### Maritime Markets

Halifax, Nov. 25, 1905.

Butter and cheese are exceptionally  
active and advances from one cent  
to a cent and a half have taken place  
in butter since last reporting. The  
advance is said to be due to unex-  
pected orders from England wiping out  
Canadian stock. Dairies are now  
quoted at 22c, creamery solids 25c  
and creamery print 26c. Rolls, 23c  
per lb. Large cheese are quoted at  
12c, while twins and small are  
worth 13c. There is nothing to in-  
dicate that lower prices will rule be-  
tween now and spring and in fact  
the reverse is most likely.

Eggs are now quoted at 20 cents  
in Charlottetown, making the price  
in Halifax 22 cents. Supplies are  
light and markets on both sides of  
the water are firm.

The demand for meat is fair. Prices  
are generally firm with the exception  
of small native beef. Fowls have ad-  
vanced to 12 cents per pound. Chick-  
ens are selling at 75 cents per pair.

Vegetables are not much changed.  
Potatoes are on the market in large  
quantities. Prices are as follows:  
P. E. J., 30 to 40 cents per bus.; N. B.,  
R., \$1.65 per barrel, \$1.50 per cwt.;  
turnips, 75c. per bbl.; carrots, \$1.25  
per bbl.

The demand for feeds has improv-  
ed somewhat but is still not particu-  
larly active. The oat market is steady  
and without change.
