SAYS BURTON WILL SAIL SHAMROCK IV

Lipton Names Skipper For His Yacht in Next Cup Race

London, July 21—(Correspondence of Associated Press)—Since his return to London from America, Sir Thomas Lipton has set about the task of completing his arrangements for next year's contest for the America's Cup in earnest.

"I have the greatest hopes that I shall be successful in this, my fourth attempt to bring back the cup, but if I am not successful I can only say that I shall give Mr. Nicholson an order to build another boat."

"Naturally he will have his own professional skipper," Sir Thomas added. "Mr. Burton will also be responsible for engaging the crews of both boats, and in fact, he will be in entire charge of the whole of the trials and the actual race on the other side. Charles E. Nicholson, her designer, is going over at an early date for the purpose of thoroughly examining Shamrock IV."

"Do you think any alterations are likely to be made in her?" Sir Thomas was asked.

"It is a matter which I am leaving entirely to Mr. Nicholson's judgment. Many experienced yachtsmen are of opinion that Shamrock IV is far and away the best boat I have ever had to represent me in this great contest."

"If you lose this time, will you challenge again?"

REAL GOOD BILL AT OPERA HOUSE

Well Diversified, New Programme Enjoyed By Large Audiences Last Night

The new bill in the Opera House last evening attracted capacity houses. The programme was diversified and contained good dancing, musical numbers, clever comedy. It would be hard to pick out the most popular number as they were all good and received rounds of applause.

"The Robbins Trio was a number which was greatly appreciated, and the three members are all good singers and the audience showed their appreciation of their good work by frequent and profuse applause. They also were joined to respond to an encore."

Marcus and Booth, two young men, made one of the biggest hits of the evening. They had a good line of chatter and are clever eccentric dancers. At the completion of their programme the applause was so intense that they had to return behind the foot lights and sing another song and even then the audience did not seem satisfied.

The serial "The Tiger's Trail," featuring Ruth Roland, was as usual exciting and intensely interesting and created considerable interest.

THE BEST QUALITY AT A REASONABLE PRICE

Prompt Repairs Our complete lens-grinding plant enables you to have a broken lens replaced with great promptness. If your order is received early in the day, the new lens will be ready before the close of business.

If your prescription is on file here you can save time by telephoning the order. The new lens will then be ready when you bring in the frames and can be put in place in a few minutes. The charge is always a fair and reasonable one.

THE CARNEGIE WILL

(New York Times) The publication yesterday of an account of the alleged will of Andrew Carnegie, which is to be filed in this city next week by Elihu Root, brought forth the statement from an authoritative source last night that the will described had been made many years ago by Mr. Carnegie and represented a long period of careful study on his part before he signed it, but that it has since been superseded by a later will drawn up by Mr. Root, with the actual making of which Mr. Carnegie had little to do.

The decision of Mr. Carnegie to revoke the will on which he put so much thought and individual study and to substitute for it a document which merely carried out his ideas but represents the actual labor of Mr. Root, is said to have been due in part to the marriage of his daughter, Margaret, who was his chief heir in the first will to Ross Miller. At the time of her marriage Mrs. Miller's father made a generous financial provision for her and for this reason the late Mr. Carnegie found it advisable in some respects to modify his final testament.

While the will to which Mr. Carnegie devoted so much of his individual effort was an elaborate document, amounting to more than 4,000 words, the will drawn up by Mr. Root, which will distribute the remaining portion of the fortune is not more than half as long, and could be read by the average person in ten minutes. In both documents Mr. Carnegie makes moderate bequests to a score or more of personal friends and associates, and in each the Home Trust Company of New York is named as trustee and executor.

The Home Trust Company is Mr. Carnegie's own organization, of which Robert A. Franks, of 185 East Sixty-sixth street, long his business adviser, and treasurer of the Carnegie Foundation for the Advancement of Teaching, is the president. Reciprocal legislation in New York and New Jersey, in which a trust company in either state is permitted to act as trustee or executor of an estate in the other, permits the Home Trust Company to qualify here as if it were a New York institution.

It was learned last night that the will which would have been offered for probate had not circumstances induced Mr. Carnegie to request Mr. Root to draw up an entirely new document rather than to express his wishes through the office of a solicitor. The original document, was drawn entirely in the offices of the Home Trust Company with the trust company's attorneys assisting the philanthropist in putting it into legal shape. Mr. Carnegie devoted many days in a room on the top floor of the trust company's Hoboken building in putting the will into exact form desired, and when he had finished he felt entirely satisfied. When he decided to make such extensive changes that he felt they could not be expressed properly in a codicil his health would not permit him to do the same amount of labor again, and he decided the entire matter to Mr. Root.

In addition to administering the Carnegie estate, the Home Trust Company will continue acting as pensioner to nearly 800 persons who for years have relied almost wholly on monthly checks from Mr. Carnegie for their living. All of these had been known personally by Mr. Carnegie in the early days of his success, and some even dated to the telegraph operator phase of his career, when he manipulated a key on the Pennsylvania Railroad.

These monthly payments run from \$25 to \$80 and will be continued during the lifetime of each pensioner from a fund for that purpose established by Mr. Carnegie outside of his will. One of the pensioners is said to be a Scotchwoman abandoned by her husband and left penniless when he absconded some years ago from a position of trust.

A statement that Mr. Carnegie aided hundreds of persons who lost money in the collapse of the Carnegie Trust Company, because of their mistake in believing that he was connected with it, was declared last night to be untrue by a person acquainted with the facts. The fact that he did advance a large sum of money in an effort to save the trust company from failure was known at the time, but he has not persisted any of the depositors who got back only forty-four per cent. in the liquidation of the institution.

The statement, based on alleged information from a member of Mr. Carnegie's family, that he paid an income tax on a fortune of only \$80,000,000 and that the sum to be disbursed in his will is not larger, was declared last night to be untrue.

The Home Trust Company was organized entirely to care for Mr. Carnegie's financial transactions and he and his organizations were practically the only customers. It was incorporated in New Jersey in 1901 with \$100,000 capital, and in response to his wishes has made no statement except those required by law. The officers other than Mr. Franks as president are George W. Neve, and T. Morris Carnegie, Andrew Carnegie, 24, James C. Greenway, and Harry Whitfield, trustees.

The last will has been not yet prepared to meet the ordinary qualifications demanded by the institution for which they apply.

OFFER 100 SCHOLARSHIPS K. of C. Announce Educational Opportunities for Veterans

The Knights of Columbus have offered 100 university and college scholarships to veterans of the world war, irrespective of their religious denominations or beliefs. This announcement was made in New York this week by the Committee on War Activities of the organization.

The scholarships are offered at forty-one educational institutions. This work is distinct from the Knights of Columbus supplementary school system now being organized, and the camp educational work of the order, now operating in twelve large camps.

The announcement sent out from the Knights of Columbus headquarters, 461 Fourth Avenue, states that they had to the successful applicants throughout the complete course selected. The Knights of Columbus offer to the returned service men comprises fifty technical, scientific, mining, agricultural or foreign service scholarships in the following institutions:—University of California, Sheffield Scientific School (Yale), University of Illinois, Purdue University, Louisiana State University, Massachusetts Institute of Technology, Worcester Polytechnic Institute, Michigan Agricultural College, University of Minnesota, University of Missouri, Stevens Institute of Technology (Hoboken), Polytechnic Institute of Brooklyn, Toledo University, Oregon Agricultural College, University of Pennsylvania, Colorado School of Mines, Montana State College of Agriculture, Ohio State University, West Virginia University, and Georgetown University Foreign Service School (Washington, D. C.).

Fifty scholarships are also offered, including tuition, books, board and lodging during a complete academic course in the following institutions:—The Catholic University (Washington, D. C.), Holy Cross College, Loyola University (Chicago, Ill.), St. Paul University, Duquesne College, Loyola University (New Orleans), Ferris University, Manhattan College, Mount Angel College, Villanova College, St. Louis University, St. Thomas College, Santa Clara University, Niagara University, University of Dallas, Detroit University, Notre Dame University, Mount St. Charles College, Creighton University, Duquesne University, and Gonzaga University.

Applications, giving full particulars, stating course desired and the institution preferred, must be filed on or before Sept. 1, 1919, with the supreme secretary, Knights of Columbus, New Haven, Conn. All applicants must be prepared to meet the ordinary qualifications demanded by the institution for which they apply.

FOR FATHER to keep his hands clean SNAP removes grease, grime and stains—keeps the skin smooth and soft.

AMONG THE COMPLAINTS OF PROFIT-SEEKING received yesterday by the Special Commission on the Necessary of Life, which the commission is investigating is one from a resident of Aberdeen street, who says he has been notified that September 1 his rent is to be advanced from \$26.50 to \$30.

In Massachusetts avenue there is one block, the commission has learned, which contains ninety apartments and where each tenant has had his rent raised \$5. This means an increase of \$5,400 a year for the entire block. Complaints of a similar character have been received from residents of Batavia street, Huntington avenue and streets in that vicinity.

A tenant of an office building in Mill street has written the commission that his rent up to May 1 of this year was \$45 a month. Since that time he has paid \$22.50. Now, he says, he has been notified that his lease expires Sept. 1 and that if he wishes to renew he may sign a three-year lease at \$1,650 a year—an increase of approximately 200 per cent over the May figure.

Residents of Waterford are preparing a statement for the commission as the result of an indignation meeting in that town. Other sections of Greater Boston are to take similar action. The commission looks for a big hearing at the State House on Aug. 28.
