

# The Vinyl Phyle

Wagner's *Die Ringe*  
Berlin Philharmonic  
Angel

Like, this album really dissed me, because like, I was told that it was just this amazing

"Like...dissed...like  
...concy...like...  
dude...dissed...  
like...like...concy...  
uncool...like...  
megaawesome,  
dude."

ripskull megacool powercrunch thing, but instead it was totally concy.

A couple of the tunes were almost pseudodeathmetal, like "Ride of the Valkyries," but the lyrics were sorta tough to pick up when they sang, dude.

The other thing that dissed me like totally was like how long *Die Ringe* thing went. It was like a complete boxed concy set, and played for hours. Mega uncool.

If you're smart and cool like me, you'll go out and buy some local indie speedthrash like the She Devils' first cassette, *Unchain the Whips*. Now that's megaawesome, dude.
