

Everything For Your Comfort

There can be no comfort in ill-fitting footwear. Uneasy lies the foot that wears a wrong shoe. A wrong shoe is one that certain dealers sell you merely to get your money for once. We aim to make a regular customer of the buyer; therefore, we couldn't afford to sell him a wrong shoe. Besides, there are higher motives governing us in conducting an honest business. We've built a tidy trade on a basis of fair and square dealing. We don't mean to have the superstructure tumble. What you buy here you can depend upon; and if ever you've cause to feel dissatisfied we give you back your cash.

IS GETTING WELL.

This Man Never Swallowed a Bite For Months.

Then He Got Hungry and the Surgeons Fixed Him up by a Wonderful Operation.

Omaha, Neb., Dec. 8.—A remarkable surgical operation of a most delicate character was successfully performed at St. Joseph's hospital by an Omaha physician, John Getch, of Norfolk, who lived for eighteen months on food inserted into the stomach by means of a rubber tube, was placed up on the operating table and had the artificial orifice in his stomach closed and completely mended, after the greater portion of his internal system had been turned, twisted, kneaded and all but ruptured.

The troubles of John Getch, began about two years ago, when he swallowed a quantity of concentrated lye. The agony over Getch found a stricture of the throat had resulted. The swelling continued until this organ was absolutely useless and Getch could swallow nothing. For eleven days he went without food and finally begged to be killed.

The abdominal walls and the walls of the stomach were sliced and a rubber tube inserted. This operation was performed a year and a half ago. Getch proved an admirable patient. His constitution was an excellent one and he soon grew strong on a diet of milk and whiskey. For eighteen months he was satisfied to take his food through the tube, but at length he grew hungry for a bite to eat. In order to satisfy his appetite he first masticated the prescribed foods between his teeth and then fed himself through the tube. But even this process failed. New hopes were held out to him of complete recovery. Another operation was suggested and he consented to again submit to the knife of the surgeon. The operation is one of a very small number in medical history.
