PROSPECTUS.

THE DOMINION TELEGRAPH COMPANY has been organized under the act respecting Telegraph Companies, chapter 67, of the consolidated Statutes of Canada. Its object is to cover the Dominion of Canada with a complete net-work of Telegraph lines.

The Capital Stock

Is \$500,000, divided into 10,000 shares of \$50 each, 5 per cent to be paid at the time of subscribing, the balance to be paid by instalments, not exceeding 10 per cent per month—said instalments to be called in by the Directors as the works progress. The liability of a subscriber is limited to the amount of his subscription.

The Business Affairs of the Company.

Are under the management of a Board of Directors, annually elected by the Shareholders, in conformity with the Charter and By-Laws of the Company.

The Directors are of opinion that it would be to the interest of the Stockholders generally to obtain subscriptions from all quarters of Canada, and with this view they propose to divide the Stock amongst the different towns and cities throughout the Dominion, in allotments suited to the population and business occupations of the different localities, and the interest which they may be supposed to take in such an enterprise.

Contracts of Connections.

A contract, granting permanent connection and extraordinary advantages, has already been executed between this Company and the Atlantic and Pacific Company, of New York; thus, at the very commencement, as the Lines of this Company are constructed from the Suspension Bridge, at Clifton (the point of connection) to any point in the Dominion, all the chief cities and places in the States, touched by the Lines of the Atlantic and Pacific Telegraph Company, are brought in immediate connection therewith.

A permanent connection has also been secured with the Great Western Telegraph Company, of Chicago, whereby this Company will be brought into close connection with all the Lake Ports and other places through the North-western States, and through to California.

Extract of Hemlock Bark—Extract of Oak Bark

Important to Tanners, Merchants, Machinists, Lumbermen and Capitalists seeking for a Remunerative and Profitable Investment in Canada.

THE IRVING BARK EXTRACT COMPANY OF BOSTON have succeeded in perfecting a Machine for obtaining by compression from unground Bark, all the astringent and Tanning properties of Hemlock and Oak Bark.

By the operation of this Machine, which can be taken into the forests of Canada, on the spot where the Bark is peeled, the actual Tanning principle of the Bark is extracted by compression, and is produced in so concentrated and so small a bulk, that it can be conveyed to market, ready for use, at a mere fractional part of the expense required to freight the crude Bark: 40 galls of this Extract, weighing 400 lbs., can be obtained from one cord of first quality of Hemlock Bark, and this is worth for home use or for exportation \$20 per barrel.

We are now ready to grant licenses or to receive orders for these Machines.
