King Edward was Responsible for the Norfolk Jacket.

London, Sept. 28.—(By Mail.)—The fluence of royalty upon men's fashinfluence of royalty upon men's lashions has always been very great, and our own kings have made popular many fashion modes.

For instance, King Edward was responsible for the popularity of the Norfolk jacket. The vogue of the Prince Albert, or frock overcoat, was also due to royal patronage.

Albert, or frock overcoat, was also due to royal patronage.

King George (says the Tailor and Cutter) has always exercised a steadying influence upon men's fashion.

He has his personal preferences, but never indulges in "adventures in attire." So far as styles of coats go to coats go the impartially patronizes most of them.

On semi-official occasions King George wears a frock coat—either a black or gray. If a black frock coat is worn in the summer, a light waist-coat relieves it. At some recent race meetings he wore a morning coat.

It is, however, doubtful, if the double-breasted dinner jacket which he King of Spain has been wearing at Deauville will become fashionable in England.

Apart from its newness (says the writer), it has little to recommend it. Such a style would be apt to obscure the line of dress waistcoat which has been a feature of

St. John,
BY AUCTION

I am instructed by the Administrator of the estate of the late Mrs. Berthal Louise Colwell to sell by public auction at Chubb's Corner on SATUR-DAY MORNING, the 14th day of October, at 12 o'clock noon, that very valuable property, No. 106 King Street, (West) with ten room 2½ story house. ow the fashion spread like wildfire. The Duke of York is much mor "constitutional" in his dress than his elder brother. He wears a braided morning coat, but with it the accepted striped cashmere trousers.

There is little doubt that, in the future, any bold or radical changes in fashion in men's clothes will come from the Prince of Wales.

An Old Sion but a New Gasoline,

-Unusually Quick Starting -Full of Power and Mileage

IMPERIAL CASOLINE

-Costs you Less

The new Imperial Premier Gasoline, now on sale everywhere in the Maritime Provinces, possesses all the qualities which you would try to incorporate in gasoline if you were making it yourself.

QUICK STARTING:

The new Imperial Premier vaporizes easily and completely in any type of motor insuring easy, speedy starting in any weather. In this respect it even excels our Queen Gasoline—a special fuel for lighting plants—which are engine owners have been which some engine owners have been using although it was never altogether suited for power purposes.

POWERFUL:

The new Imperial Premier Gasoline burns clean to the last drop and furnishes sustained power through-out the full length of the piston stroke, thus enabling your motor to deliver its full rated horse power at all times.

ECONOMICAL:

HALIFAX, N.S.

The new Imperial Premier Gasoline will carry your car or drive your motor boat at the least possible cost per mile. Every gallon of this new gasoline goes farther because there are no wasted "heavy ends" which cannot be utilized by your motor.

COSTS LESS:

The new Imperial Premier Gasoline costs from 3 to 5 cents per gallon less than other gasolines which have commanded higher prices chiefly on the basis of their quick-starting quality though they have lacked many other essentials of a perfect motor fuel.

Owing to the fact we can now offer you this better motor fuel for less money we will no longer make or sell any other brand of gasoline for power purposes.

MAKE THIS TEST:

If you will have your carbureter adjusted to the new Imperial Premier Gasoline and insist on getting it every time you can run your car on a lean economical mixture with perfect satisfaction and further reduce fuel

Remember—This new gasoline is made in the Maritime Provinces by local workmen. Available wherever you see the Red Ball Sign.
