George Francis Train has been heard from. He wants to know how it is that the Associated Press and all the newspaper people are at large. He was put in the Tombs for printing the allegations of the Beecher scandal, and there is nothing else in the papers, yet everybody goes free. He inquires the mysterious reasons of this.

Some English daily papers have been so malicious or so facetious, or both, as to include notices of High church celebrations among the theatrical entertainments.

1874. FALL TRADE. 1874.
