

THE REUNION HOW S ENTERTAIN... ovial Ones at Nla-Harry Collins, Potentate.

TWO BODIES FOUND IN SKEENA RIVER WERE VICTIMS OF THE RECENT CANOE FATILITY

Interesting Budget of News From Port Simpson - Indian School Being Erected - Surveyors at Work. A Port Simpson correspondent of the Times writes: On July 18 the bodies of two white men were found in the Skeena river. They are supposed to be the remains of Stewart and Ward, both victims of the very sad drowning disaster a few weeks ago near the Lorne Creek mines. J. W. Graham, operator of the Skeena canyon canoe, picked up one of the bodies near the canyon, and though the face was badly bruised, made out the man to be of fair complexion. This, with other description besides the finding of letters in the pockets evidently prove the name of the man. The other body was found by S. Dogbie, operator of the Graveyard station, some miles below the Skeena canyon. The following is a description of the corpse, and which is no doubt the man named Ward of the party: About 5 ft. 7 in. in height, dark hair and short dark beard, about middle aged, a black mark around the centre, on the third finger of the right hand, and had on a black sixteen shirt. The coroner at Hazelton was notified of the discovery of the body at the canyon, and an inquest was held, at which it was decided that the body was that of Stewart, and that the deceased came June 11th, between Lorne creek and the canyon of the Skeena river. The other body is being taken to Port Essington for the inquest. The first Japanese ship to enter Port Simpson under her own sail from 'The Land of the Rising Sun,' has arrived, which proves that Port Simpson is now the only feasible waterway for the big terminus of the Grand Trunk Pacific. The Higashi Maru, 600-ton full-rigged merchant ship, Captain Kuroki, came from the Orient after a voyage of five weeks on the briny deep. The owner (a Japanese merchant) came over to Vancouver on one of the Empresses some time ago, and landed here on Saturday morning. The steamer Fern is again in port, having returned on Saturday from Portland canal. The employees are very quiet regarding their business on the coast, but it is supposed that they are timber cruising for Klamath and other rivers. The stern Wheeler Mount Royal is now due here from Wrangle and the Sticksie river, and will proceed to the Skeena to ply on that river until the end of the season. Her skipper has had a very successful season. A party of 98 mining engineers called here last Saturday evening on the steamer Princess Mary, which has in all 105 passengers— all bound for the Yukon and northern ports. It is rumored that the mining party will also charter the Princess Beatrice on her next trip from the Dr. Bell Dawson and his assistant, S. Haden, of the Dominion geological surveys, were here all last week inspecting the tidal work and making different surveys. They have gone to Rivers Inlet, Bella Bella, China Hat, Hartley Bay and Seymour Narrows, where surveys will be made and tidal gauges stationed at each of the points. The Simpsons were delighted to see the fine new steamer the Camosun, of the Union S. S. Co., of Vancouver, the other day, and more so to see their good friend Captain Magar has the contract, and Owen as skipper of the steamer. She had as passengers from here, C. Gardner Johnston, Lloyd's agent, Vancouver, wife and niece Mr. Murray, of the Bank of Montreal, and Mrs. Dr. Bell Dawson, S. Haden, Mrs. C. H. Richards and three children, A. Lowe, of Victoria, W. Anderson, of Vancouver, and others. Reports from the Skeena regarding the salmon catch are much better these last two weeks, boats now averaging from 30 to 300 sockeyes and about 15 spring salmon. Captain Magar has the contract, and Owen as skipper of the steamer. She had as passengers from here, C. Gardner Johnston, Lloyd's agent, Vancouver, wife and niece Mr. Murray, of the Bank of Montreal, and Mrs. Dr. Bell Dawson, S. Haden, Mrs. C. H. Richards and three children, A. Lowe, of Victoria, W. Anderson, of Vancouver, and others. Reports from the Skeena regarding the salmon catch are much better these last two weeks, boats now averaging from 30 to 300 sockeyes and about 15 spring salmon. Get the Doctor Quick!

When accidents happen in the home quickly get the bottle of Fowl's Eucalypti... ACCEPT NO SUBSTITUTE.

OVER THE TEA TABLE

King ably assisted the hostess in serving tea and refreshments and looking after the guests. Mrs. Smith wore a gown of mauve organza with white lace. Amongst the guests were Mrs. Blacklock, who wore black silk, Mrs. G. H. Burns, white cloth coat and skirt; Mrs. Griffiths, Mrs. Garesche, who wore a blue and white gown; Mrs. Gooch, Mrs. King, Mrs. Macdonald, Mrs. P. Barnard as usual was looking very pretty in black crepe de chine with black and white lace. Mrs. G. H. Burns, white cloth coat and skirt; Mrs. Griffiths, Mrs. Garesche, who wore a blue and white gown; Mrs. Gooch, Mrs. King, Mrs. Macdonald, Mrs. P. Barnard as usual was looking very pretty in black crepe de chine with black and white lace.

WELL-KNOWN PIONEER CROSSES THE DIVIDE

Monday afternoon at 1:30 o'clock Jas. Dean, one of Victoria's most prominent pioneer citizens, passed away at the residence, Oak Vale farm, Richmond avenue. He had been ill with paralysis since last Friday, and in spite of the best medical attention gradually declined until death intervened today. Mr. Dean was 78 years of age and came to Victoria in the employ of the Hudson's Bay Company in 1853. He was a passenger from the Old Country on the ship 'Norman Morrison,' upon which quite a number of other Victoria pioneers came to make their homes on the shores of Western Canada. He was a native of Midlothian, Scotland. Since his arrival in this country more than half a century ago, Mr. Dean had an interesting career. He devoted a large part of his time and attention to a study of Indian lore, his connection with the Hudson's Bay Co. enabling him to pursue his favorite occupation with exceptional facility. For some years he continued with the company, after which he took up geological surveying. He continued in his studies of the Indians of British Columbia. After a time he became thoroughly familiar with all these languages, and was able to converse with members of any tribe of Indians belonging to the North Pacific coast. About this time he published one or two books of Indian stories, which are still read with interest. His familiarity with the natives led to his appointment to take charge of the British Columbia Indian exhibit at the World's fair in Chicago. Mr. Dean also was a wide reader and had a thorough grasp of current affairs. He was a member of the old Caledonia and St. Andrew's Society, and a feature of all the annual banquets under the auspices of that society was a poem, appropriate to the occasion, by him. Ever since the organization of the Natural History Society he has been a valued member, before whom he read several instructive papers on geology. These were particularly interesting from the fact that Mr. Dean travelled through the remotest part of this province and had a complete knowledge of its geological conditions. Besides this, Mr. Dean has written a number of articles on botanical subjects which were read before the society. His death evening, he deeply mourned by a wide circle of friends and acquaintances. The funeral arrangements have not yet been announced.

Jas. Dean Passed Away Early This Afternoon—Close of an Active Career

Mr. Max Ewart, who has been out with a survey party in the Queen's Head, is back in Victoria. While out there Mr. Ewart had the misfortune to be taken for a bear by another member of the party, who put a bullet in the neck of the man, but the bullet struck the victim had the bullet extracted, and he is now recuperating here. Miss Barbara Boscowitz and Miss Ada Boscowitz, of London, are here now with their father, Mr. Joseph Boscowitz. The last week has been a busy one at the Belcher street tennis grounds, where the annual tournament has been in progress. A crowd of spectators has not been at all large, but each day has had its quota of visitors, who went to see their friends at play. The tournament was most interesting. The victors during the week I noticed Mrs. Hamilton, Mrs. Bush, Mrs. Watts, Mrs. Bland, Captain and Mrs. Williams, Mrs. Foster, Mrs. Bell, Mrs. Gidd, Mrs. Bell, Miss Pooley and Miss Gowell. SURVEYOR BUSY. Will Make Preliminary Survey Up North of the Skeena River. Grand Forestry, B. C., July 15.—J. C. Callaghan, a prominent engineer of the Caledonia railway, with headquarters at Whinipet, has been engaged for some days for the purpose of making a complete preliminary survey for his company up the north fork of the Kettle River. He has engaged a party of men, including Grand Forestry, up the north fork of the Kettle River, up the north fork of the Kettle River, up the north fork of the Kettle River.

THREATENS ACTION. Geo. D. Collins Demands Retraction of Article by Morning Paper.

Unless the morning paper retracts the article it reproduced from one of the San Francisco papers on Saturday regarding the Collins case, it will have to face a suit for criminal libel which it is the intention of Mr. Collins to institute. He says he does not propose to allow the morning paper to reproduce articles which are only published in the first place for the purpose of inflaming public sentiment against him. He expressed surprise that that paper should be so anxious to scold and report on the trial in the Bay City press instead of calling upon him, something his reporters had not yet done. Mr. Collins is busily engaged in looking into the Canadian law on the subject of perjury and will put up a strong fight for his liberty. It is amusing to contemplate the deplorable attitude of the San Francisco authorities on the subject of perjury. They seem to think that all that is necessary is to send an officer with the papers bearing the signature of the governor and the lawyer will be handed over to them at once. District Attorney Byington says that Collins will be back in 'Frisco again within a fortnight, and gave vent to an expression of annoyed surprise when he received the following telegram from Chief Langley: 'Victoria, B. C., July 13.—J. F. Dinan, chief of police, San Francisco, Cal.: Collins held. His application for discharge dismissed. Cases remained open. Wednesday next to permit us securing necessary evidence. We must have the following evidence here by next Wednesday morning: At least two expert witnesses on law of perjury in California. At least two witnesses to prove that Collins actually committed perjury according to California law. Officer with original warrant duly issued by proper California authority. Original deposition should be brought here and certified by judge as original. Signature of the case remained open. Some depositions. Gibson is expected to reach Victoria to-morrow morning. OLD MAN'S SUICIDE. Casper Gardner, Aged 87 Years, Ended His Life by Jumping Into Lake. Tacoma, July 16.—After brooding over suicide for several years, Casper Gardner finally ended his life by jumping into Spanaway lake Friday night. Gardner was 87 years old and had been despondent for several years past owing to his inability to provide for his family in a time before he took his life he told three persons that he was tired of living, but inasmuch as he had frequently made threats for many years, little or no attention was paid to them. Gardner had been a resident of the county for about twenty years, and has been in and about Spanaway for the greater part of his life. He worked as a laborer, but in the last four years had not been able to do much for himself and had to rely upon charity. He was frequently an inmate of the county poor farm at Sumner, and had worked as a laborer, but in the last four years had not been able to do much for himself and had to rely upon charity. He was frequently an inmate of the county poor farm at Sumner, and had worked as a laborer, but in the last four years had not been able to do much for himself and had to rely upon charity. He was frequently an inmate of the county poor farm at Sumner, and had worked as a laborer, but in the last four years had not been able to do much for himself and had to rely upon charity.

PRISONER SHOT. Inmate of Penitentiary Dies From Effects of Wounds Inflicted While Attempting to Escape.

Rudolph Peterson, an inmate of the provincial penitentiary, died yesterday morning at New Westminster. Early last week Peterson, who was serving a sentence of six months, attempted to make his escape and was shot on by Special Guard Hutchinson. It was in consequence of the wounds inflicted that his death occurred yesterday. When he attempted to break away Peterson was working with a gang from the penitentiary at the exhibition grounds. While resting at noon Peterson, who had already served a month, attempted to escape. He made a dash for the woods close at hand. Hutchinson called upon him to stop, but the prisoner never heeded the warning. A shot was fired in the air by the guard, and the fugitive only increased his speed. The next shot fired by Hutchinson was aimed at the prisoner, and the contents took effect in his back. Peterson dropped and was taken to the hospital, but some of the large-sized buckshot fired from the guard's gun had broken his organs and his death followed yesterday. The special guard, it is contended, acted according to instructions and only did his duty in preventing the prisoner's escape. DIED FROM INJURIES. Man Who Was Knocked Down Flight of Stairs Passed Away in Hospital. Chicago, July 17.—Welcome Jerome, a bookkeeper who claims to be a relative of District Attorney Jerome, of New York, struck Chas. Faure, a Frenchman, in the face, knocking him down a flight of stairs and causing injuries from which he died later in a hospital. The reason Jerome gave for his act was that Faure had caused a separation between himself and his wife, Mrs. Jerome was with Faure at the time of the assault. Jerome is under arrest, and Mrs. Jerome, who for the last four weeks has been known as Mrs. Faure, is held as a witness. BELLINGHAM'S HOPES. Citizens Expect C. P. R. to Make an Important Course There. The people of Bellingham following the report that the C. P. R. is to purchase the Bellingham Bay and British Columbia railroad believe that a new route will be established there and that the city will be an important distributing point. The Puget Sound American, published in Bellingham, says: 'The Canadian Pacific railway purchases the Bellingham Bay & British Columbia railway, as half the people of Bellingham and surrounding territory believe it is virtually certain to establish a bonded warehouse here, or, working with Bellingham, persuade the government to do so. 'With a bonded warehouse Bellingham merchants would be able to form a duty money to New York to release goods that they may purchase from Europe or Asia, but can have no outlet for the same in bond. On arrival here the goods should be placed in the bonded warehouse, stamped with the government seal and drawn out when wanted. The duty would have to be paid only on the goods withdrawn and would not occasion financial embarrassment, as might be the case when a merchant is compelled to pay the duty in a lump sum in advance at an east-coast entry point. 'It is possible that the government would build the bonded warehouse and it would then be available for all transients. It is believed that center here, J. A. Hill would undoubtedly be the convenient man to handle the duty in advance at an east-coast entry point. 'It is possible that the government would build the bonded warehouse and it would then be available for all transients. It is believed that center here, J. A.
