Waltham Watches

We know a better way than "lecturing" to teach your boy habits of promptness. Give him a Waltham Watch. He

ness. Give him a Waltham Watch. He will be proud of it and unconsciously will try to "keep time" with his pride.

This applies equally to your little girl. Waltham Watches for young folks are made with special strength to resist all manner of "shocks" and yet stick faithfully to their task of truthful timetelling. Into these "juvenile" timepieces go the same art and scientific skill which has won for Waltham the watch-homage of the world. watch-homage of the world.

Annual Meeting of The Provincial Organization Yesterday—Hope to Have Dominion Association Here Next Year

The New Brunswick Pharmaccutical Society, which held its twenty-eighth annual meeting yesterday combined business with pleasure, for while the first part of the meeting was arranged to take place at the Market square building all but the necessary routine business was transacted at Ben Lomond.

H. J. Mowatt, vice-president of the society, presided at the first meeting in the absence of the president, J. McD. Cooke, of Moncton. At the adourned meeting it was decided to extend an invitation to the Canadian Pharmaccutical Association to meet in St. John next summer. It was stated that the association had met in every province so far except New Brunswick and had already met twice in Toronto so that the members were hopeful of getting the association here next year.

The election of officers resulted as follows: President, H. J. Mowatt, St. John; vice-president, H. H. Woodworth, Sackville; secretary, Geo. O. Spencer, Moncton; treasurer, E. O. Steeves, Moncton; registrar, E. R. W. Ingraham, West St. John.

St. John.

The council elected included the above officers, with F. W. Munro, J. McD. Cooke, A. E. Holstead, G. A. Leger, F. W. Kierstead, H. J. Dick and S. M. Wet-W. Klerstead, H. J. Dick and S. M. Welmore.

Delegates to the Canadian Pharmaceutical Association chosen were: G. O. Spencer and J. D. B. F. MacKenzie, (Chatham), substitutes, H. H. Woodworth and George O. Reicker. Others who attended the meetings were Alonzo Staples (Fredericton) and A. T. Coombs, (St. Marys). After the meetings a dinner was given the visiting members by the local members.

How to Destroy The Dandruff Germ

BY A SPECIALIST

That the dandruff germ is responsible for nearly all the diseases to which the scalp is heir, as well as for baldness and premature gray hair, is a well known fact, but when we realize that it is also indirectly responsible for many other diseases as well, we appreciate the importance of any agent that will destroy its power. We are therefore, particularly pleased to give herewith the prescription which an eminent scientist states he has found after repeated tests to completely destroy the dandruff germ in from one to three applications. It will also almost immediately stop falling hair and it has in numerous cases produced a new hair-growth after years of partial baldness. This prescription can be made up at home, or any druggist will put it up for your 6 ounces Bay Rum, 2 ounces Lavona de Composee, one-half drachm Menthol Crystals. Mix thoroughly, and after standing an hour it is ready for use. Apply night and morning, rubbing into the scalp with the finger-tips. If you wish it perfumed, add 1 drachm of your favorite perfume. While this preparation is not a dye it is unequalled for restoring gray hair to its original color.

Acid Stomachs Are Dangerous

Common Sense Advice by a Distinguished Specialist

"Acid" stomachs are dangerous because acid irritates and inflames the delicate lining of the stomach, thus hindering and preventing the proper action of the stomach, and leading to probably nine-tenths of the cases of stomach trouble from which people suffer. Ordinary medicines and medicinal treatments are useless in such cases, for they leave the source of the trouble, the acid in the stomach, as dangerous as ever. The acid must be neutralized, and its formation prevented, and the best thing for this purpose is a teaspoonful of bisurated magnesia, a simple antacid, taken in a little warm or cold water after eating, which not only neutralizes the acid, but also prevents the fermentation from which acidity is developed. Foods which ordinarily cause distress may be eaten with impunity if the meal is followed with a little bisurated magnesia, we'ch can be obtained from any druggist, and should always be kept handy.
