

**HOME-MADE BREAD**  
Home bread-making reduces the high cost of living by lessening the amount of expensive meats required to supply the necessary nourishment to the body. The increased nutritious value of bread made in the home with

**ROYAL YEAST CAKES**  
should be sufficient incentive to the thoughtful housewife to give this important food item the attention to which it is justly entitled. Bread made with Royal Yeast will keep fresh and moist longer than that made with any other.

Made in Canada.

(By Canadian Grocer.)  
From the various market centres come reports this week of few price changes in general grocery commodities. The markets are for the most part steady and firm. The sugar situation is still stringent, but there is some improvement, and there is hope that supplies will be adequate in the course of another fortnight.

**MONTREAL.**—Fewer price changes in the grocery markets this week and the absence of these is something new. Sugar deliveries are improving right along and the basis is now \$11 all round, and firm at this. Molasses is decidedly firm and it is predicted in some quarters that the basis will be higher. Canned corn is easier in one quarter. The bean markets hold steady and demand is only fair. Rice is a good seller at maintained prices.

Tarragon almonds are quoted up 2c in one quarter. Tea and coffee are active and supplies are moving out quite freely. The new order for wheat flour issued by the Wheat Board will be very acceptable to the mills. Feeds are active and the undertone firm. Grain prices are slightly down, that is for oats, while barley is a trifle higher. The provision markets are resting somewhat, but lard and shortening have been ruling easier. There is a short delivery, at present of new-laid eggs.

**TORONTO.**—Changes are few in the markets for general grocery commodities this week. There is considerable activity to trade and quotations are for the most part steady and strong. The arrival of new crop goods is awaited in the case of a good many lines, that are at present right off the market.

The sugar situation is still one of scarcity, but the opinion seems to be that conditions will gradually improve and that in the course of a fortnight or so, supplies will be easier. Prices are strong and unchanged, on the basis of \$11.21, Toronto delivery. Both cereals in packages and in bulk are selling freely and quotations are very firm. Tea continues to show an upward trend and there is very little tea on spot that can now be bought under 45 cents.

New buying is really at higher levels than quotations on spot. A stronger tone prevails in the coffee markets at primary points, but prices on this market are unchanged. Pure cocoa is firm around 30c per pound. Prices are announced on new crop canned tomatoes and corn. They are higher than opening quotations last year, but are under what was been

paid at the close of the season. Canned peaches and plums are also very much higher than a year ago. Dried fruits, new prunes and apricots are at strong values and should be available at an early date. California lemon and orange peels are now being quoted at 40 cents per pound. A car of Greek Sultana raisins have been received, but they have been pretty well cleaned up at prices from 25 to 27 cents per pound. Nuts are at strong values and new buying will be at high figures. Little new crop honey has been bought as yet, the price the growers are holding out for being too high.

In the produce markets there is a general easing of values, although the prices at last March on pork and pork products are not yet prevailing. In some instances this week, quotations are two and three cents lower. Hams and bacon are selling freely. Cooked meats are lower. Butter is firm and eggs and cheese are unchanged from 1st week. There is a good demand for poultry, in anticipation of a brisk inquiry for Thanksgiving.

**WINNIPEG.**—There is still a serious face to the sugar situation, though some improvement has been noticed of late. Some refiners are making no deliveries in Manitoba. Opening prices have been named on tomatoes and corn and the trade was delirious to find that prices were lower than expected. Tea is very firm, indeed, and advances are probable. Beans and rice, too, are very firm and advances are expected. In the produce market there is a generally firm tendency. Pork prices are somewhat firmer. Butter and eggs are both very limited in supply and are being held very firmly. There is a better inquiry of fish noted and the variety offering is also better, while demand is good at firm prices.

**DER DEUTSCHE CANADIER.**  
Berlin, Canada West, Jan. 9th 1852.  
The following extracts are taken from a copy of the "Deutsche Canadier", published at Berlin, Canada West, dated January 9th 1852. This old newspaper is the property of Mr. Henry Stepler of this city.

The undersigned begs to announce to his patrons and the public in general that he now has his tannery fully equipped in order to prepare and supply all kinds of leather for the trade. For cowhides, calf- and sheepskins I will pay the highest prices in trade. For the latter I will also pay cash from one shilling up to one dollar apiece. My tannery is situated on King street near Hoffman's Furniture factory and opposite the Berlin Foundry.

Reinhold Lang.

Doctor Delion, German Physician, Greenbush near Berlin.  
Royal Exchange Hotel, conducted by Noah Ziegler, King St., Berlin, C. W.

\* Farmers Inn, by Michael Heller, opposite the P. O., King St., Berlin, C. W.

\* Paris, Nov. 30, 1851, Marshall Soult, Duke of Dalmatia, died on the 26th inst. at his castle, Soult Mount, at the age of 82 years. With him our country loses the last conspicuous military genius of the former empire.

The reports from the gold mines in California are very favorable. Very rich gold deposits have been discovered. A company gained \$220,000 worth of gold in Bear Valley in four days. A lump of gold, weighing 69 ounces, has been found at Wood's Creek. Miners clear from \$6 to \$8 per day. Many cases of murder are being reported. In most cases the guilty ones are being lynched by the enraged mob.

Mr. Reinhold Lang offers a reward of \$10 for the apprehension of one S—, who borrowed a pony from him to ride to Preston, but has never returned with it. He further offers \$10 to any one, giving information in regard to the missing pony. He believes S— sold it somewhere below Hamilton and made his way across the border.

The presidential election all over France took place on the 20th and 21. December. Voting in Paris passed off quietly. It is estimated that Louis Napoleon will receive a majority of 7,000,000 votes.

Married.—Jan. 6th, 1852, by Rev. Benjamin Eby, Henry Brubacher to Mary Musselman of Woolwich.

The Canada Kalender for the year 1852 is ready and can be obtained at our office and in all stores of the surrounding country.

Robert Fulton, whose project to navigate ships by steam was ridiculed in England, went over to France and when the idea reached Napoleon he addressed the following letter to Mr. V. Champagny: "I have just read of the project of Engineer, Citizen Fulton, which was forwarded to me too late, as it may change the face of the earth. However that may be, I wish that you submit a test of it to a commission composed of members chosen by you from all classes of the Institute. There learned Europe will seek the judges to answer the question under consideration. A great truth, a physical one, one that we can grasp with our hands, lies before our eyes. To survey and penetrate it will be the duty of these men. The report as soon as completed, must be handed to you to be transmitted to me. See that this matter is disposed of within 8 days as I am beginning to be impatient. And herewith, Mr. Champagny, I pray God to take you into his protection."

From our camp at Bologna, July 21st 1804.  
Napoleon.  
The commission was formed, the project critically examined by those wise men and Fulton declared a visionary, his idea that of a madman, absurd and a coarse mistake. Fulton deeply grieved over the failure of his expectations, came to America, where in 1807 at New York he launched his first steamboat.

## A Womans' Warning

Why will women continue to drag around in misery, suffering with the ailments peculiar to their sex, that drag them down to misery and despair, with backache, nervousness, the blues, derangements and irregularities, when there is a proved remedy for just such conditions?

For more than forty years Lydia E. Pinkham's Vegetable Compound has been overcoming these ailments until it is now recognized everywhere as the standard remedy for woman's ills,

### For Twenty Years the Friend of This Woman

Akron, Ohio.—"I am fifty-one years old and going through the Change of Life, and Lydia E. Pinkham's Vegetable Compound is doing me lots of good. I felt run-down and weak but since taking the Vegetable Compound I am much stronger and better. I can eat and sleep, am gaining flesh and can do more work than I have for some time. Twenty years ago your Vegetable Compound helped me during childbirth. I wish you would print this in your paper so that other women may read it. There is nothing better for the relief of suffering womanhood than Lydia E. Pinkham's Vegetable Compound. It does away with sickness and nervousness which is very often responsible for the lack of perfect harmony in the home."

Mrs. S. A. FRIEDLANDER,  
840 Elmore St., Akron, Ohio.

If you need a medicine of this kind you may depend upon

## Farm and Country Life in Canada

FARMING is a basic industry in Canada. From the first days of its publication, The Globe has always strongly advocated the development of scientific agriculture.

When the breeding of pure-bred stock in Canada was first deemed necessary, The Globe, by example and precept, showed what could be done.

The late George Brown was a leader in experiment. At Bow Park Farm, near Brantford, he bred from imported cattle so as to place pure-bred stock at the disposal of his neighbors.

From those days to the present, the furthering of the interests of the Farm and Country Life of Canada has been an important feature of The Globe.

The Weekly Farm Department has always been a source of inspiration to the farmers to improve their knowledge of agriculture.

The Globe believes that one of the best ways of teaching a man is to show him what his neighbor is doing. This is the policy The Globe adopts in its Farm Department. Two members of The Globe staff devote their whole time to the collection of material for this Department and in so doing spend several days each week in the country. They visit good farms all over Ontario and attend Fairs and Conventions. They report all developments in rural life as reflected in these gatherings as well as in the personal experience of successful farmers. Through its "Farm and Country Life" Section, The Globe has identified itself with every movement calculated to improve

the conditions under which farmers and their families do their daily work.

This is the service thousands of Farmers in Ontario and elsewhere receive and appreciate, and one of the reasons why many thousands of them read The Globe.

But that is not all. Keen competition, and the continued fluctuation of prices make it necessary for the farmer and his family to keep in touch with current produce and other commodity prices even from day to day.

The Globe has a well-merited reputation for accuracy, because in nothing is it more dependable than in its market reports. All prices quoted in The Globe are verified by the highest authorities SIX TIMES EVERY WEEK.

But besides all this, The Globe is as much a necessity and convenience in the Farm Home as anywhere else. The coming of the daily paper to the Farm Home ranks in importance with the rural mail delivery, the telephone, electricity and the good road.

It broadens the outlook of those who live on the farm. It keeps them informed on current events the world over. Not only does The Globe do this, but it serves the agriculturists of Canada in a peculiar and appropriate way.

The service The Globe has already rendered three generations of Farm Life is a guarantee of what it will do in the days to come.

This is why The Globe should have a place in every Farm Home in Ontario.
