

JUDGMENT FAR REACHING

In the Case of Northern Securities Company, Monopoly of Transcontinental Traffic Has Been Broken—Railroads Must Compete or Stop Business.

Special to the Daily Nugget.
St. Louis, April 11.—Assistant Attorney General William Day, who was in charge of the Northern Securities case has given out a statement relative to the decision, saying in part: "The judgment is one of far-reaching consequences. It reaffirms the right of the people to be free from the slavery of monopoly. By this decision all doubt is resolved in

to certainty and all may know the limits to which such combinations in restraint of commerce may go. The railroad monopoly which stifled the entire trans-continental and transpacific transportation business has been broken and the combination resolved into its original elements with the decree of the law that they shall compete."

CONCERNING PUBLIC PARK

Occupants of Reserve Not to be Ousted

At Least Not at the Present Time. Wait Until Appropriation is Made.

In official circles it is considered somewhat doubtful if Dawson will be able to enjoy this summer the parks that were planned by the Hon. J. H. Ross while he was still commissioner of the territory. Why such is true no one seems to know, but it is a fact that the occupants of the government reserve both that on First avenue and also the tract upon which stands the Administration building are not to be disturbed on May 1 unless other orders are received between now and that time. It was the idea of Mr. Ross as was freely given out to the newspapers to make a public park out of the grounds surrounding the Administration building extending from Church street on the north to the slough on the south and from Fifth avenue to the lane which is between Sixth and Seventh avenues. With that object in view, an order was issued to all the occupants of the tracts to vacate not later than May 1, but to date no one has paid any attention to such, they seeming to know that the order will not be carried out, at least not at present. The persons affected on the Fifth avenue tract were the Masonic hall, J. B. Tyrrell and the Tennis Association. The Salvation Army was to have been dealt with direct from Ottawa. On the First avenue tract were D. W. Davis, the Yukon Sun and the Bank of Commerce mess.

The main cause of the present delay and that of not enforcing the order made with reference to the removal of those who have been notified, is said to be due to the department here not knowing whether or not an appropriation has been made for the purpose of beautifying the grounds. It is considered that if no appropriation is made there is no use in dispossessing those who are regarded as trespassers. A certain sum was asked for the purpose of establishing the parks but until the estimates are received it will not be known if such has been granted and nothing will be done until that time, which will probably not be before the latter part of June. Last year there was a small appropriation made for that purpose but it has been otherwise employed. A portion of the fund is still available but is now being used to place gutters around the eaves of all the public buildings.

At the office of the department of public works it is believed that the ideas of Mr. Ross will certainly be

carried out, but just how soon they are not prepared to say. Mr. Bertrand is now giving considerable attention to the question of what variety of trees it would be the best to ornament the grounds with. It is his opinion that a species of maple that grows very well through Manitoba would do well here, the climatic conditions being largely the same. Crown Timber Agent Martin had a talk with Commissioner Congdon this morning with reference to the parks and it is quite likely that there will be matters for publication concerning the same within a few days.

JUDGMENTS BEING PAID

Temporary Embarrassment of Adair Bros. Relieved

The temporary embarrassment which came upon Adair Bros. last week and which the Sun took particular pains to make a scare-head story out of much to the disgust of the business men of the city, has been relieved and the incident which really amounted to nothing has passed. The claims which were unexpectedly demanded paid aggregated about \$4000 and these together with all the costs and expenses that were incurred are being liquidated today as fast as the totals are made up. The seizure could not have been otherwise than temporary as the stock of the firm and other assets amount to a great deal more than all the liabilities combined and it was considered very ill advised by business men in general for the Sun to have given a matter of such comparative little consequence so much prominence. Here in the city it does not make so much difference, but upon the outside where none of the conditions are known such heedless reports work an injury not alone upon the firm directly concerned, which may be solvent a half dozen times over, but upon every firm in the city which possesses credit with outside houses. Adair Bros. have an immense stock on hand and as soon as the spring trade opens up and the wash-up is well under way so that accounts carried during the winter can be realized upon there is not the slightest shadow of a doubt but that every obligation will be met as presented.

NEW CATALOGUE

Has Been Published by Dawson Hardware Co.

The Dawson Hardware Company have issued a splendid catalogue and price list of miners' supplies carried by them. The book has a handsome lithograph cover, is printed on heavy paper and contains fifty pages. In addition to the list prices of articles carried by the company, there are a number of pages devoted to historical notes in reference to the Yukon territory and its growth in population, and from a mining and commercial point of view.

Customs business, transportation, school facilities, roadways, quartz mining, gold output, fuel supply, gold values, and hydraulic mining are some of the topics handled and

they are all treated in an able and convincing manner.

The catalogue marks a distinct departure in Yukon business methods and furnishes proof of the permanence and stability of local commercial houses.

CLEAN UP AT HAND.

Horkan as Usual Heads the Procession

The cleanup season is right upon us and with his usual progressiveness Manager Horkan is at the head of the procession. His cleanup plant consists of a large number of porcelain tubs, several shower baths and a fine plunge tank all of which are now available to the public for the nominal sum of 50 cents.

The plunge is 25 feet long, 7 feet in width and six feet deep. The water is kept at a temperature of 70 degrees. After using the tubs or showers, patrons are at liberty to enjoy a good dip in the tank. It is worth a visit to the Standard Library just to see the various features of that excellent institution.

EASTER SERVICES

At All the Churches Tomorrow

Both in the Morning and Evening. Special Music Has Been Prepared.

Easter Sunday will be celebrated tomorrow with special services and music fitting the occasion by all the churches of Dawson. The forty days of fasting and self-denial commemorative of the suffering endured by the Savior have passed and Easter Sunday opens up the brighter period of the joy which the knowledge of the resurrection has brought to the world. Joy and gladness will once more permeate the earth and the glad news of Easter tidings will be heralded from pole to pole.

There is only one regret which can be offered regarding tomorrow's services as far as Dawson is concerned and that is that the season has been so backward that the flowers have not yet come from blooming. Two years ago the hills were covered with beautiful wild flowers and the decorations were exceedingly pretty.

All of the greenhouse plants that are in bloom will be pressed into service but there are not many and they will hardly go around among the churches.

At the Methodist church the services will be devoted exclusively to the theme of Easter, and the subject of the pastor's address for the morning will be "The Fraternity of the Upper Room," and for the evening service, "Am I My Brother's Keeper?" The special music will be "Morning-Quartet," "The Wondrous Cross," Parks, Mrs. Libby, Miss Elsa Larsen, Messrs. Alwyn and McLeod; Song, "There is a Green Hill Far Away," Gounod, Mr. McLeod.

Evening—Anthem, "Christ is Risen," Shilling, solo by Mrs. Libby; Mrs. Fysh and Mr. McLeod; Song, "The Palace of the King," Julian, Mrs. Fysh; Solo for trombone, "The Palm," Faure, Mr. Wm. Douglas; Solo from Handel's "Messiah," "I Know That My Redeemer Liveth," Miss Katherine Kreig. Benediction hymn unaccompanied, "Now the Day is Over," Baraby, the choir.

At the Presbyterian church Rev. Dr. Grant will preach on different phases of the resurrection and special music will be rendered as follows:

Morning—Air, "I Know That My Redeemer Liveth," from Handel's "Messiah," Mrs. P. R. Ritchie; Anthem, "Break Forth Into Joy," Baraby, the choir.
Evening—Recitative and air, "Behold I Tell You a Mystery," and "The Trumpet Shall Sound," from "The Messiah," Handel; Mr. C. W. MacPherson; Quartet, "Christ is Risen," Schnecker; Messdames Ritchie and Thompson and Messrs. McMeekin and Bozorth, with tenor solo by Mr. McMeekin; Anthem, "Sing Alleluia Forth," Buck; the choir, with solos by Mrs. Ritchie and Messrs. McMeekin and Bozorth.

At St. Paul's Episcopal church the order of services will be: Holy communion at 8 a.m., matins, reading of the litany and the celebration of the holy eucharist at 11 a.m. and evening song at 7.30. Special music will be rendered at the morning and evening services under the direction of Miss Miles.

The old reliable Bay City Market will be open for business April 11th on Second avenue next door to Sargent & Pinska, under the management of Chas. Bossuyt, who will be pleased to see all his old customers and friends.

LAWYERS WALLOPED

Civil Service Pass Out a Nice Bunch

Two Scratch Games at the Curling Rink and How They Resulted.

It occurred yesterday afternoon in the reading room of the Athletic club, at least that is where the proposition was sprung, the challenge hurled and the deed posted. There were a number of civil service chaps hanging about waiting like Macabber for something to turn up when in sauntered several lawyers. It will probably always be a mystery why the barristers are considered legitimate prey for everyone in the athletic line, but it is an indisputable fact that no sooner is a game of any character proposed from ping pong to a battle with Winchester and bowie knives than invariably the lawyers are invariably the winners. One would imagine they were the hereditary enemies of all mankind from the desire evidenced to secure their scalps upon every provocation. With that end in view several tries have been made by the other professions, notably during the past winter on a field of ice, but they not only managed to hold their own, but did a little better both with the merchants and doctors. But that is another story.

As stated, they wafted into the reading room with a blase air which might have been interpreted into a challenge for a go at any old thing with no limit to the stakes. The civil service chaps were likewise somewhat lackadaisical and each one carried a chip on his shoulder. A scratch game of curling was proposed, the lawyers against the government employees, both rinks to be occupied. It was proposed that the game be played on the rinks and positions of play were drawn for and a moment later the two matches were being pulled off.

The barristers may excel in hockey, they may be stemwinders at foot ball and may be able to put up a pretty good scrub game of base ball, but when it comes to playing the stuns they haven't enough of a burr to their voices to compete with the MacEllibees, MacSenkles, MacLithgows, MacNobles and a few others who are past masters in the art of putting away porridge. The rink skipped by Billy McKay did pretty well, as they had the advantage of having the assistance of two outsiders, but that of Capturing Hulme was very much to the bad, astonishingly so when it is considered the rink was composed wholly of young bloods the lustre of whose eyes had not in the slightest been dimmed by late hours and unlimited high balls. Still, as "Dad" remarked, they played pretty good for boys. The score and personnel of both rinks was as follows:

Civil Service—David Macfarlane, lead; J. T. Lithgow, second; R. J. Filbeck, third; W. R. Hamilton, skip; score, 12.
Lawyers—O. H. Van Milligan, lead; W. G. Haultain, second; A. M. Thornburgh, third; Wm. McKay, skip; score, 11.
Civil Service—E. C. Senkler, lead; A. R. Boyes, second; Charles Macpherson, third; W. C. Noble, skip; score, 17.
Lawyers—A. G. Smith, lead; F. G. Crisp, second; J. Kenneth, Macrae, third; H. D. Hulme, skip; score 8.

Mr. Emil Stauff, the well known real estate man, is expected to arrive in Dawson tomorrow, returning from a trip to the coast, where he went for the benefit of his health as well as on business. Mr. Stauff left Dawson about six weeks ago and is said to be returning greatly benefited by the trip.

a specific microb organism. This was the great fundamental fact. Later it became evident that these microscopic parasites cause disease by certain chemical poisons which they produce, called toxins. In many cases the micro organism, it grows in culture tubes outside the body, will produce the same toxins. After being separated from the living germs which produced them these substances will produce all the symptoms of the disease when injected into an animal body. The body at the beginning of an attack of fever is not, however, passive. Its cells react against the poisons intro-

duced and a struggle ensues, the result of which is life or death, the latter being purposeful and definite. The body cells secrete a specific chemical body which has the power of producing, or neutralizing, the particular toxin introduced. This is called the antitoxin. When a man is covered from an attack of anthrax germs which produced them these substances will produce all the symptoms of the disease, and his after immunity it seems probable, is due to the antitoxins once produced. C. E. Winslow in Atlantic.
