Wm. Grainger & Son, - Londonboro, Ont.

### NOTICES.

**Fruit and Ornamental Trees, Roses, etc.**—There is no good reason why every farmer who owns the land he cultivates should not have fruit and ornamental trees, roses, shrubs, etc., to the extent of beautifying his home and enjoying a constant supply of the most healthful and pleasant fruit. Nor is this privilege confined to owners of land, as tenants having even a short lease can set out many sorts of vines and bushes that will afford luxurious returns in a short time. The Central Nursery firm of A. G. Hull & Son, of St. Catharines, Ont., live and study and work to supply the best stock of the best varieties, at reasonable cost. Their nineteenth annual Catalogue should be sent for after looking up their advertisement in this issue.

**Bruce's Seed Catalogue.**—The firm of John A. Bruce & Co., Hamilton, Ont., after 45 years of business with the agricultural and gardening public, enjoy the confidence of their numerous patrons. Their 48th annual edition of their illustrated catalogue of seeds for the farm, vegetable and flower garden, greenhouse and forest, of garden implements and agricultural or horticultural sundries, for 1899 is a valuable handbook of information along its own particular lines. The seed grains, grasses, corns, etc. dealt in are chosen for their intrinsic worth, found out from wide experience. The catalogue is a safe guide to growers and purchasers, and the values offered are exceptionally favorable.

**Rennie's Seed Annual.**—The arrival of a copy of Rennie's Seed Catalogue reminds us that the season of snow and frost will soon be over, and the time for planting and sowing begun. If the articles offered in this catalogue are as fine in quality as the book is in appearance, there is a treat in store for all who patronize this wide-awake firm. Buyers of seeds and plants will do well to secure a copy, which may be had on application to Wm. Rennie, corner Adelaide and Jarvis streets, Toronto. We notice some items of especial interest to farmers among the new fodder plants; also in the field root and vegetable seeds, and, in fact, throughout the whole catalogue there are exceptional values offered in both the vegetable and flower departments.

**Carter Wire Fence Machine.**—A perfect fence at a proper price must be a subject of interest to every progressive farmer, stockman and poultryman. A perfect fence should not only be strong, able to withstand wear and tear, construction and expansion, fully adapted to the purpose for which it is required, not liable to get out of repair, but it should also be slightly. To fairly come within the limits of "proper price" a fence should cost but very slight advance over the price of the material used in its construction. The Carter Wire Fence Machine Company, of Mt. Sterling, Ohio, has solved the problem and provided the way to procure a perfect fence at a proper price. Those interested are advised to write to The Carter Wire Fence Machine Co., Box G., Mt. Sterling, Ohio, for their latest illustrated catalogue.

**Testing Milk and its Products.**—In 1897 the first edition of Farrington & Woll's "Testing Milk and its Products" was issued, and in a little more than a year three editions were sold out completely, so well was it received because of its readable and enlightening form. The fourth edition, which has been revised and enlarged, bringing it quite up to date, has recently been issued, and we predict for it a great demand. Its editors, Professors Farrington and Woll, of University of Wisconsin, have shown themselves to be eminently practical and thoroughly qualified to compile this work, which has been adopted as a text-book in many of the American and Canadian Dairy Schools. The chapter upon "Testing Milk on the Farm" gives it a special value to dairy farmers who are desirous of conducting their dairy on strictly business principles. The book sells for one dollar and is included in our book premiums.

**The Best Seeds Absolutely Necessary.**—We cannot too strongly urge the importance of planting seeds that are perfectly pure and fresh. Seeds that are offered at cheap prices are apt to be of doubtful origin and uncertain age, and to cause the planter disappointment and loss. The thoughtful planter's only surety lies in buying seeds sent out by a thoroughly trustworthy house. A vast number of Canadian gardeners have the utmost confidence in seeds that bear the name, D. M. Ferry & Co., Windsor, Ont. The present generation of planters can hardly remember the time when Ferry's Seeds were on sale everywhere, each year and as regularly planted by thousands—with the greatest faith in the unvarying quality of the seeds and in the integrity of the firm that grew them. Every planter, whether already a buyer of Ferry's Seeds or not, should send for Ferry's Seed Annual for 1899. It is mailed free to anyone who writes for it.

**Farmers' Institutes Report.** The report of the Superintendent of Farmers' Institutes of the Province of Ontario for 1897-8 has been issued, and combines perhaps the greatest amount of readable and useful matter on five agricultural topics that has appeared in any recent Government report. The volume includes some 150 pages, which are liberally and helpfully illustrated. The four pages of index renders the book a convenient reference work upon agricultural subjects, both in and out of the house. The departments dealt with are the following: Agricultural education, practical agriculture, live stock, dairy, horticulture, poultry, home and household, fish culture, entomology, ornithology, good roads, and reports of American and European experiments.

### A CURE FOR ASTHMA.

Asthma sufferers need no longer leave home and business in order to be cured. Nature has produced a vegetable remedy that will permanently cure Asthma and all diseases of the lungs and bronchial tubes. Having tested its wonderful curative powers in thousands of cases (with a record of 90 per cent. permanently cured), and desiring to relieve human suffering, I will send free of charge to all sufferers from Asthma, Consumption, Catarrh, Bronchitis and nervous diseases, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail. Address with stamp, naming this paper, W. A. NOYES, 320 Powers' Block, Rochester, N. Y.
