European Intelligence.

ARRIVAL OF THE AMERICA.

The steamship America, which sailed from Liverpool on Saturday the 14th Jan., and Queenstown on the following day, reached Halifax on the 2 inst., after a stormy passage of upwards of 19 days.

There is little news of importance by this arrival.

Breadstuffs are reported firm, and the Timber market unchanged.

Unauthentic rumours say Congres will still meet about the 15th Feb. It is denied that Lord Cowley had any mission to London or took any proposition from Napoleon.—French accounts reiterate that he did negotiate the non-intervention question.

The Bank of France lost fifty five millions francs in cash in December. Bourse 58 90.

Consols 95⅛ a ¼ for money, and 95¼ a ⅜ for account.

Bullion in the Bank of England decreased £200,000.

QUEENSTOWN, Jan. 14th.—Mr Villemane publishing a pamphlet in which he advocates territorial rights of the Pope. It is rumoured that the majority of French Bishops have expressed themselves ready to launch into public, but Rome hesitates to give the signal.

At Vienna it is fully believed that Government intends openly and effectively to interfere in Central Italy in favor of the exiled Dukes, and the Papal Government. The pastoral of the Archbishop, published in the Weimer Zeitung of the 12th, confirms this fear.

SOUTHAMPTON, Saturday.—The Ireman from New York, has arrived.

The "Univers" announces that the Bishop of Perignan is about to publish a pamphlet in answer to the "Pope and the Congress."

THE MILITIA.—The United Service Gazette says a rumour gains credit in military circles that it is the intention of Government to disband the Militia embodied very early in the spring.

CITY, Saturday evening.—The funds today are firm at the closing prices of yesterday: in the share market there is scarcely a single feature of interest. The Railroad share market is inactive but prices steady.

PARIS Saturday.—The Pays says, "All our information be correct, the state of affairs is daily improving, not only as regards the relations of the French Government with the Holy See, but also in reference to those of England, which are continually becoming more intimate.

12.15 P. M.—Rentes open at a further advance of one eighth, the first price being 69.

3.20 P. M.—The market has become very flat and prices have materially declined; rentes were quoted 68.65, being one quarter below yesterday's closing price.

The Vienna Gazette has published an Imperial decree, enacting that the testimony of Jews be regarded as the same value as Christians. The measure is considered preliminary, according to them full civil and political rights.

The Diet of Denmark has decided by a large majority that the bill for the separation of Church and State be read a second time.

The Independence Belge retracts a statement that Prince Metternich had left for Vienna.

The City of Wasington arrived at Liverpool on the 12th. Borussia arrived at Southampton about same time.

Reuter's telegrams that the object of Lord Cowley's mission to London was to resume negotiations between England and France, which were initiated by the former, but interrupted by opposition of Walewski; the basis of these negotiations was the principle of non-intervention of affairs in Central Italy.

France, adopting the same basis, is desirous that the whole of Europe should give its formal adhesion to that principle; with this view Cowley solicited to sound the feeling of the British Cabinet as to the advisability of addressing a collective note to the European Cabinets; in this note an infraction of the principle of non-intervention was to be treated as a *casus belli*. The British Cabinet, whilst expressing its readiness to support the principle of non-intervention, either at Congress or in its communication with Foreign Powers, pointed out the impossibility of pledging itself without the consent of Parliament, to a course of policy which might possibly invoke hostilities; this feeling of the Northern Courts gave rise to some fear that Europe would not tacitly submit to so threatening an intimation and which also implied the adoption of principles opposed to the independance of every state which possesses the right of forming such alliances as it may think proper and at its own risk and peril.

The British Cabinet having thus declined the propositions to enter into engagements having such important bearing, the question of an early meeting of Congress is again revived.

GENERAL NEWS.

It was rumoured, but considered doubtful, that the Emperor of Austria has invited Russia and Prussia to form an Alliance to defend the legitimate rights of monarchs.

The Manchester Chamber of Commerce have memorialized Palmerston to bring the subject of international maritime law before the European Congress.

The latest accounts state that the Spanish army was near Tetuan, the position of affairs being unchanged.

Reports are current and believed in Paris that an agreement has been made between France and England, for a reciprocal import of English Iron and Coal, and French Wines.

The Paris correspondent of the Post reports that the Papal Nuncio has said the Pope will give up Romagna, provided the rest of his dominions be secured to him.

Antonelli's resignation is not confirmed.

It is rumored that Garibaldi had gone to Sicily.

Gen. Montauban, Commander-in-Chief of the French Expedition to China, had embarked with his staff at Marseilles for his destination, via the overland route.

The monthly returns of the Bank of France show a decrease in each of forty-five million francs and an increase in discounts of nearly forty-six millions.

A submarine Telegraph Cable has been successfully laid between the Channel Islands and France.

A stormy meeting of the Great Ship Company was held in London, the Report presented showing the position of the Company and announcing the resignation of the Board. A motion to receive the report was followed by the amendment that before doing so a committee of investigation be appointed; after a warm discussion it was resolved to decide the question by ballot; the result of this ballot was expected to be made known the day the America sailed. The meeting stood adjourned till the 17th.

A Captain Walker, stated to be the Captain of the slaver Wanderer, and who recently arrived in Liverpool under extraordinary circumstances, was under arrest in that place, charged with having conspired with others to obtain money by false pretences. The evidence given before the magistrate showed that Walker was treating for the purchase of ships for a slaving expedition.

Edmund Lane and George Hires, first and second mates of the ship Auva, of New York, were under arrest in London, charged with having murdered several colored seamen during the voyage from Lagona to England.

The Cotton Mill at Blackburn called Sivallow Steel Mill, containing upwards of 20,000 spindles, was burnt. Loss £30,000.

INDIA AND CHINA.

The Calcutta Mail of Dec. 10th, and Hong Kong of 27th had reached England.

A Government dispatch from Oude confirms the complete overthrow and dispersion of the remainder of the rebel army. All the leading rebels had been taken prisoners except the Begum, and he could not hold out alone.

The Salt tax was to be increased 1s. to the 80 pounds, adding nearly a million sterling to the revenue. Calcutta imports quiet. Cotton goods declining. Freights active.

The Chinese are reported making great war-like preparations.

Imports at Hong Kong and Canton dull, but prices generally sustained, owing to light stocks. Tea quiet but holders refused reduction. Imports quiet at Shanghai—Tea business almost stopped owing to the exorbitant rate demanded. Silk lower. A good business in tea at Foo Chow at firm rates.

At Japan trade progressed favourably.

Bombay telegram of 27th Dec. via Aden, reports the campaign against rebels in Nepaul all over; rebels all surrendered except the Begum. It is said the Chinese have addressed a demand that Russia shall evacuate all the country of the Amoor.

LONDON MONEY MARKET.—The weekly meeting of the Bank of England Directors passed without any alvance in the rate of discount. The demand for money continued active.

E. G. Wheeler & Co., London ship owners, suspended for about £40 000, also Church & Son, London, in the sugar trade.

LATEST VIA LIVERPOOL.—London Saturday.—The Daily News City Article says the Funds on Friday very steady, closing at Thursday's prices; favourable impression was produced by the renewed firmness.

PARIS BOURSE.—No share markets—no general alteration of importance—no falling off in demand for money—but applications at the Bank here upon only a moderate scale were witnessed during the past three days. The sum of £120,000 was withdrawn from Bank for the Continent. Demand for silver and Mexican dollars for East has increased within the last few days. The supply of the latter is very limited at extremely high prices.

The Times City Article says:—The Funds opened on Friday without alteration, but there was subsequently an improvement of ⅛, on receipt of quotations from Paris. No appreciable effect yet produced on the Iron Market by the current report that the duty is about to be reduced by the French Government.

The Times, in a leader on the Italian question says it is now announced almost in official language that England and France have fully agreed to recognize and protect the Central Italian States, and rejoices at the liberal course pursued by Napoleon.

FROM CALIFORNIA.

MALLOY'S STATION, Jan. 30.—The overland mail arrived here about 2 o'clock this afternoon, with San Francisco papers of Jan. 9.

The U. S. storeship Saginaw, built entirely in California, was completed, and had arrived in San Francisco harbor. She will make a trial trip of six or seven days prior to her departure for China.

Arrivals from domestic and Atlantic ports continued to occur freely.

Dates from British Columbia are to the 6th, but the news is unimportant.

Oregon advices are to the 3d. The Columbia river was still closed by ice.

The mining news from Fort Colville was gratifying. The times were prosperous, and money plentiful.

Advices from Tube says that the driver of the overland mail brought news on his last trip that the Indians at Apache Pass had given signs of extensive preparations for the total extermination of the overland mail line through their country, to be followed by a descent upon the inhabitants.

The Indians, since the return of the troops from their campaign, have been more troublesome than ever. On the night of the 10th, all the horses belonging to Capt. Stone's command were stolen, together with 11 horses and 42 cattle belonging to farmers in the neighborhood.

Communication.

For the Standard.

VOLUNTEERS ATTENTION!

SIR,—We take the pleasure of announcing, that in accordance with that spirit of loyalty which at the present time so generally pervades, not only in the Mother country, but is also manifested throughout the British Provinces; the inhabitance of our rural little village of St. George, have been touched with the chilvalrous flame, and have taken the lead in Charlotte County, in proffering a tender of their services.

We understand that an application was made some time ago, by Douglas Westmore, Esq., to the proper authorities soliciting the necessary supply of arms, and other accoutrements; and that his application has been very favourably responded to. Sixty of our young men have come forward and placed their names on the muster roll; and if we may judge from the interest now taken, as many more will be attached during the summer.

Drilling has already commenced, the roll of the drum is heard every evening,—a person duly qualified, and thoroughly conversant with military tactics, has been appointed as drill-serjeant; a selection of officers has been made. Sixty stand of Enfield rifles, blank and ball cartridges, cartouche boxes, &c., are daily expected. A suitable military uniform with other necessary requirements will be individually provided. The ladies, first and foremost in every good cause, have pledged themselves to furnish an appropriate stand of colours; this, Sir, is highly creditable, and shows that the scion has not degenerated from the old parent stock, and judging from the present appearance of our new recruits, we think that such could not be deposited into better hands for safe keeping, than into the brawny arms and stout hearts, of the men composing—"The Saint George Volunteer Rifle Company,"—provided that they will never tarnish their colours, or prove recreant in their defence.

We would ask the officers of our Artillery company, why they stand on the "rear ground" in the general movement? and would suggest that they organize without delay. We hope this friendly hint will have the desired effect, and that they also will be up and doing.

Yours to command,

EYES RIGHT.

To the Editor of the Standard.

SIR.—It has been with no small degree of pleasure, that I have observed the announcement of the success in an Academic contest, of the representative of our Grammar School in the Provincial University.—Not merely honorable as the distinction is, at the individual success do I rejoice, but when in a *Provincial* contest—when candidates are gathered from every quarter of the land, we see the successful aspirant to be one whose education was derived not from the schools of the capital of our Province, upon the ability of whose teachers upon the well disciplined minds of those taught, a copious stream of praise is continually being poured, but from the Grammar School of the County of Charlotte,—in my humble opinion, we have reason to be proud of the School thus represented. The prize "proposed for Provincial competition" for the third time won by "the representative of the Charlotte County Grammar School," will stimulate the *scholar* who is to merge hereafter into the *student*, to exertions that will enable him to hold a high and honorable position in the records of his Alma Mater, and experience a proud satisfaction, that in him the representation of the school whence he came, has suffered no loss. Having used well the advantages there placed before him, he can follow with ease to their source those classical founts, which having deeply quaffed, and learned their true value, the minds of Fox and Canning produced the proudest efforts of genius; or he may fathom the Cosmos of the sciences, and follow the path that Newton first explored.

When under the guidance of the eminent and most superior scholar, who for many years has been at the head of our University, he has enjoyed the benefits of an academic education, let him then descend to the arena of active life, and show the fruits of that education which he has acquired, and prove to demonstration the blessings and the utility of an University education.

FLOREAT ALMA MATER.

St. Andrews, Feb. 7, 1860.

The Standard.

ST. ANDREWS, FEB. 8, 1860.

In our columns will be seen, a summary of the news by the Steamship America,—The intelligence is not very important. Rumors that the proposed Congress would meet on the 15th, inst., were rife, but wanted official confirmation. Napoleon's letter to the Pope, attracted considerable attention, and it was reported in the French papers that the state of affairs was improving.—By the arrival of the North American at Portland, we learn that France had formally resumed negotiations for the meeting of Congress. The following is the telegraph dispatch of the news by that arrival:—

Arrival of the North American.

Portland, Feb. 4.

North American arrived at 10 a m.

Another death from cruelty on board American ship Wizard King.

France formally resumed negotiations for Congress.

Napoleon addressed important Free Trade Circular to Ministers of State, generally applauded in Paris, and highly satisfactory to England.

Belgium sends expedition to China with England and France, with view of establishing Belgian colony.

Swiss Council had seized pamphlet of Mazini, and expelled foreigners who published it.

Spain paid England 10,500,000 francs.

Spaniards masters of all positions of Cabo Lego, which command all the heights of Tetuan, and would be before Tetuan soon as the artillery were able to pass.

Austria abandoned all idea of continuing the war.

Chinese strengthening Pekin.

Bank rates raised half per cent.

Consols 95¼ a ⅜ for money.

Cotton advanced 1-16 to 1-8th. No change in provisions and breadstuffs.

Latest from Europe.

BOSTON, Feb. 6th.

The Asia arrived last evening.

Political news unimportant.

Commercial treaty between France and England will soon be signed.

Archbishop of Paris has withdrawn from the Council of the Empire, which indicates that the clerical party are assuming a more determinded opposition to the Emperor's late Papal policy.

The British Parliament was to assemble Jan. 24th.

COMMERCIAL.

Breadstuffs very dull with no transactions.

Provisions steady. Consols 94¾ a 95¼.

Money in active demand at three per cent discount.

Bullion in the Bank declined £339,631.

The Legislature meets to-morrow, for we hope the *dispatch* of business.

It is with sincere regret we record the death of an old class-mate and friend, Henry Fisher, Esq. Chief Superintendent of Schools which took place in Fredericton, on the 1st instant, in the 48th year of his age. There can be no question as to his having performthe onerous duties of his office with ability, fidelity and zealously. In conversation with our lamented friend a few months ago, he remarked that it took time to effect improvement in the school system, and that he had been devoting his attention to the subject and obtaining the necessary information from best sources. Had he lived, it is reasonable to suppose, he would effected the object. We deeply sympathise with his afflicted family and relatives.

We have received the January number of "the Instructor," published by Alexander Munro, Bay Verte; it contains 24 pages and is devoted to Education, Agriculture and general intelligence, price 3s per annum. Mr. R. Glenn is Agent for St. Andrews.

We much regret having been misinformed with respect to Capt. Bradford having arrived in the schr. Georgianna, as stated in our last number. Mr. Whitlock principal owner of the vessel sent us the following note which we publish, as it purports to give the actual facts:—"It is false, Capt. B. did not arrive in the schooner Georgianna, (although he got home)—the vessel sailed from N York to the W. Indies—and his money also, some $300, is safe, *not in his* but some scoundrels *pocket* in N. York." We observe in the New Bruswicker an extract of a letter from Mr. Whitlock, which says that Capt. Bradford "states that he had no recollection of anything after he left the lawyers' office, in New York, until he found himself in the Franklin Hotel, in Portland, minus his money (over $200), and that he must have been drugged, robbed and sent off."

SPEAKER ELECTED.—Mr. Pennington was elected Speaker of Legislature at Washington on the 1st instant.

Mr. William Barker, of St. Mary's narrowly escaped death while felling a tree.

AYER'S AMERICAN ALMANAC for 1860, is now ready for delivery gratis at Messrs. Odell & Turner's, who are happy to supply all that call for them. Every family should have and keep this book. It is worth having. Comprising much general information of great value; it gives the best instruction for the cure of prevalent complaints, that we can get anywhere. Its anecdotes, alone are worth a bushel of wheat, and its medical advice is sometimes worth to the sick, the wheat's weight in gold. Many of the medical almanacs are trash, but this is solid metal. Its calculations are made purposely for this latitude and are therefore correct.—Call and get an Ayer's Almanac, and when got, keep it

Died.

On Wednesday morning, Henrietta Augusta, eldest daughter of Mr. Wm. Whitside, in the 29th year of her age; her end was peace.
