

A Hart-Parr Tractor Will do the Work of 22 Horses and do it Cheaper, Better and Quicker

Establish a record this year in your farm work by using economical power. Purchase a Hart-Parr Tractor and learn how to make more money with less work. A Hart-Parr tractor does the work of twenty-two horses and will run a day for what it costs to feed ten horses.

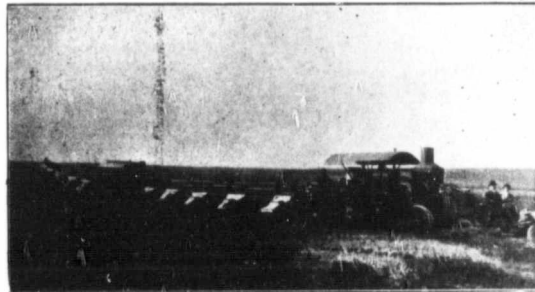

Threshing with a Hart-Parr

Hart-Parr tractors are substantial in construction, simple in operation and accurate in adjustment. The parts are made of the best material obtainable, and it is made to run for years. With a Hart-Parr tractor you can plow 25 acres a day and do other farm work equally as quick.

The Hart-Parr Tractor Will do the Work of
5 Men and 22 Horses
 and do it Every Day in the Year

A Hart-Parr tractor uses cheap kerosene for "feed" and starts instantly and runs until stopped.

Farm economy demands the use of a Hart-Parr tractor to plow, seed, harvest, thresh, make roads, grind feed, saw wood, and in fact, do anything you can do with a big barn full of horses.

Harvesting with a Hart-Parr

There are thousands of successful farmers to-day who are using Hart-Parr tractors, and if you will send for our new 1910 catalog you will want to own a Hart-Parr tractor too.
