PRICE FIVE CENTS:

HALIFAX, Oct. 6.—The chief subject of conversation among a very large circle in Halifax the past few days is a recent ball, which took place at Masonic hall, and its aftermath. The ball itself was brilliant aftermath. The ball itself was brilliant and thoroughly pleasant, though what Jappened during the following couple of days was just the reverse—to the principals,—but it was amusing, nevertheless, to those not directly interested, who heard of it. The ball was attended by about one hundred and fifty,many of them the best people in town. The card of invitation was couched in the most polite language, asking the pleasure of the company of those to whom it was sent, at Masonic hall, when Messrs F. J. Murphy, W. S. Davidson, G. W. Fordham and J. B. Domelas would be "at times to balls, and the mere fact of the names of chaperons, etc., being given, will not, perhaps, be taken as an all-sufficient guarantee of what is before the pleasure-seeker. He may want to know if he will have to pay for his acceptance.

**JicManus, Mrs H. Bligh, and Mrs. G. W. Fordham were given as the chaperones. Fashionable balls on that principal are often given in Halifax—when young men desire to make some recognition to their lady friends of hospitalities and social pleasures which they have received from them during the season. It is perfectly right they should do so.

As stated, there were some one hundred and fifty invitations accepted, representing a very large proportion of those issued. The company numbered among the gentlemen a number who, while not what "society" csll swell, are very nice people. Many of them are members of the city club and several are stylish members of the

murder, the circumstances of which were so horrible and painful. The friends of the suspected, Edward Wheary, are doing all they can to shield him from damaging testimony, and they refuse to say anything that will in any way connect him with the deed. Two or three witnesses were examined, but no additional facts were elicited. The husband of the murdered woman corroborated the statement of his boy when he returned, that Eddie had killed his wife, and it appears from his testimony that even after hearing this statement he instructed his brother, whom he met coming from the house, to attend to his horses. Then after going into the house and seeing his wife lying dead on the floor, he went to the neighbours for some assistance. When he returned his brother was not to be found. The testimony of the two woman who returned with Mr. Wheary to the house was the same as that given already in the newspapers regarding the appearance of the body when found. When the young men were asked for \$2 they were so surprised that they almost lost their breath. All the guests might just as well have been asked for \$5 each as for \$2. The defenders of Messrs. There was a good deal of fun at the meeting of the municipal council this week.

The principal business to come up, or rather that which excited the most interest was the hospital commission matter, which arose out of an article published in Progressiance the method adopted by history of men in politics to be long out of history of men in politics to be long out of history of men in politics to be long out of RESS regarding the method adopted by Commissioner Clarke in "sampling" the lucrative employment.

But he was simply bottling up his wrath for the youthful Carleton councillor, and when the discussion was about ended he arose, and in measured terms began to "sit upon" in measured terms began to "sit upon" Councillor Baxter. He took occasion in vindication of his canvass for the commissionership, to mention that he had expected Mr. Clarke's resignation on the table when that may be compared and the nature of a surprise to many people because it seemed wonderful that any minister who had officiated in St Judes could be suitable in any degree for the decidedly "high" church in Fairville. But Mr. Hudgell is not a low churchman and a few words with a prominent member of St. Judes parish caplained that when he was selected he was

Some of the members of the council must have taken it for granted that the commissionership would be vacant because they have been canvassing actively, for the appointment. Considering that Mr. Clarke's case has not been considered by the council, that he is still a commissioner of the hospital, this action would no doubt be considered by Secretary-treasurer Frith as well as many others as in decidedly bad taste.

And so one of those present, Coun. Baxter, expressed it when he said that it did not appear seemly for members of the council to be seeking an appointment that was not vacant and since it largely depended upon the action of the council whether it would be vacant or not. How could the council with justice to Mr. Clarke consider when he had run races and had been when he said that the council with justice to Mr. Clarke consider pledged to appoint another man (and bim one of their colleagues) to the position.
