

Mr. Married Man---Do This

Write out instructions for your wife to follow with reference to earning an income for the support of herself and your children after your death.

After you have found out how "easy" it is to write out these instructions, figure out how "easy" it is going to be for your wife to carry them out.

The task we think will convince you that you must maintain as much life assurance as you can possibly afford in order that your family shall not be dependent upon the charity of others, if you should die.

Don't put it off. Don't say that you expect your business to be in such shape that your family will have nothing to worry about. Think of all the men who do not own \$500 in real money today who were worth thousands of dollars two years ago.

If you haven't all the life insurance you can afford write for our booklet entitled "The Creation of an Estate." It will interest you.

For the Business Man on the Farm

The desk pictured above—the "Efficiency Desk" will do for you, in your record-keeping, what the automobile and the modern tractor have done in the field of actual farm development.

In it you can keep, indexed for instant reference, your Government reports, your market prices on produce for use in basing future prices, and your clippings from farm papers on interesting subjects.

Your accounts, taxbills, insurance papers—everything fits into it—and right at your fingers' ends. You've probably been looking for something like this before—a desk and a record-

keeping convenience combined. Here it is to suit your needs exactly—and at the price of a desk alone.

Take a pencil now and write a postal to our nearest branch for descriptive folder and price.

PEERLESS PERFECTION

FENCE

Does all you could wish for a poultry fence and more. Built close enough to keep chickens in and strong enough to keep cattle out. Even small chicks cannot get between the close mesh of lateral and vertical wires. The heavy, hard steel top and bottom wires together with intermediate laterals, will take care of a carelessly backed wagon, or an unruly animal and spring back into shape immediately. The wires are securely held together at every intersection by the Peerless Lock. This is not a netting but a real fence—built in line with our usual good standard of excellence.

Peerless Perfection Field Fence

is Strong—Yet Springs as a Bed Spring. Animals can't break through it no matter how hard their attacks. It simply can't be broken. Just springs back in shape like a bed spring. It's made of heavy Open Hearth steel galvanized wire with all the impurities taken out and all the strength and toughness left in. Will not corrode or rust. Top and bottom wires are

extra heavy. Will not sag. Requires less posts than ordinary fence. Absolutely guaranteed.

Peerless Ornamental Fencing

accomplishes two great purposes. It beautifies your premises by giving them that symmetrical, pleasing, orderly appearance, and it protects them by furnishing rigid, effective resistance against marauding animals, etc. We make gates to match, that are equally attractive.

The Fence that It never needs repairs. It is the cheapest fence to erect, because, owing to its exceptionally heavy top and bottom wires, but half the usual amount of lumber and posts are required. Saves Expense and address of nearest agent. We also make a complete line of farm and ornamental fencing. Agents nearly everywhere. Agents wanted in unassigned territory. Send for Literature

The Water Cure.—A Swedish farmer, who lived on his wheat farm in Minnesota, was taken ill and his wife telephoned the doctor.

"If you have a thermometer," answered the physician, "take his temperature. I will be out and see him presently."

An hour or so later when the doctor drove up, the woman met him at the door.

"How is he?" asked the doctor.

"Vell," said she, "I bane put the barometer on him like you tell me, and it say 'Very dry,' so I give him a pitcher of water to drink, and now he ban gone back to work."
