EDITORIAL NOTES.

The business of the Session in the House of Commons is coming near to close. The Redistribution Bill ha passed its third reading and has bee handed over to the Senate. It is expected that the Senate will pass without much debate as it only cor cerns the House of Commons represer tation. The Senate will likely reserve its force for one great vigorous kick a the Premiers bill for Senato reform The supply bilt, in many of its items has passed the committee. The conmittee on privileges and elections me on the 18th to enquire into the alleger frauds in the West Huron election. Jong discussion arose as to whether voters should be asked how they have voted at certain polls on the day of the election, but it was ruled that the Returning Officers and other official present at the polls would have to be examined first. The Senate reform resolution reads as follows: That at humble address be presented to her Majesty the Queen setting forth that the provisions of the British North America Act, 1867, respecting the pow ers of the Senate of Cadada in the making of laws, are unsatisfactory, and should be brought more into har mony with the principle of popular government, and praying that her Majesty may be pleased to recommend to the Imperial Parliament a measure for the aniendment of the said act, in such terms as will effectually make provisions as follows: If the House Commons passes any bill which the Senate rejects, or fails to pass, o amends in a way not acceptable by the House of Commons, then if the House of Commons, at the next following session, again passes such bill, and the Senate again rejects or fails to pass or amends the same in a way no ed by the Commons, the Governor General may, by proclamation, convene one or more joint sittings of the mem bers of the two Houses, for the furthe consideration of such bill or amend ments, and a question whether such bil or amendments shall pass shall be decided by a majority of the members of the two Houses present and voting and the vote of any such joint sitting shall, as respects such bill or amend ments, have the same force and effect as a vote of the Senate under the existing constitution.

There is very severe criticism in the London papers regarding the conduct of the campaign in the Philippines. Secretary Alger and General Otis are blamed very much for the nature of the appointments, and for the suppression of correspondence regarding the actual state of affairs in the Islands. The papers claim that the people of the United States are hoodwinked and kept in ignorance in reference to the progress or want of progress of the campaign. wspaper correspondents at the seat of war are willing and anxious to keep the people informed of everything that comes under their notice, but they are not allowed to send the news until all that is objectionable to the General is culled out.

The special Strike committee of the London, Ont., city council have reported the complete failure of their efforts to effect a settlement of the dispute between the street railway company and their employees.

So close is the supervision of the Napanee jail authorities over Pare and Holden that they are allowed neither knife or fork at their meals. Their chances of again regaining their liberty for some years are not of the brightest.

The Volksraad passed the seven years franchise proportion on Tuesday the 18th inst. The Times this morning the 19th inst. says: "The Government attacks the highest importance to the Volksraad's seven year proposal, which is regarded as practically ending the Prisis."

REAT ADVANTAGE AND CONVEN-LENCE OF THE INSTITUTION,

Frompt, Clean and Stylish Work. Which Gentlemen Appreciate,

The demand for prompt work, thoroughly done and stylish in effect, created the modern steam laundry. It is absolutely impossible to launder shirts, collars and cuffs at home in a manner to satisfy the tastes of welldressed gentlemen. The adapting of machinery and the economy of labor has caused this to be effected. Our well-dressed young men can now have their laundry work done to suit them and done promptly on time, at less expense all around than if done at home, not to speak of the worry and frritation which are saved.

The Parisian Steam Laundry of Ontarlo, Limited, Toronto, Hamilton, and London, offers this very necessary finishing to all who would appear well dressed. By leaving their orders at the agency in this town, our young men can be certain of having them executed in quick time and in the very best manner. The far-famed "Parisian" is an old-established laundry, and it has the most complete machinery in America. It is conducted by people who have made the business a lifestudy, and who seize upon every new study, and who seize upon every new improvement and turn it to the benefit of their customers. This the abundant capital of the concern always enables it to do. Shirts, collars, and cuffs from the Parisian Laundry retain their shape and cleanliness twice as long as when laundered in inferior places.

places.

The "Parisian" guarantees the best The "Parisian" guarantees the best work to be had anywhere in the world, and at prices which defy competition. There is no reason why this should not be so, when we consider the extensive facilities and long experience it has enlisted in the business. We do not deem it necessary to advise the young men and older men of our town who wish always to appear well. who wish always to appear well-dressed to "get the best" in laundry work when the best costs no more than what is far inferior. So that it will not be required to urge them to send their work to the Parisian Laundry. The foreigning fasts are enough dry. The foregoing facts are enough to convince all interested that it is their best policy to do so.
