

EX-TSAR'S FORTUNE SAID TO BE DEPOSITED IN LONDON BANK

RULER'S WEALTH ESTIMATED AT \$60,000,000

Story From Italy That King George Will Distribute

LONDON, Aug. 21.—A remarkable statement with reference to the private fortune of the late Tsar of Russia has just appeared in the Italian Press.

On the authority of a high personage formerly at the "Court of Nicholas II" it is declared that a capital sum of approximately \$60,000,000, plus accrued interest, is still deposited in London for the late Tsar's account, and that the surviving members of the Imperial Family are disposed to leave the manner of its distribution among them to the decision of some such authority as King George or King Victor Emmanuel.

There is difficulty, however, in the absence of legal proof that the Tsar and his family are dead.

According to the authority quoted, the Tsar's fortune, deposited in London, was at the outbreak of war very much greater than the sum now mentioned. Quite half of it, however, was withdrawn by him and employed in meeting the needs of his country and in alleviating war-time distress. After the Revolution further considerable sums were withdrawn to finance plans for the escape of the Imperial prisoners.

Inquiries in British and Russian official quarters in London throw little light on the supposed hoard of Russian gold.

DONE BY KAISER.

It is quite possible, and even probable, that the Tsar deposited large sums of money in London. It is a common knowledge that this was done by the Kaiser, and the bulk of the millions seems extravagant, it is worth remembering that when Wilhelm II abdicated, it was discovered that for many years he had been saving at least half a million sterling a year.

A statement was published in 1919 that \$150,000,000 owned partly by the Kaiser and partly by the Austrian Emperor, was brought to England in July, 1914, by Prince zu Schaumburg Lippe.

But if the Tsar's London fortune really exists, only a few people know the secret of its whereabouts.

SMALL FORTUNE LEFT ON TAXI CAB SEAT

Chauffeur Turns Find Over to Police—Bills and Gold in Box

NEW YORK, Aug. 21.—William J. Kubner, a taxicab chauffeur, walked into the Batavia avenue police station, pulled a tin box from under his rain coat and plunked it down on the desk before Lieutenant Edward O'Hare.

"I found this in my cab," he said, "and I guess I better turn it over to you."

O'Hare pried open the box and found \$1,708 in bills and gold, all tied up in neat little bundles. He dumped the contents on his desk, hummed in surprise and soon was talking to the detectives and police. He congratulated Kubner for his honesty and then asked him how he found the money.

The chauffeur said he picked up two men at Lenox avenue and 125th street last night and drove them to 187th street and Seventh avenue, where one of them paid him. Kubner, who lives at 3000 Randall avenue, The Bronx, looked into the tonneau of his machine when the men had left and found the box, but before he could open it, he was halted by another passenger.

Kubner stuck the box under the seat of his cab and drove the passenger to 180th street and Park avenue, which is near the station house, and then opened the box. When he saw the glint of gold on top, he shut it immediately, and went to the station house. He told the lieutenant he didn't want anything which did not belong to him, but added he would be around later to see if there were any claimants.

STAFF AT DINNER

New System Laundry Management Hosts at Gathering at Loch Lomond

Twenty-five members of the staff of the New System Laundry were entertained by the management to an outing and dinner last evening at Johnston's Hotel, Loch Lomond.

A speaker was brought specially from Chicago for the occasion, Harry J. Miller, of the Falls Service Company, delivering an address on "Giving the Public Better Dry Cleaning Service." This is Mr. Miller's second engagement for this purpose by the laundry company and a third will follow in November.

Mr. Miller went into the strict details of bringing the benefits of dry cleaning before the public eye. His company, he said, had worked out no less than 240 uses for dry cleaning and these were being pointed out by modern advertising.

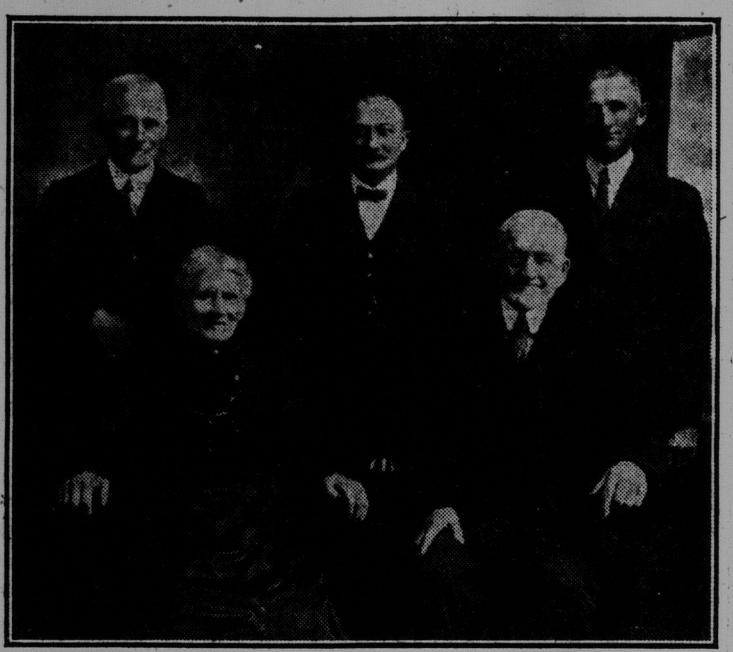

R. C. Holt, manager of the company, was chairman at the dinner. Heartily votes of thanks were extended to the company and to the speaker and the party motored back to the city shortly after 10 o'clock having greatly enjoyed the evening.

DISORDERLY BOYS.

Detective Kilpatrick was called to St. Patrick street last evening to disperse some boys who had been acting disorderly.

MAGAZINE BARRED FOR LIQUOR "AD"

Selling Points of Brandy Bit Too Strong For U. S. Solicitor

NEW YORK, Aug. 21.—A tentative ruling which may bar from the United States all foreign publications other than newspapers which contain liquor advertisements, was made yesterday by Edward Barnes, acting solicitor at the Custom House, who excluded "The Key to London," a London monthly publication, because it carried an advertisement for cherry brandy.

Mr. Barnes pointed to Section 17 of the national prohibition act, which holds it is "unlawful to advertise anywhere or by any means or method liquor or the manufacture, sale, keeping for sale or furnishing of the same, or where, how, from whom or at what price the same may be obtained."

Mr. Barnes said yesterday that only newspapers published in foreign countries and mailed here are exempted from the provisions of the prohibition law. The heretofore publication, he pointed out, was not a newspaper and was not mailed to this country, being shipped here in packing cases in lots of 1,000 or more. The publication contains an advertisement of "Quant's Morella Cherry Brandy."

This advertisement, Mr. Barnes declared, violated the spirit as well as the letter of the national prohibition act. He added that until he had received an opinion on the law from Emory R. Buckner, United States Attorney, or Major Chester P. Mills, prohibition administrator, he would not make final his decision to bar the publication.

LIFE WAS A BURDEN

Restored to Health Through Use of Dr. Williams' Pink Pills

"It is a pleasure," says Mrs. Ross Butler, of Victoria, P. E. I., "to tell you of the new health and strength I got through the use of Dr. Williams' Pink Pills. Before taking the pills life was a burden to me. I was badly run down that I did not know what to do. My blood seemed to have turned to water. I was very pale, constantly tired, and was losing flesh. It was a trial to attempt housework. Added to this I had a bad cough and my husband and friends thought I was going into consumption. The medical treatment I was taking did not appear to do me any good, and I had about given up hope when a friend urged me to try Dr. Williams' Pink Pills. I got six boxes and found so much benefit from them that I got six more boxes. Before these were taken I was a new woman restored to good health. I gained in weight, the cough left me, my appetite returned and I once more had a good color. Better still, I was able to do my housework without fatigue. Needless to say I always recommend Dr. Williams' Pink Pills to ailing friends, and I hope this will be the means of pointing the road to good health to some other sufferer."

Try Dr. Williams' Pink Pills for anemia, rheumatism, neuralgia, nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong.

If you will send us your name and address a little book, "Building Up the Blood," will be mailed you pre-paid. This book contains many useful health hints.

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

BRITISHERS ARE INTERESTED IN N.B. SETTLEMENT

Representatives of Hudson's Bay Co. at Woodstock

WOODSTOCK, Aug. 20.—John McWhirter, of London, England, manager of the Hudson's Bay Company Overseas Settlement Ltd., and representative of the Ontario Steamship Company, Ltd., arrived in town this afternoon in pursuit of an investigation trip now being made by Mr. McWhirter and Mr. Reford into the possibilities of this province as a suitable centre for an extensive land settlement scheme, entertained by the Hudson's Bay Company Overseas Settlement Ltd.

The party was met in Woodstock by R. W. Maxwell, secretary of the local Board of Trade, and a trip through the farming country revealed to the visitors the propriety of the local farming community as a suitable spot for the location of many settlers of proper type, having agricultural experience.

GIVES INFORMATION.

C. W. Gray, Jacksonville, past president of the New Brunswick Farmers' and Dairyman's Association, whose farm was visited, offered much helpful information to the visitors as to the possibilities of Carleton county and New Brunswick in general, as a prospective area for agricultural immigration.

TUITION FOR BRITISHERS.

Mr. Maxwell, who is director of the Carleton county vocational school, which features a two year course in agriculture and farm mechanics, in conversation with Mr. McWhirter, was highly impressed with the attitude of the latter in his soundings of the possibilities of using the local institution as a training school for young Britishers intending to follow agricultural pursuits in the surrounding country, which is rich in agricultural opportunities.

Mr. McWhirter was very optimistic over the educational facilities existing in the country to serve young immigrants in properly establishing them to local and Canadian farming practices and conditions in general.

Mr. Reford leaves the party tomorrow, but the others purpose to make a more thorough survey of local conditions prior to proceeding north.

PRINCE IS UNLIKELY TO COME HERE SOON

LONDON, Aug. 20.—It is thought the Prince of Wales will not go to Canada this autumn, although it has been asserted that he would probably visit his Alberta ranch in October. Doubtless he would like to slip away and spend some time on the ranch, but he has several engagements in Chester in October, and these may occupy time he might otherwise spend on a trip to the Dominion.

His Royal Highness came to London to see the final test cricket match which England won from Australia at the oval, but he is now going golfing at Sandwich, Kent.

AUTO TOURISTS ARE ESTIMATED AT 36,000

Association to Start Campaign on Tuesday to Secure Funds For Work

From information so far available there have been 9,000 United States automobile parties to arrive in New Brunswick this season who have taken out a permit to remain in this country 30 days. Government customs reports state the average number of passengers in each automobile is four, so it is estimated we have had 36,000 citizens of the United States come to see for themselves what we have to sell, good roads, scenery, fishing, hunting, hotel accommodations, climate, as well as merchandise, such as furs, English china, woolens, linens, diamonds and the thousand and one items of service any community has to sell the stranger and vacationist.

Such numbers of these 36,000 tourists as have communicated direct with the N. B. Tourist Association or given their views through the columns of the press or in conversation, have expressed themselves as delighted with the wonders of this province—its scenery, its climate, the fishing enjoyed, the number of wild animals seen and the courtesy of the people—and it is safe to say that those who have expressed themselves are fairly representative of the 36,000.

CAMPAIGN TO START

On Tuesday a small army of 30 busy business men will canvass this city for funds to support the N. B. Tourist Association in its efforts to bring tourists to this province in greater numbers. The Tourist Association is working for the financial benefit of the citizens of this city, therefore it asks for generous support by the citizens.

Auto Tourists Are Estimated At 36,000

Association to Start Campaign on Tuesday to Secure Funds For Work

From information so far available there have been 9,000 United States automobile parties to arrive in New Brunswick this season who have taken out a permit to remain in this country 30 days. Government customs reports state the average number of passengers in each automobile is four, so it is estimated we have had 36,000 citizens of the United States come to see for themselves what we have to sell, good roads, scenery, fishing, hunting, hotel accommodations, climate, as well as merchandise, such as furs, English china, woolens, linens, diamonds and the thousand and one items of service any community has to sell the stranger and vacationist.

Such numbers of these 36,000 tourists as have communicated direct with the N. B. Tourist Association or given their views through the columns of the press or in conversation, have expressed themselves as delighted with the wonders of this province—its scenery, its climate, the fishing enjoyed, the number of wild animals seen and the courtesy of the people—and it is safe to say that those who have expressed themselves are fairly representative of the 36,000.

CAMPAIGN TO START

On Tuesday a small army of 30 busy business men will canvass this city for funds to support the N. B. Tourist Association in its efforts to bring tourists to this province in greater numbers. The Tourist Association is working for the financial benefit of the citizens of this city, therefore it asks for generous support by the citizens.

WE HAVE always wondered whether our politicians favored apples from a tree that's been grafted.
