THE BOARD OF UNITED FRUIT AND
VEGETABLE PRODUCERS
We notice some of the old-time
tricks again in shipping
rates at Monday's session of the
Com. ill.

The Mayor made a mistake in not
allowing the people to decide upon
the question of increased salaries for
the controllers. It looks as though
the Mayor was becoming suspicious of
the people's decision.

PROTECT THE WORKER, NOT THE
IDLER
The hen goes very tired sitting on her
eggs.
"Ank's I-relive you!" asked the
chick.
"Thanks, very much," replied the
hen.

Industry has been "protected" by an
indefinite, backdoor, sneak-thief sort
of taxation. It comes out in the form
of the sheepfold, but climbs up some
other way. It is ashamed to show its
face, to render an account, or give a
voucher. It comes as a thief in the
night with a hidden, crafty step to catch
the workman unawares, and subjects him
to an insensible perspiration from which
there is no escape.

When the village is small, the owner
of the land says, "I'll let you have the
land for the occupation of the land."
When the village becomes a town, the
land owner says, "Pay me a
hundred dollars per acre per annum."
When the town becomes a city, he says,
"Pay me a hundred dollars per acre per
yearly for the occupation of the land."
When the city becomes a mighty metropolis, he demands a thousand or two
thousand dollars per day for the occupation
of a single acre. Without forbidding
the farmer the greatest of his gains, he
demands the product of five hundred farms.
Every day, without raising a bill of
lance, he gets as his share of the product
of industry the yearly product of a
whole farm.

By H. Steel, in the Labor Leader.
Since Mr. Andrew Carnegie, forsook
his and poured into the free library
system and the relationship between a
millionaire and his money has become
of more interest. The responsibility of
having money to spend are said to be
almost as wearing as the struggle itself
to acquire it. Some picture the millionaire
as spending his life in searching for
ways of spending his money without
doing harm, and some even attempt to
justify the millionaire because out of
his superfluities he can build hospitals,
churches, provide books, and establish
chairs at universities, whereas if there
were no millionaires such gifts would not
be forthcoming.

By an Act passed by the 10th session of the
Ontario Legislature, a Bureau of Labor has
been established for the purpose of collecting,
investigating and publishing information
relating to the conditions of labor in the
provinces of Ontario, Quebec and New
Brunswick.

W. D. McPherson is hitting it up for
the majority race. He will find the
road fairly rough and the going a little
hard unless he can show more cause for
his entry than appears upon the surface.
It looks as though the party will be considerably
split with Gooden, McPherson
and Catesworth in the field. Of the
three, we are inclined to think that Gooden
will outstrip his weak opponents. His
last year's run for the School Board
will help him materially in the race.
All three are on somewhat of the same
plane so far as experience goes.
