

GOSSIP

Parties wishing to procure a stallion of proved merit as a getter of carriage and road horses should note the advertisement of Sam Maclean, Franklin, Man., C. P. R., M. & N. section, offering for sale the registered Hackney stallion, Confident Squire, champion at Winnipeg in 1901 and at Brandon, 1904. This horse is strongly built, a good actor, weighs about 1,400 lbs., is sound and sure at the stud. At the Northwestern Agriculture and Arts Association's Exhibition at Neepawa, his colts have been winners, in 1904 taking the red tickets in the light classes for two-year-olds, yearlings and foals. Confident Squire is a young horse, and he is to be sold to settle up dissolution of partnership. The Hackney horse is the light horse for farmers, and according to that well-known horseman, Robert Ness, is the ideal horse for crossing on mares with blood of the Standard-bred, the mating resulting in a useful animal, with plenty of good looks, size, action and quality. The use of the Hackney stallion on mares with a bit of hot blood is no experiment, and has been demonstrated time and again, and if any of our readers are wedded to the general-purpose horse, we would suggest this way as one to get him. S. Maclean's stud farm is only a few miles south of Franklin, and the horse can be seen there by appointment. The chance to get a sure horse used to the climate, and of the quality and calibre of Confident Squire, is not open every day, and should be snapped up quickly.

Next winter it is the intention to add prizes for fat cattle and bacon swine.

# PAGE FENCE—The WHITE Brand

All Page Fencing and Gates shipped from our factory in future (except our railroad fencing) will be painted WHITE, a trade-mark as it were, in order that ours can be readily distinguished from others at a glance. There now are other fences which at first appearance look much like ours though they are much different in quality. By coating ours WHITE there can be no confusion among buyers.

While this coating of WHITE gives Page Fence and Gates a distinguishing feature, it will also be a preservative as an aid to the galvanizing in preventing rust. It is now commonly known to everyone that even galvanized wire will, in certain localities, rust.

In addition to these, we are making several other changes and improvements in our goods that will make them still better than ever, and still further ahead of all competitors. Get from us, or local dealers, printed matter explaining everything about our Fences, Gates, Lawn Fences and Netting.

Remember:—Page Fence is WHITE, WHITE, WHITE. And Page Gates are WHITE.
