known Royal Canadian Bicycle Club. He is known and respected for his strict integrity and thorough unrightness of integrity and thorough uprightness of character, and we are sure will command the respect and good will of all the patrons of the big Riverdale Rink, and by his strong personality and ability prove the right man for such an important position

important position We venture upon his past record to predict for him a success as manage and feel the rink has gained a decided advantage in securing the services of one so well qualified to manage the large patronage this popular rink has

A Great Crusade Against Out-of-date Kitchens

Toronto women take up arms for better conditions, less labor and more leisure from their home duties.

During the past week the housewives of this city have been declaring themselves for freedom from drudgery in the kitchen in no uncertain manner. In less than five days more than 200 women have joined the vast army of "Hoosier" Cabinet users.

Kitchen work without the aid of a "Hoosier" Cabinet is drudgery—there is no getting away from the fact: you can't escape from it. The tramp, tramp, tramp from pantry to kitchen, from table to sink, down to the cellar and back, bringing things you need together, and when you are through, carrying them all back-it's drudgery, pure and simple.

It takes little persuasion to convince any woman that she cannot get along without a "Hoosier" once she sees it and learns of its wonderful convenience. Handsome, imposing, splendidly built and finished-the "Hoosier" captivates all. No woman can resist its assurance of easier work, its promise of splendid order without effort, with its shining aluminum table top, its scientifically constructed flour receptacle, its automatic sugar bin, its rows of metal-topped crystal coffee, tea and spice jars. Why should she, now that it is so easy to have this wonderful labor-saver, if she acts quickly and gets a "Model Club" membership before

The Hoosier "Model Kitchen Club"

was designed to make it easy for women to have this wonderful "Hoosier" Cabinet without any financial strain-just a little sum, \$1.00 down and \$1.00 per week, for a few short weeks, and your kitchen work is forever after a pleasure.

The moment a "Hoosier" Cabinet comes into the house, it stops the miles of useless steps that old-fashioned kitchen arrangements require. No more aching feet and back, instead of standing and walking all day doing your work you sit and reach. Having everything you use in cooking all in one place saves endless time-time that you can spend in pleasant, healthful recreation or necessary rest.

Model Kitchen

You couldn't imagine kitchen work accomplished under better conditions than a kitchen equipped as the illustration above portrays, with its "Hoosier" Cabinet concentrating almost all the effort of the day's work, so that one can sit comfortably before the cabinet, having every article needed for preparing the three daily meals right within arms reach, entirely doing away with any need for scattering the utensils or materials. Everything being in its place when you are through with it, you simply have to close the doors, and thus overcome all the disagreeable tidying-up process that has to be gone through in the old way.

We are doing our part to help Toronto housekeepers one and all to possess a Model Kitchen. Will you do yours?

Look what we are presenting to Model Kitchen Club Members

All these best grade groceries are given free with each Cabinet sold on the club plan:

- 1 tin "Melagama" Coffee
- 1 tin Cowan's Cocoa
