An increased demand by the public for information regarding land settlement is attributed partly to the fact that Crown lands in Western Canada within fifteen miles of a railway, which heretofore have been reserved for returned men, became available for civilian entry on 1st May.

Besides Crown lands that may be available, it is estimated that there are about 200,000 quarter sections of privately owned lands lying idle in the Prairie provinces, most of them within easy reach of railways. The same condition applies, though in a lesser degree, to the older provinces of Canada. its comparatively small population it is at once apparent that a large portion of the area in private ownership must be unoccupied and available for purchase at reasonable prices.

In addition to its activities in connection with the settlement of vacant Crown lands in the Western provinces the Department of the Interior, in co-operation with Pro-

vincial officials, has compiled and published very full particulars regarding unoccupied, privately owned, farm lands in Manitoba, Saskatchewan, Alberta, Nova Scotia, New Brunswick and Prince Edward Island. This information which has been published by districts is issued free of charge and includes such details as the price at which land may be purchased, the terms of sale, acre-

age suitable for cultivation, nature of soil, and value of buildings. With such information in his possession the intending purchaser may negotiate with owners of land in any district in which he is particularly interested. In their endeavor to find a suitable location prospective homesteaders or purchasers will find of marked value the dual service which the Department of the Interior through its Natural Resources Intelligence Branch is now in a position to render.
