MONCTON. Local Supporters are Getting Afraid -

Wheat is Rusting-Four Strange Clergymen,

MONCTON, Aug. 15.-The local government supporters in this section are in a panicky condition and are will-ing to promise anything that will ap-

pease the wrath of the people. Messrs. Robinscn, Richard and Wells have Robinson, Richard and Wells have been visiting various sections of Monoton parish lately giving govern-moni money freely to sections of road that have not had a dollar, many of them for two and three years. If the elections are not coming on this fall it is very evident that the Emmerson party have discovered that it would be certain death politically to appeal to the people next spring unless some-tting is done, but they will discover that there is a point beyond which no party can go and wounds in the body politic that no "saive" can heal.

ally interesting. There are now eight patients in the Moncton hospital, and the promoters are more than ever satisfied that the undertaking was a judicious one and in the public interest. The wheat is rusting badly in this part of the province. Many fields are totally rained, and others will be hardly worth cutting. Much of the hay has also been gathered in a dam-aged condition.

Palmer, who left here early in June to join a party at Boston for the Alaskan gold fields, have arrived safe-ly at St. Michael's, which is within 350 miles of their destination. Mr. Dun-lop in a letter home says there are 1,500 people "broke" in St. Michael's, and there is talk of compelling trans-portation companies to carry people back.

LONDON, Aug. 16 .- The Santiago correspondent of the Times who acted s interpreter for General Shafter during the interviews preceding the sur-render of Santiago, describes fully the fighting and capitulation of the city. and criticizes severely the tactical olunders made, the opportunities missed and the lack of the information of the enemy's movements displayed by both Spaniards and Americans. The correspondent says the necessity for the surrender of Santiago is no more

evident now than it was before. WASHINGTON, Aug. 15 .- Since the

declaration of war, the quartermast-ers department has purchased sixteen arge vessels and eleven small vessels and has chartered sixty-six ships and boats of various kinds for the trans-

SANTUAGO DE CUBA, Aug. 15, 6.30 p. m.—The official report submitted to Gen. Shafter by collector of the port Donaldson shows the customs re-venues from July 30 to Aug. 13 to be \$64,215, an excellent showing for the tirst forminght of American administration. Miss Clara Barton of the Red Cross society today cabled President McKin-ley, requesting that a vessel be given her at once for the purpose of taking relief supplies to the darving Cubans in Havana, where, according to re-ports, want and distress prevail. It is expected that a vessel will be placed at the service of the Red Cross so-ciety immediately, as there is an abundant stock of food supplies here orly awaiting means of transporta-tion, and the excellent and far reach-ing work Miss Barton has done here

demands recognition to the extent of furnishing her an opportunity for fur-ther and much needed relief work in Hayand.
