

ANOTHER LIBERAL M. P. FOR COMPULSION

DR. NEELEY, LIBERAL MEMBER OF HUMBOLDT, SASKATCHEWAN, DECIDES LAURIER IS WRONG

Will Give His Whole Hearted Support to Conscription Bill—Says Germany Still Far From Beaten.

SIR SAM HUGHES HAS LITTLE USE FOR HALIFAX NEWSPAPER MAN

Dr. Chabot of Ottawa, a French Canadian, Announces that He Will Give Compulsion Measure His Undivided Support.

Ottawa, June 28.—(Leased wire.)—
Hon. T. W. Crothers stated at the opening of the House today that he had received a message from the controller of mines at Calgary in which the confident expectation was expressed that the men would go back to work next Tuesday.
Sir Robert Borden gave notice that tomorrow he would move that on and after July 1, the House should meet at 11 o'clock in the forenoon.
Sir Wilfrid Laurier said he hoped that morning sessions would not go into effect until after the debate upon conscription was over.
The premier replied that he could not see any objection to his proposal as it would not restrict debating, and he asked if Sir Wilfrid could give him any idea when the debate on the second reading would be likely to end.
Sir Wilfrid said he would let him know tomorrow.

Sir Sam Talks.

On a question of privilege General Sir Sam Hughes referred to statements made by Mr. A. K. MacLean in the House on Tuesday referring to alleged refusal of Sir Sam to allow a Halifax newspaper man to join the overseas forces, and also to the ex-minister's alleged endeavor to get Mr. McLean to repeat in the House "title-tattle" against the minister of finance. Sir Sam said that the young man referred to by Mr. MacLean had been sent overseas as a newspaper correspondent and was at the time "not desirous of fighting for king and country." "He wrote back," declared Sir Sam, "a series of the most slanderous, malicious and false articles that ever came from the pen of any one professing to be a journalist. I later on, after he had returned to Canada, a request came to me to make this young man an officer. Being under the impression that he had previously been in the Canadian expeditionary force, I issued an order that under no circumstances should he be promoted or taken on the strength again unless he made reparation. This he did later. As soon as I learned he had seen the error of his ways and was desirous of enlisting I took him on the force and believe he became an officer."

Was a Joke.

As to Mr. MacLean's charge that he (Sir Sam) had sought to have Mr. MacLean criticize the financial minister in the House, the ex-minister of militia declared that there had only been some "jocular reference" in a conversation a year ago to Mr. MacLean's efforts as financial critic of the opposition. "I told him," said Sir Sam, "that I thought any school boy could have done as well as he had done. I shall never be found holding another conversation with him except in the presence of witnesses."
Dr. Neeley, Liberal member of Humboldt, Sask., continued the debate on the conscription bill. He said that Germany was still far from beaten and we were still face to face with a determined enemy. He failed to understand the attitude of any man who said that Canada had done enough. In his judgment the man who took the ground that we had not the power to pass this legislation had no proper appreciation of the present situation. In his opinion when the state was in jeopardy that state had the right to place its hands on the shoulders of its citizens and commandeer their services.
"I will vote," he declared, "against the referendum, as it is not a fit subject to place before the people as to whether individual citizens shall do their duty or not. The House will be dividing itself of its own accord in taking the course proposed by Sir Wilfrid Laurier."

Praises United States.

He said that Canada had not entered the war in a business-like way, but if mistakes had been made there were others who were benefiting by it. He said that the United States, he declared, they may have been slow to enter the war, but they had entered.

BOYS' SUITS, TOO AT SEMI-READY SALE

"High School" Suits for Boys and Younger Men.

Over 300 Suits for Boys Included in the Great Summer Sale at the Semi-ready Store.

In the west the "High School" suits for boys were tailored in answer to a demand for parents for "something better" in clothes for boys. Two years ago the Semi-ready Company started their manufacture, and it was planned to introduce them here early this summer. These suits are late coming from England.
"I am going to sell these suits at manufacturer's cost, for the double purpose of making them known and getting rid of late goods. They arrived just as I had made my plans for the early summer sale of men's suits," said the manager of the store.
"The Semi-ready Sale starts today, with men's suits, beautifully tailored as low as \$10; and with substantial discounts on over a thousand garments for men.
Boys' Knicker Suits will be sold as low as \$7. These are well tailored as men's suits and are made from the same cloth. High school suits will stand up on the roughest kind of wear, and will always look neat and fine. They far outclass the common variety of ready-made clothes considered good enough for boys.
Youths' Suits, too, will be included in sizes up to 35 inch breast. These are smart, compactly built, small in the waist for lads of from 15 to 19 years, will be sold for \$12 to \$14, and the whole of them are worth from \$15.50 to \$19.50.
The men cannot complain about the variety of choice they will have, for on a recent yesterday it was found that over 1,200 suits were available for the summer sale, in sizes to fit every shape and size of manhood.

LIVERY STABLE MEN GET INCREASED RATE

Yesterday's committee meeting of the common council it was decided to accede to the request of the cab owners that they be allowed to increase rates, tenders for excavation and backfill for water main renewals were opened and referred to the Mayor and Commissioner of Water and Sewerage, who will report to the council.
Commissioner Fisher reported that he would recommend some changes in the charge for openings in the sidewalk following the passage of the recent bill and the matter will be dealt with at the next meeting of the council.
The proposed charges are: \$1.00 for opening up to eighteen inches and 25 cents per square foot for additional space instead of the present flat rate of \$5. per opening and 15 cents and fifteen cents per square foot for underground space instead of twenty-five cents at present.

Rheumatism Entirely Gone

After Twenty-seven Years of Suffering—Swelling and Puffiness Gone—Disappeared—Not a Pain—No More an Ache Left.
Kincaid's Oil, June 28.—A most astounding cure of rheumatism and sciatica has been reported here, and Mrs. Ray is enthusiastic in telling her many friends how the cure was effected.
Rheumatism and sciatica frequently go together, and in this case caused the most keen distress imaginable. All the swelling and puffiness resulting from many years of rheumatism have disappeared, and there is not a pain or an ache left.
Mr. G. H. Ray, R. R. No. 1, Kincaid, Ont., writes: "Mrs. Ray has been using your Kidney-Liver Pills. She was very bad with rheumatism and sciatica, and had had that fearful itchy for twenty-seven years. It was simply terrible what she suffered. I persuaded her to try \$1.00 worth of Dr. Chase's Kidney-Liver Pills, she is now free from both these diseases. All the swelling and puffiness caused by the rheumatism has gone away, and she has come down in weight 18 1/2 pounds. She never has an ache nor pain, biliousness nor sick headaches all these months. She often says how glad I am that I know what to do instead of paying doctors so much to make me worse."
There is only one way that the poisons in the blood can be cleaned away and the cause of pain and aches removed, and that is by the beneficial action of the kidneys, liver and bowels. Chase's Kidney-Liver Pills act directly and specifically on these organs and ensure their activity they remove the cause of rheumatism and other dreadfully painful and chronic diseases. One pill a dose, 25 cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

COLOSSAL OPERATIONS.

More than one million pounds of high explosive was blown up under the German forward trenches on the first day of the British advance in the Ypres salient. It is a war of unprecedented magnitude. The tremendous amount of high explosive used on one day only supplies an indication of the colossal nature of the whole struggle. Expenditures of money are on the same giant scale. The Dominion is carrying a financial burden unprecedented in its history. If it is to be carried successfully, the financial resources of the nation must be mobilized and utilized.
It is for the purpose of such mobilization and utilization that the National Service Board has launched its present national campaign for thrift. The object of that campaign is to save every possible cent that it may be invested in Government War Savings Certificates. Your money is guaranteed and the return is excellent. In addition you are doing real war-service. Save and give. B-3

Leon Gary, who plays opposite Mollie King in Pathé's newest serial, "Mystery of the Double Cross," was formerly Sarah Bernhardt's leading man. Seven months in the trenches at the outbreak of the war gave him rheumatism so badly that he was released from the service.
