SALT

"A WORD TO THE WISE."

"Salt may be described as a powerful chemical agent for providing and preparing soluble food for plants from the materials present in the soil. This is a most important consideration when we remember that in all soils there are about two-thirds lying dormant and only one-third in active condition."

We sell all kinds of salt in all kinds of packages, barrels, bags or bulk. Unequalled shipping facilities. Higher grades of salt for dairy uses a specialty.
