

# TELEGRAPH NEWS.

**LONDON, June 24.**  
Sir John Young, Governor General of Canada, has been appointed Governor of Prince Rupert's Land.  
The state breakfast given by the Queen today on the lawn in front of Windsor Castle was the first since the death of the Prince Consort, and the party was large but the weather unfavorable, and showers of rain interfered with the affairs.  
The rising in Cork last night subsided before midnight, and the City is quiet today. A large force of special constables are on duty.  
Several rioters have been tried and sentenced to the severest penalties the law allows.

**New York, June 23.**  
The Erie Railway has commenced a new suit against Burt, Kauland, Heath, Vanderbilt, and others for five million dollars damages.  
The United States Senate has voted to abolish the personal income tax.  
Gold opened at 110.

**FREDERICTON, June 25.**  
The following judgments were delivered by Supreme Court this morning.  
St. Stephen Branch Railway against Black rule discharged, Fisher dissenting.  
Wills against the European and North American Railway Company rule discharged.  
On Tuesday last in Re George F. Gregory, Mayor of Fredericton, a Quo Warranto was granted he being disqualified for not paying over fines.

**LONDON, June 25.**  
The morning journals publish details of the riots at Cork yesterday and day before. Barricades were erected in the streets and defended obstinately—the cavalry charged and carried them—many of the police were wounded, but so far as known only one soldier was seriously hurt.  
The police are still actively at work, and many of the leaders of the disorder are in custody.

**LONDON, June 26.**  
Owing to continued disturbances in Cork the streets are now held in force by Troops and Police.  
Large numbers of the rioters have been arrested.  
The authorities are acting with moderation. They have forbidden processions within the city limits but have given permission for the holding of public meetings in the Park.  
**New York, June 27.**  
Gold 111.

Follows Compound Symp of Hypophosphites will speedily and certainly arrest the depressing influence of disease upon the nerves and muscles. It restores the appetite and induces a disposition to take on healthy flesh.  
It causes the formation of living blood, strengthens the action of both Heart and Lungs.

It sustains the system under trying circumstances and creates the healthy development of all the organs necessary to our existence.

To the Editor of the Standard.  
Sir—Liberty we have known Mr. Lynott by repute, as a young man of ability, and on-lookers of many good qualities, and much respected by the community in which he lives. We have heard of him as one who would make rather a superior representative, being a man of fair scholarship, and considerable oratorical capacity, with a young man of good address, and enjoying a fair share of mother wit.

Since the fifteenth of this month, however, we have come to the conclusion that the picture must have been overdrawn or at least highly tinted. On that day we were first made acquainted with the "combination ticket" into which he had entered, we instantly began to doubt the correctness of the report; for we did not believe it possible that a man of his cut would be guilty of committing political suicide. For a few hours, however, the correctness of the report was established, the conclusion we then arrived at was this:—"The man or his advisers must be utterly void of anything like judgment or taste." Here it struck into the arena of politics with head erect, and the air of a young Titan who could not doubt of success. Ordinary common sense ought to have taught him, that here of all other places on earth the game of chance is played, and the wise men of experience can at best but guess at results. Yet no doubt has he. He calculates his chances, he arrives at this conclusion—I'm bound for the Celestial City where in the name of the elect, of Charlotte, I will and in the distribution of the loaves and fishes to the best of my ability and inclination. The idea that he might have another election or two to run before he gets there—seems never to have occurred to him. This must be the case if it never comes to pass. I'm locked for the through route. The matter is settled, and when we look at the development of our competitor, we feel inclined to back him for a place. But things soon wear another aspect. Along comes an old veteran, who has stood the butt of many a fight or been there where they were fought. He shows signs of distress. The lump of sympathy is large in the heart of Mr. Lynott. He follows the impulse of his nature—he offers assistance. Were there no men of sense in the vicinity at the time to advise him? The impact is formed, we'll be true one to another till the 5th of July or thereabouts, I'll elect you if you elect me. He doesn't know he is known by the company he keeps; the company of an old stager who no doubt has done good service in his day, but who has of late years shown signs of decreasing ability, and who a large number of the electors think ought to be released from work and turned out to grass. Yet Mr. Lynott, by lauding himself with this penitential man, not only endorses his past policy, but pledges himself if elected to attempt its continuance in the future.

What next,—the two worldlies immediately

form a platform, the main feature of which is this: that a more important section of the County than that which Mr. Lynott proposes to represent shall benefit from his efforts, forth and forever. Cook. It is interesting to see such an idea even on paper in the month of June. What next—they canvass that same town and the surrounding country, and with hats in hand and benignant smiles on their unflinching countenances, they say to the electors, gentlemen give us your votes, help us to disfranchise you; ours is the true, the patriotic, the quintessence of unselfish policy. Cooler and Cooler both done up in one. Did the eyes of man ever witness, even in election times in New Brunswick, a scene in which the actors were clothed in such unblushing impudence as this. Truly then Mr. Lynott wants taste and judgment. He courts the opposition of St. Andrews. He shall have it.

**HAVANA, June 26.**  
Captain General De R has telegraphed that he has captured the second cargo landed by the Epton, and that it is more valuable than the first.  
Montaner's column had killed twelve of the Sangrioli band, including an American colonel.

## The Standard.

**SAINT ANDREWS, JUNE 29, 1870.**

### Nomination Day.

To-morrow, Thursday, is the day appointed by the Sheriff for the nomination of Candidates. The Court will open at 11 o'clock. It is probable that there will be a large attendance of electors present from all parts of the County. The late members offering will no doubt give an account of their stewardship, and the new candidates are expected to state their views on the leading questions agitating the public mind, such as—  
Taxation in support of Schools.  
Reduction in the expenditure of the Public Money.  
Lessening of the members of Assembly.  
Abolition of the Legislative Council.  
Opposition to the present unjust Tariff.  
Better management of the Crown Lands.  
Encouragement of Emigrants, and other matters of interest.

In other Counties where the nominations have taken place there appears to be a strong opposition to the present Government, by a majority of the Candidates; in Queen's County two members have been elected who declared themselves opposed to the Government, and in this County five of the candidates entertain similar views—of this however, we will be better able to decide, after hearing their addresses.

The new Combination Ticket, does not go down with the constituency generally, as it virtually disfranchises the Saire town. We feel assured that Eastern and Southern sections of the County will protect their interests and elect their old members, Messrs. McEldan and Stevenson, and that the liberal minded electors of the upper Parishes will aid them by their votes. We base this opinion upon what is believed to be reliable information. If report is correct, three of the candidates are decided upon, but who the fourth is to be, the 5th of July alone will decide. The issues are in the hands of the Electors, and we hope that they will send able and independent men to the Assembly.

**NEW BUSINESS.**—It affords us much pleasure to state that attention is now being directed to Chamecock as a superior Water-power, and that it is proposed to form a Company, principally of Canadian capital, to roll into Rails and Bars, the Woodstock Iron with a due proportion of Scotch pig, which it is said will produce an almost steel iron. These when so manufactured could be sent over the whole Dominion when Western Extension is finished.

The whole matter is in an embryonic state, but plans of the Property have been sent off, which show a fall of water of 101 feet; contiguous also to a deep sea harbor. We hope to see the arrangement fully carried out, and ere long two hundred workmen employed there, which will give an impetus to the consumption of farm produce, and a general expenditure of money. This we believe, will be the forerunner of other manufactures which will naturally follow.

In our columns this morning, we publish Mr. Hill's card to the Electors; it is a plain outspoken expression of his views, and will approve itself to the public generally. He is well known to the Electors of this County, and was elected at the head of the Poll, when he first offered as a Candidate. Tuesday next will decide whether he is to be one of the Representatives of this County for the next four years, or as he says in his card, "if not elected (he) shall remain at home most contentedly."

**WOOL CARDING.**—The work executed at the Steam Grist Mill, Eastport, is done promptly, and gives satisfaction; the price is low, being only 8 cents per pound.

**EXCURSION.**—On Saturday last, the favorite Steamer "City of St. John," made an excursion to Grand Manan, touching at Eastport and Campo Bello. The day was all that could be desired. At 9 o'clock the Steamer arrived here with a large party from St. Stephen and Calais, accompanied by the St. Stephen Band. After taking on board a number of persons, she proceeded on her trip, and the party was increased by upwards of 60 from St. George who came over in the Steam Tug; at Eastport and Campo Bello, a respectable addition was made to the excursionists, who numbered about 100. After a pleasant sail the "City" arrived at Flagg's Cove, Grand Manan, where boats were in readiness to take passengers on Shore. The majority of those on board the Steamer availed themselves of visiting the Island, the Band accompanying them, and after being landed played several popular tunes to the great delight of the Islanders, who were present in considerable numbers. After nearly three hours stay, the whistle sounded, and the large party came on board, when the Steamer weighed anchor and proceeded on her return voyage. We omitted to mention that a salute was fired from the Light House on the Northern Head as the Steamer passed that point on her downward trip. Flags were flying also in honor of the event. After a couple of hours steaming the "City" reached the wharf here, having previously deposited the St. George excursionists on board the Tug in the Bay. All parties expressed themselves much pleased with the excursion, the steamer and her officers.

**THAT TICKET.**—The Election Ticket which we mentioned in our issue of the 15th as having been formed, we are assured is an established fact. Neither of the Candidates named are from St. Andrews, Messrs. McEldan and Hill are from St. Stephen, Mr. Lynott from St. George, and Mr. McLaughlin, who is unknown to a majority of the electors, is from Grand Manan. Is this the ticket referred to in the "Schooling Times" in February last, when it said—"a combination of four of our best talented and efficient politicians is formed, who intend offering at our next election." The "Times" memory is at fault, when it said that the STANDARD had not even alluded to Mr. Donald as a Candidate. By reference to our issue of the 16th of February, he will see that a much stronger and favorable reference is made to Mr. Donald, than any faint praise either from its correspondents or under the editorial hand. Writing of the approaching election we said:—  
"Mr. Joseph Donald's intemperance has proved correct, and he now wears the constituency of the 'holy alliance,' which is being formed and also states that he will be a Candidate at the next election. This we believe, that if he is elected, he will be an honest legislator, a fearless advocate of the people's rights, and a thorn in the side of those who act as their own, and not their constituents' representative. We do not pretend to write up Mr. Donald's claims, as he has done so himself on several occasions. Our object is to do justice to him as one of the people, and one, too, who received a large support from them at the last election, without the powerful aids of money and influence." Will not the new candidate Mr. McLaughlin, who holds a Government office and receives a salary, be obliged to resign before offering at the hustings?

**THAT COMICAL BROWN** is to give one of his character entertainments in the Masonic Hall to-morrow evening. The St. John News in speaking of Mr. Brown's entertainment says:—"The entertainments given by Mr. Brown although extremely comical are entirely chaste and decorous nothing being introduced which can give offence to the most refined lady. His motto is 'wit without vulgarity' and 'fun without indecency.' Mr. Brown also sings some very fine ballads in a chaste and pleasing style." As Mr. Brown is to give but one entertainment we advise all lovers of fun to attend.

**HARPER'S MAGAZINE** for July has been received. The contents are as follows:—  
The Vaudois.—Eugene Lawrence, With Eleven Illustrations. The Ocean Steamer.—Jacob Abbott, With Eleven Illustrations. Through the Wheat.—Florence Percy. Frederick the Great.—VIII The Conquest of Silesia Achieved, With Five Illustrations Me and My Son.—Mrs. R. H. Stoddard About Walking Sticks and Fans.—N. S. Dodge. Jane Austen.—With Four Illustrations. A Dream of Fairies.—S. S. Conant, With Two Illustrations. The Old Love Again.—Annie Thomas, With Two Illustrations. The Running Tug in America. (Second Paper).—Hamilton Bussay. Professor Heron's Mistake.—Mary N. Prescott. Recollections of William Makepeace Thackeray.—George Holder. Did She Dream It?—Justin McCarthy. more Cooper.—Thomas C. Latta, Editor's Easy Chair, &c.

### ITEMS.

Yesterday was extremely warm, the thermometer indicated 85 in the shade.  
An Indigent Young Man being curiously told by a crusty old miser, to whom he had applied for help, to seize the first thing he could lay his hands upon, caught his adviser by the nose, and pulled it unmercifully.

The "Courier" is hard up for local news when it publishes the contemptible trash of a "hireling" who has climbed over the "fence" to stab a man to whom he has been indebted for repeated acts of kindness. His remarks evince a lack of that "gentility" which he awards to the "paupers of St. Andrews." It has come to a nice pass, when an honest and industrious man cannot purchase with hard earned means a Piano, and have it in an institution where his duties require him and his family to reside, without being made the butt of one who left his country for his country's good, and who on more than one occasion was the recipient of aid from a people whom he seeks to ridicule, with the tool emanations of a more filthy source. If "character" is the noblest possession, "he" should try and earn one. Pay that the respected proprietor of the "Courier" permits such a "stink" animal to disgrace his columns—and one too who did not hesitate to circulate an injurious report against him but a short time since. Had it not been for the liberality of the people, he might have had an opportunity of practising on the "Piano in the Poor House at St. Andrews."

At all seasons of the rate of mortality from diseases of the lungs is very great. Dr. Wilson's Pulmonary Cherry Balsam will arrest all such mischief. This remarkable curative Balsam exerts the most salutary effect over the entire contents of the pectoral cavity. All tuberculosis, blood vessels, and all other tissues feel its potent power, more particularly by relieving the over charged lungs, and thereby promoting the free circulation of air. It soothes the weary chest and kindly subdues the inflammatory cough till all is well once more. Dr. Wilson's Family Anti Bilious Pills are adapted to all ages and conditions, in all climates. Containing neither calomel or any deleterious drug, they may be taken with safety by anybody. They remove obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health and by correcting, wherever they may exist, such derangements as are the first origin of disease.

If you require to use any Liniment or counter-irritant, Dr. Dow's Sturgeon Oil Liniment should be applied, as it contains the best ingredients of all other kinds in combination with healing medicines peculiar to itself, and is without doubt the safest, surest, and the best remedy that has ever been invented for external use. It is equally beneficial for man or beast.

Farmers, lumbermen, and others who have used them say the inventor of Clark's Dory Condition Powder is a true benefactor. Try them, and you will say they are right.

### DIED.

On the 23rd inst., after a short illness, Donald Gordon, aged 6 years and 9 months, youngest child of Mr. Donald Clark.

At Calais Milltown, on the 23rd inst., Alfred, aged 34 years and 3 months, youngest son of Joseph and Sarah Alexander, of this town.

At the Marine Hospital, on the 26th inst., Mr. David Donaldson, (formerly a ship master out of this Port) and for upwards of 15 years a resident of the town, aged 72. Mr. Donaldson was a native of Scotland.

## WOOL CARDING.

Steam Grist Mill,  
EASTPORT, ME.

Parties sending Wool to this Mill can have their work done the same day the wool is received, and in the best manner.  
From its location it has facilities over all other mills in the neighborhood, as boats can land at the door of the mill. We have two new Cards from the manufactory of N. A. Lombard & Co. of Worcester, Mass., and are able to card from 300 to 400 pounds per day.

STEAM GRIST MILL CO.  
To the Electors of the County of Charlotte.

GENTLEMEN:—In compliance with a Requisition from some of my friends, and at the urgent personal request of many more, I have reluctantly consented to become a Candidate for your suffrages at the approaching Election for Members of the Local Assembly.

It was never more important than now to have men of independence and intelligence for your Representatives.

How much I feel that of my own standard of fitness, I know well.

From our new political relations many complicated questions will arise, whether we are to remain in our present political position, or under the pressure of some future emergency, resume our former condition, or adopt an entirely new one, it is of first importance that our constituents should be kept well informed by wisdom, prudence and courage.

The first duty of the Local House should be to protect with unimpeachable voice against the present Tariff.

Our Manufacturers are taxed on Coal for the benefit of Nova Scotia.

Our people are taxed on Flour and Corn for the benefit of O. tain.

By high duties the articles which enter most largely into the consumption of the people are much increased in cost.

Our Province should be made a cheap country to live in; it is being made a dear one. Our Local Assembly should strengthen the hands of our Representatives at Ottawa in demanding the removal or reduction of these exorbitant duties, and the curtailing of the present extravagant expenditure.

All over the Province the strongest and most intelligent men are being brought out for the Local House. In former days it was said that Charlotte had reason to be proud of her Members. If they were people were judged.

The man who has no interest in the good name of his town, his Parish, his County, or his Province, who cares not whether they are respected abroad or held in contempt, is a poor citizen.

I lay no claim to possess all the qualifications which your Representatives should have, to do honor to your choice, but should at least strive to cast no disgrace on my native country at home or abroad.

If there are four better men in field—choose them.

If I am elected I shall go the Assembly entirely unpledged. I shall give every measure the fullest possible consideration, and vote for what I consider right; whatever I think for the interests of Charlotte County shall have my most earnest advocacy.

If I am not elected I shall remain at home most contentedly, knowing that my own interests, pecuniary, will be best served by undivided attention to my own business.

Yours Respectfully,  
GEORGE F. HILL.

To the Electors of Charlotte County.

GENTLEMEN:—The General Assembly of this Province having been dissolved, I shall, at the approaching election of members for this County, be a candidate for your suffrages.

Should I be again honored by election as one of your representatives, I will in every respect faithfully and industriously endeavor to discharge my duty as a legislator to your satisfaction.

Yours very respectfully,  
BENJR R. STEVENSON.  
St. Andrews, 15th June, 1870.

To the Electors of Charlotte County.

GENTLEMEN:—Having been induced to offer as a candidate for your suffrages at the ensuing election of representatives to the House of Assembly, and being a young man with no past political career to point you to as a guarantee for future acts, it becomes essential that I should thus define my position.

I am in favor of a progressive measures that the finances of the Province will permit of undertaking and carrying out.

I am in favor of liberal aid to all necessary railways and steam navigation, that speedy and

permanent communication with all points of importance.

I am in favor of any measure that will aid in development of the Dominion.

I am in favor of a better part that will diffuse the knowledge at the least expense of the poor man's equities with the child of I am also in favor of a better part that will diffuse the knowledge at the least expense of the poor man's equities with the child of

I would go for more strict regulations regarding the use of liquors, firmly believing that it is now worse than they want, was invested in legislation of this Province now.

And as I aspire to become of the laboring class, I would different branches of industry to grant—particularly the Fisheries. And since has so materially lessened Legislature, I believe that duction of representation, salaries of departmental officers.

Should you endorse the it expedient to entrust you my keeping, I hope you will confidence and votes, and you to the best of my judgment, I am, gentlemen, your

Pennfield, May 14, 1870.

## TO THE ELECTORS.

GENTLEMEN:—Once more I enter the coming year's interests in the Local House since I first made my appearance. Unhappily by either done battle against a powerful town whose power has been felt the great injury of nearly all business.

Then Freeman of Charlotte amount of Independence. Prejudice of voters will be he even to the Islands of the Sea. I am now, as I have been, a member of the WORKING MEN, view, and that object is to raise to a higher plane of social standing. I am still free from all party tions of any kind; thus if I justice to all.

I am still in favor of all my such as an extension of the Franchise, and last election I was a British subject, at the age of a Lien Law, that the curity for his labor; also a guarantee to the poor man's child rich man's; let them have a fair trial, and I have no fear for my. I am in favor of all measures of the working class, my power to do so.

My acts since I have taken to the people of the Parish of St. Parishes, and last election I was a British subject, at the age of a Lien Law, that the curity for his labor; also a guarantee to the poor man's child rich man's; let them have a fair trial, and I have no fear for my. I am in favor of all measures of the working class, my power to do so.
