### A Worthy Representative of the Pioneer Holstein Herd

Mary Queen (11127) traces back to an importation of Holstein in 1880, and carries the blood of such noted cows such as Runnside, Madam Stahel and the noted sire, William 1st, who sired De Kol 2nd and also Sir Schulling Pusch, who was grand champion at Toronto for three years in succession. Mr. Mack, the entire herd of this line of breeding will be sold at Port Hope on Feb. 11.

## OUR FARMERS' CLUB

Correspondence Invited

### PRINCE EDWARD ISLAND.

PRINCE CO., P. E. I.

RICMOND, Jan. 22.—There is a large attendance at the short course in Charlottetown. Our egg circle proves to be a grand success. Prices went as high as 55c a dozen, and those to show what the farmers can do by cooperation. Cheese and butter factories are closed for the year's work, which was satisfactory; from \$1 to \$1.05 a cwt. of milk. Stock are wintering well. Beef cattle are scarce and sell at 60 live weight; hay, 615; pork, 11c; butter, 25c; oats, 40c to 45c—D. M. L.

### NOVA SCOTIA

HANTS CO., N. S.

WINDSOR, Jan. 26.—Cooperation was the central theme at the annual meeting of the West Hants Farmers' Association. Mr. H. Percy Blanchard led in a discussion of cooperation, and Rev. J. M. G. Wade and D. S. Davidson also spoke on the subject. Mr. Geo. De Wolf led a discussion on taxation, speaking strongly against the taxation of personal property, a practice still followed in Nova Scotia, and one of the points in which we are behind practically every other district on the American continent. The officers elected for the ensuing year were: President, D. P. Schurman; Vice-President, John A. Scott; Secretary-Treasurer, Percy Blanchard; Directors, B. F. Lynch, Hantsport; B. S. Division, Falmouth; Singer Haly, Martock; Leonard Parker, Scotch Village; Arvid Woolaver, Brookline; Henry A. Sailing, Seap; Edward Smith, Burlington; Rupert Rose, Summersville; Wm. Palmer, Windsor Forks.

### NEW BRUNSWICK

VICTORIA CO., NEW BRUNSWICK  
TORQUE RIVER, Jan. 17.—We are having blizzard weather since the New Year more snow than we have had at this time for several years. Things have got a setback here in the potato business through the Americans putting on 12c a bushel. It has knocked the price away from sale yet. There is a good deal of lumber, and growers' association in every county. We have had one in this county for two years. We have a need fair every spring, when seed can be purchased or exchanged—D. I.

### QUEBEC.

MISSISSOUI CO., QUE.

PRELIMINARY, Jan. 27.—We are enjoying real winter with plenty of snow and it still keeps falling. There have been no thaws since the first snow came in December, and water scarce in many places. The ice barrier is now on and is very good, but not very thick yet, although the country has been lately three weeks below zero. All kinds of farm products are in good demand. Beef is scarce at 80 to 100; live hogs, 87 eggs, 26c; butter, 30c; milk, \$1.80 a cwt.—A. W.

### ONTARIO

BRUCE CO., ONT.

PAISLEY, Jan. 24.—The weather is fine, and good sleighing. Farmers are threshing clover; it is yielding a good average. Logs are being marketed in large amounts owing to the wind storm of Good Friday. Hay is in good demand at from 315 to 318. Grains and straw are plentiful. Two crows were seen by the writer to-day. The demand for all kinds of live stock is keen, except horses.—J. Mack.

WATERLOO CO., ONT.

WATERLOO, Jan. 21.—We are having fine winter weather and extra good sleighing. Farmers have not very much haying to do. Cutting firewood and drying chores is the order of the day. A large number of auction sales are being held in this county, and are usually well patronized. Ordinary dairy cows run up to \$50 or more, while pure bred cows often go double that amount. Bred cows are offering 80 to \$85 for fat cattle for day delivery. The market for the ordinary horse is rather flat, while good horses always fetch their value. Fat laid eggs are 35c and butter 30c; potatoes, 315 a bag—C. H. S.

HEMIRA, Jan. 21.—We have now set in full force and is not using any time in making up for the mild weather heretofore. On Jan. 11th and 12th the mercury went down to 26 below zero. Sleighting is grand at present and considerable teaming is being done. Farmers are shipping a lot of turnips, root crops, 12c to 13c a bushel. As cattle were too high to buy and feed, the farmers are selling their hushes. The price of fat cattle is 75 to 80 live weight; hogs, 80; horses are cheap and plentiful. Auction sales are becoming more numerous, and prices of farms are well maintained. The Women's Institute of West Montrose held a food supper in the Farmers' Club Hall on the last Friday of the old year. It was a decided success. Our Farmers' Institute meetings this season were poorly attended on account of the extreme weather, but the meetings showed more interest among the farmers, B. S.

MIDDLESEX CO., ONT.

LAMBETH, Jan. 29.—We have had three weeks of good sleighing, but the soft weather lately has about knocked it out. The winter has been ideal throughout, and no complaints about the shortage of feed. A. E. Clinton is busy buying a well; they are down 500 feet and more, but still drilling away, he is getting a sufficient supply of water for his stable full of milch cows. Mr. Clinton finds a wonderful difference in the flow of milk from his cows when they are forced to drink out of doors. The clover growers are going to their rounds, but little need is found for their labor. The seed spring campaign of the farmers are already being planned. Some are giving up farming; going to try something more congenial.—J.

NEW WESTMINSTER DIST., B.C.  
MATUNJUL, Jan. 28.—So far we have had a very open winter. Grass is green and growing. Dairy products are in strong demand. A lb. butter fat being offered for milk. Good cows sell at low prices. \$14.00 was recently offered for 90 grade cows in one herd and refused. Meat, except pork, in strong demand. Ice is offered for dressed veal, live, up to 10c the weight; potatoes going up, recent sales \$20 a ton at shipping point; hay sold, \$12 to \$14. McLaughlin's have recently completed a factory in this district to make the Laurentine Process Milk, but are not likely to operate until spring.—H. F. P.

## Experience is an Expensive Teacher

Follow in the footsteps of those who have learned by experience about **The New-Way** AIR-COOLED ENGINE.

### Economy Counts

Brighton, Ont.  
This is to certify that I have used a "NEW WAY" AIR COOLED ENGINE for five years, and have found it to be genuine in every way.

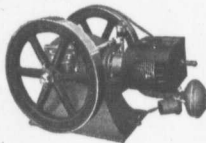

It cannot be beaten for reliability, durability, power, efficiency and fuel economy. It never overheats in the hottest of weather or freezes in the coldest of weather.

S. W. Chatten.

# Dealers WANTED

The very active interest taken by farmers throughout the Dominion in better methods of fertilizing, has created an astonishing demand for Davies Special Mixed Fertilizers.

As we want to supply this demand through dealers, we are offering an attractive proposition to reliable parties in Ontario, Quebec and the Maritime Provinces, who can handle quantities of 50 tons (minimum carloads) or more. This proposition is open to any regular fertilizer dealers or no.

It offers a very profitable side-line for seedmen, Implement Dealers, Flour and Feed Men, Millers and progressive Farmers, in districts where we are not at present represented.

## DAVIES SPECIAL MIXED FERTILIZERS

have an extremely good performance record, having produced remarkable results for many farmers. They are prepared by using only the highest quality materials and are mixed under the supervision of experts. They are put up in 125 lb. bags (tariffs if desired).

'Goods are guaranteed to be in perfect condition.

We especially recommend our factory mixed high-grade fertilizers analyzing from 4 to 16% POTASH.

This is a splendid opportunity. Write us immediately about it before all the remaining territory is taken up.

The **DAVIES** Company Limited  
West Toronto, Ont.

## Farm Lubricants

### Prairie Harvesters Oil

Stops friction and wear. Non-corroding. Not affected by weather.

### Capitol Cylinder Oil

The most effective and economical lubricant for steam engine cylinders.

Recommended by engine builders everywhere.
