

Commissioner Inkster accepted Commissioner Nicholson's plaque from Provost Corps Association President Henderson.

in the military and police forces.

On a personal note, Commissioner Inkster observed that Mr. Henderson was owed the gratitude of the Force for his record of service. From 1946 to 1950, while serving as Warrant Officer II in the army, Henderson had been seconded to the RCMP "Depot" Division to act as Drill Instructor. His presence there had been

particularly valuable, because many of the recruits were soldiers returning from European battlefields, making the difficult adjustment to the role of policemen sworn to keep the peace.

The plaque accepted by Commissioner Inkster has been sent to the RCMP Museum in Regina. ■
