

POINTS THE PROCESS OF MAKING CREAM CHEESE

Useful Information for Farmers' Wives and Daughters on the Subject of "Soft Cheese", from Pamphlet Prepared at Request of Dr. Ruddick, Dairy Commissioner for Canada

In Bulletin No. 30 of the Dairy and Cold Storage Commissioner's series, Miss G. Egan, N.D., instructor in dairying, Macdonald College, P. Q., describes the process of making cream cheese as follows:

The process of manufacturing this particular variety of cream cheese is inexpensive and simple, and the cheese is so profitable that farmers should encourage their wives and daughters to follow these instructions, so as to be able to furnish their tables with a good wholesome and nutritious article of diet. If made from fairly rich cream, it will contain from 40 to 50 per cent of butter-fat. Butter-fat is more easily digested than other fats, and should, therefore, prove most beneficial to invalids. With or without butter it is most palatable, and makes delicious sandwiches. During the three years this cheese has been made at Macdonald College, the demand has increased from four dozen to fifty dozen per month.

Why Its Making Should Be Encouraged.

1. It is profitable. The cream from 100 pounds of average milk will make twenty-five cream cheese, which will sell at 15 cents each or equal to \$3.75 per 100 pounds of milk.
2. The return is quick. The cheese being marketable in three days, thus saving the expense of storage.

How He Escaped An Operation

And Was Completely Cured of Piles of 14 Years' Standing by Dr. Chase's Ointment

Mr. Charles Beauvais.

Doctors say that about one person in every four suffers more or less from piles, and who can imagine a more annoying, torturing, disagreeable ailment?

After trying a few treatments without success, and as the ailment grows worse, the medical doctor is consulted. You think of the suffering, expense and risk to life itself, and hesitate before taking such a step.

In many thousands of such cases Dr. Chase's Ointment has made thorough and lasting cures. Read this letter for the proof.

Mr. Charles Beauvais, a well-known citizen of St. Jean, Que., writes: "For 14 years I suffered from chronic piles, and considered my case very serious. I was treated by a celebrated doctor who could not help me and ordered a surgical operation as the only means of relief.

"However, I decided to try Dr. Chase's Ointment, and obtained great relief from the first box. The use of three boxes I was entirely cured. This is why it gives me great pleasure to recommend Dr. Chase's Ointment to all who suffer from piles as a treatment of the greatest value."

Dr. Chase's Ointment, 10 cents a box, all dealers or Edmondson, Bates & Co., Limited, Toronto.

YOUNG WIFE SAVED FROM HOSPITAL

Tells How Sick She Was And What Saved Her From An Operation.

Upper Sandusky, Ohio. "Three years ago I was married and went to house-keeping. I was not feeling well and could hardly drag myself along. I had such tired feelings, my back ached, my sides ached, I had bladder trouble awfully bad, and I could not eat or sleep. I had headaches, too, and became almost nervous wreck. My doctor told me to go to a hospital. I did not like that idea very well, so when I saw your advertisement in a paper, I wrote to you for advice, and have done so you told me. I have taken Lydia E. Pinkham's Vegetable Compound and Liver Pills, and now I have my health.

"If sick and ailing women would only know enough to take your medicine, they would get relief."—Mrs. BERT H. STANLEY, Route 6, Box 18, Upper Sandusky, Ohio.

If you have mysterious pains, irregularity, backache, extreme nervousness, inflammation, ulceration or displacement, don't wait too long, but try Lydia E. Pinkham's Vegetable Compound now.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and such magnificent testimony as the above proves the value of this famous remedy and should give every one confidence.

Why Zam-Buk is Best Cure for Skin Sores

An illustration of the way in which Zam-Buk cures even the most serious and chronic cases of ulcers, eruptions and sores is provided by Mr. R. H. Barker, of Glenora, Ont. He says: "I would not have believed that any remedy could cure so quickly, and at the same time so effectively, as Zam-Buk cured me."

"My face became covered with a kind of rash, which itched and irritated. This rash then turned to sores, which discharged freely and began to spread. I first tried one thing and then another, but nothing seemed to do me any good, and the eruption got worse and worse, until my face was just covered with running sores.

"Apart from the pain (which was very bad), my face was such a terrible sight that I was not fit to go out. This was my state when some one advised me to try Zam-Buk. I got a supply, and, marvellous as it may sound, within little over a month every sore on my face was healed. I was so amazed that I have told the facts to several persons, and I have no objection to your stating my experience for the benefit of other sufferers."

Zam-Buk is purely herbal in composition, and is the ideal balm for babies and young children, for whose tender skin coarse ointments are so dangerous. Zam-Buk is a sure cure for cold sores, chapped hands, frost bites, blood-poison, varicose sores, scalds, sunburn, ringworm, inflamed patches, babies' eruptions and chapped places, cuts, burns, bruises and skin injuries generally. All druggists and stores sell it at 50¢. Toronto, under receipt of price. Refuse harmful substitutes.

and hence more marketable. Should the cheese be required for the home table it can be made up into balls with the butter paddles.

Muslin.

Ordinary white butter muslin. One yard muslin, 36 inches wide, will cut into 49 pieces, each 5 inches square, which is the correct size for the round cream cheese mould.

Skimmer.

A perforated skimmer is necessary for lading the curd from the pans into the cloths.

Paper and Packages.

Grease proof wrapping paper will be required to wrap the cheese. It is to be sent to market. It can be obtained from any dairy supply-house. Cardboard packages can be had from any of the folding box manufacturers, and cost from three to five dollars per thousand.

Age for Marketing.

Cream cheese is best eaten fresh. Its weight being four ounces only, it will naturally dry up very easily. They should not be sold over a week old, and they should be on the market in three days from the day of starting their manufacture.

Process of Making.

Requirements for the cheese:—
One gallon cream (15 per cent. butter-fat).
One tablespoonful of starter or buttermilk.
Twenty drops of rennet extract, or equivalent in tablets.
Dairy salt.
Thermometer.
A pail, bowl, skimmer and spoon.
Two huckaback towels and some string.
Cream cheese mould and some muslin.

Method.

1. Put cream and starter into a clean vessel and mix.
2. Get the temperature between 80 and 84 degrees F.
3. Dilute the rennet extract with five times its bulk of water, in order to facilitate mixing. Add it to the cream, stirring gently and thoroughly for two minutes.
4. Cover with a cloth to retain the heat, and let it stand for two or three hours, or until a nice, soft curd is formed.
5. Spread one of the cloths in the bowl, then with the skimmer gently ladle the curd from the pail into the bowl, being careful to take out all the whey and to break it as little as possible.
6. Gather up the cloth and tie it with a string, without crushing the curd, then hang it to drain on a stick placed between two chairs, or in some other convenient position, with the bowl placed underneath to receive the whey. Let it drain from 12 to 24 hours.
7. When sufficiently drained, turn the curd into a clean cloth, sprinkle with salt to taste and knead in it the cloth to thoroughly mix the salt.
8. Then fold the cloth neatly over

the cheese, and place between two boards to press, with a brick on top, and leave for a few hours or until the whey is out. The cheese is now ready to be put into the mould. Put one ounce of cream cheese into the mould. Put one ounce of cream cheese into the mould. Put one ounce of cream cheese into the mould.

Weight of each cheese . . . 4 ounces
Retail price 15 cents

ACROBATS POPULAR IN INDIA.

The wandering acrobats of India are recruited from a low caste of people called Dombarans, who live by this profession alone. The children are trained from their earliest childhood, and do not receive any education in schools. They travel from village to village, and give their performance, which are really wonderful, in the open air, before crowds of onlookers. Their tricks are quaint and sometimes astonishingly clever. Supported by one another, these men will balance themselves in a crazy kind of pyramid, rising fifteen or twenty feet from the ground, and one of their number will then climb this living pyramid with a heavy weight in his teeth. Babies not yet able to walk are often seen balancing on the shoulders of the acrobats. In the most dangerous manner in these performances Jajahs and rich Indians are very fond of the acrobatic displays and engage the best of the men to perform before their guests at entertainments.—Wide World Magazine.

PRISONERS ARE GIVEN WATER CURE

Complaint is Made that New Form of Cruelty is Inflicted Upon Prisoners—Reform Promised

Jefferson City, Mo., Jan. 12.—A new form of the "water cure" has been introduced at the Missouri State Penitentiary here, it is declared by convicts and as a result of the severity of the tortures inflicted many men have been incapacitated for work in the contract shops.

That some of the prisoners have been forced to undergo the "cure" while it is a further charge, says the St. Louis Republic.

A large bathtub in the hospital ward of the prison is used for the "water cure." The prisoner ordered punished by the "cure" is first stripped to the skin. Then his arms are strapped to his sides and his ankles are strapped to the sides of the tub. The bathtub is filled with ice cold water, and into this the convict is placed.

He is utterly helpless in the grasp of the hands or "straps" who administer the "cure." One man seized the victim by the ankles and another plunges his head under the water, where it is held until he is almost strangled.

As he involuntarily gasps for air he swallows quantities of the water. The "water cure" is repeated until it has the effects of the "cure" once practised in the Philippines, in which Moros were plunged to the ground and water poured down their throats through a hose.

The further charge is made that a chemical which causes nausea is placed in the water. This is denied by the prison officials.

That the incoming democratic administration will put an end to the "water cure" and other cruel punishments now practised in the prison is assured. A board of pardon and parole will be established, and the problem of what shall be done with the convicts when the present shop labor system is abolished will be worked out early by the General Assembly.

The "lash" still is used in the prison and there are many other forms of punishment in effect that were long ago published in the majority of penal institutions.

Though the prison officials declare the "lash" is resorted to only in extreme cases, the convicts say it is used much more often than the outside world knows.

A common punishment now practised in the State Prison is "stringing up in the ring." It is a form of torture inflicted when a convict misses the "tasks" in the shops.

The unfortunate is taken to the hall in which are the solitary cells. In the back wall of each cell is an iron ring fastened about seven feet from the floor. A handcuff is placed on one of the convict's wrists and he is pulled up to the ring. The convict is then fastened to the wall with his arms above his head, his body twisted sideways.

He cannot sit or lie down, but can only lean against the rough wall. The strain of the pulling handcuffs is constant and tiresome.

Three or four hours of this "stringing up in the ring" punishment ordinarily will break the spirit of the most stubborn convict. When released the convicts fall to the floor utterly numb and sometimes they are unable to move for hours because of suspended circulation of the blood.

The whipping posts still stand in the old cell hall with the ring in each about seven feet from the floor. When the "cat of nine tails" punishment of the whipping post is inflicted the convict is stripped to the waist and his arms are fastened by handcuffs to the rings above.

His body swings forward without support and the rawhide of the "whip" is applied to his bare back. From three to twenty blows are suffered by the convict. The second or third blow—depending upon the humanity of the official who wields the whip—cuts through the skin.

The convicts are so dauntless enough to keep conscious after the tenth blow. The convicts "whipped" are sent to the hospital for treatment after the punishment. Their backs often bear scars for life.

"Isn't Her Complexion Beautiful?"

This is What They Say of Those Who Use Stuart's Calcium Wafers—Pimples and All Other Skin Eruptions Disappear in Remarkable Quick Time.

You can use all the lotions and creams in the world, but you won't have a good complexion unless your blood is free from the impurities which cause pimples, blotches, liver spots, blackheads and boils.

There is no sense in being longer humiliated by having to appear in public with a pimple-covered, blotched face—a face that makes strangers stare and your friends ashamed. Stuart's Calcium Wafers will drive all blemishes away and make your face a welcome instead of an unwelcome sight. You'll no longer be a slave to pimples, acne, blackheads, liver spots, boils, eczema, tetter or any skin eruption.

You can get Stuart's Calcium Wafers from any druggist at 50 cents a box. They are sold everywhere and highly recommended as the greatest known blood remedy and skin beautifier.

Drunkards will tell you with tears of sincerity that they do not want to drink. The craving coming from the inflamed membranes of the stomach drives them to it.

Alcure will soothe the trembling nerves and remove the craving that is ruining your home and stealing an otherwise kind husband or father from you. It costs only \$1.00 per box and if it does not cure or benefit after a trial, the money will be refunded.

Alcure No. 1 is tasteless and can be given secretly in Tea, Coffee or Food. Alcure No. 2 is taken voluntarily by those willing to help themselves. Alcure can now be obtained at our Store. Ask for Free Booklet telling all about it, and give Alcure a trial.

Ready for Cold Days?

Keep your body warm and your digestion perfect by eating

SHREDDED WHEAT

WITH HOT MILK

every morning for breakfast. Shredded Wheat on a cold day gives natural warmth in a natural way. Shredded Wheat makes good red blood and healthy muscular tissue—the best protection against cold and exposure. Better for children than mushy porridges because they have to CHEW it and they get more real nutriment from it.

Heat the Biscuit in oven to restore crispness; then pour hot milk over it, adding a little cream. Salt or sweeten to suit the taste. Two Shredded Wheat Biscuits with hot milk will supply all the strength needed for a half day's work or play. It is also delicious for any meal in combination with fresh or preserved fruits.
