Many children die from the assaults
of worms, and the first care of mothers
should be to see that their infants are
free from the pests. A vermifuge that
can be depended on is Miller's Worm
Powders. They will not only expel
worms from the system, but act as a
health-giving medicine and a remedy
for many of the ailments that beset
infants, enfeebling them and endan-
gering their lives.

"S. O. S." "S. O. S." Everybody
knows what that danger signal means
at sea. "To the rescue." "No time

present it means in addition: "Socks!
O Socks!" and "Shirts! O Shirts!"
It's a hurry call, just the same.

1916 STUDEBAKER CARS

40 H. P. FOUR \$1195 50 H. P. SIX \$1395

—more POWER
Never before have such powerful cars been priced so low. The 4-cylinder car
develops 40 45 horse power. The 6-cylinder car has 50-55 horse power.

—more ROOM
Both cars are roomier than ever. The bodies are deeper and larger in every
way. They carry seven passengers in comfort—the auxiliary seats fold into
hidden recesses in the floor.

—even HIGHER QUALITY
It shows in every detail of the car. Genuine hand-buffed leather—chrome-
nickel and chrome-vanadium steels in the steering knuckle, gears and shafts—
25 color and varnish operations—thirteen Timken bearings—and higher
standards of accuracy in manufacturing and inspection.

—and LOWER PRICES
But Studebaker made no attempt to produce low-priced cars purely for the
sake of a low price. Instead, Studebaker started in to build the best car that
it could build. The price is low only because of largely increased production
for the coming year, great factory resources, complete manufacture of the
cars in Studebaker plants and concentration on virtually one chassis.

And all that we ask is that you come in and see the cars—
see how much more they give—and the quality that they
offer. We honestly don't believe that you can select
a car without injustice to yourself if you don't see them.
